THE GIANT AMONG TOMATOES
**THE LEMON CUCUMBER**

**AREAL NOVELTY**

**LEMON CUCUMBER**

Something Very Interesting for Your Garden.

The Lemon Cucumber is a novelty of great merit. It is nearly round with attractive green and yellow markings similar to a lemon, but has a smooth skin. The flesh is tender and crisp and possesses a flavor that is surpassing to most cucumbers. The fruit is from 2 1/2 to 3 inches in diameter, run uniform in size and are unequaled by any other cucumber for pickling, either when green or ripe. They can be used for the table the same as the ordinary cucumber and for that purpose should be used just as the fruit is beginning to turn yellow. Considering all the good points of the Lemon Cucumber, we can guarantee our customers that they will not consider their garden complete without them after they have given them a trial. Many who have grown it say they prefer it for quality and productiveness to any other variety. Be sure to grow a few for they are very interesting as well as useful and attract a great deal of attention.

---

**THE CASABA**

A Rare New Vegetable from California

The Casaba is a late variety of Musk Melon which will keep all winter, but should not be confused with them as it is in a class by itself. Wherever grown it is greatly appreciated, and when fully known we predict an enormous demand for it. The New Hybrid grows to a large size—flesh thick and of excellent flavor. It is a rampant grower, a large yielder, and bears well until killed by the frost. It has a handsome color and will attract a great deal of attention wherever grown. The seed should be planted in the spring as soon as the frost leaves the ground and the fruit should be picked before frost in the fall, even if only partly grown, and put in a dry place where they will ripen gradually, and are easily kept for a supply during the winter; at all times having a rich, succulent flavor.

Per packet, 6c.; 3 packets, 15c.; 7 packets, 30c.
MILLS' SEED HOUSE

TO OUR CUSTOMERS:

Again we extend a cordial greeting to those who have used our seeds in former years and do not feel that it is necessary to impress you with the excellence of the stock we offer, since you are acquainted with them by the results you have obtained in the past.

If you desire to raise the choicest vegetables or the most beautiful flowers you should always plant seeds of selected strains, which have been carefully grown from the best seed stocks, and this is what we aim to furnish our customers every year, for we have but one grade of seeds to offer, and we believe this is the best that can be grown.

But we know we must have a few, for the reason we now have on hand, unfilled, over 500 orders from people who sent us their order for different amounts from 5c. to $5.00 and omitted giving their name or address and we have no way of knowing to whom these orders were sent us these orders. After reading this, if your order was not filled let us hear from you, (but be sure to send duplicate of order) as we are waiting from all who have any cause for complaint, assuring everyone we try to satisfy each customer. If your order was not completely filled, write us, (giving name of varieties short,) so we can look up and make good.

There is no Seed House more anxious to satisfy its customers than we are and if you will send us an order we guarantee to please you.

Our Seed House is heavily stocked with seeds of the varieties we offer this year and we shall greatly appreciate your orders and will give just as careful attention to filling a 10c. order as one of $10.00.

F. B. MILLS CO., SEEDSMEN.

MILL'S SEED HOUSE

INSTRUCTIONS

How to Order. It is very easy for anyone to order Seeds, Bulbs or Plants from us. In making out an order always write the Name, Post Office, County and State the first thing you do, and then write the varieties you want, quantity of each and carry out the catalogue price after each one and enclose the total amount, in any convenient form of remittance and send it to us by mail and we do the rest. Be sure to use our ORDER BLANK if you have it, if not any writing paper will do.

Free by Mail or Express. We send Seeds, Bulbs and Plants postpaid by mail at the prices named in this catalogue, except where there are special quotations for the goods to be sent by Express, customer to pay the charges. To points where the Express Companies touch we can send some orders as cheaply by Express as by mail. Whenever we do this we notify the purchaser to that effect. This brings our seeds to the door of our customer without any trouble and expense.

Express or Freight. With our increased facilities we can make prompt shipments on all articles that are to be sent by Express or Freight, and we secure the lowest Express or Freight rates possible, but we do not pay the transportation charges, and it should be understood that the customer pays them upon receipt of goods.

Prepaid Railroad Stations. Many of our farmer customers where there are no agents, to whom we can ship when we prepay the charges and wherever it is possible we ship to the nearest station to this prepaid station, as we never pay freight charges. This insures quick delivery and no danger of loss.

How to Send Money. We advise our customers to send money by either Post Office Money Order, Express Money Order, Bank Draft or Registered Letter, Small amounts will be accepted in postage stamps when it is not convenient to send anything else. Silver or gold coin should be tied or pasted in cloth or pasteboard to prevent breaking through the envelope and when it should be registered. Do not send money loose in a letter, it is not safe, and if lost, we are not responsible for it.

We earnestly request our customers to remit by Money Order if possible. The fee on a Money Order is only 5c. to 5c. for small amounts and nearly all Post Offices issue them.

Terms and C. O. D. Shipments. Our terms are strictly cash with the order. We must decline to ship goods C. O. D. unless the purchaser remits in advance at least one-third the amount of the order, and we do not accept C. O. D. Orders for less than $8.00 on any goods we sell.

Lost Orders. Occasionally happens that an order is lost, (that very seldom occurs,) therefore, if you do not hear from us within a reasonable length of time they should send a duplicate order, naming the date on which the former was sent; the amount of money enclosed, and in what form. Do not simply say I sent an order about ten days ago and have not heard from you, but go on and give date and full particulars as requested which will enable us to investigate the matter, and if it cannot be traced, fill the duplicate order immediately. No inquiries will receive attention which do not contain duplicate, etc., will be held responsible for the order, and it is lost, we will refund, but we will not refund for lost orders which we guarantee safe arrival of all orders. If any mistake occurred in ordering any address from which you sent your order.

Our Guarantee. We exercise the greatest care to have all our Seeds, Bulbs, Plants, Roots, Etc., fresh, clean, pure and true to name and to reach the customer in good condition, and grow if properly planted. Our goods must be carefully inspected by purchaser upon receipt, and if they are not found as above, we will refund the order, free of charge, providing sufficient proof is given us within a reasonable length of time. We cannot guarantee crops, and will not be held responsible for them, or for any loss due to them, and if our goods, are not accepted on these conditions, they must be returned at once.

GIANT DEWBERRY

This Wonderful Berry will prove the most satisfactory variety for any section. It ripens its immense crop of fruit several weeks ahead of any other Dewberry or Blackberry. It is a very strong grower as shown by the engraving, and it may be grown on trellises like grape vines. This great Giant Dewberry produces very large, jet black fruit which is very firm and the crop always ripens very fast. Those who have grown it claim it to be the very best berry of its class ever produced. For productiveness it is a wonder and we know of no berry that will equal it. It is perfectly hardy, standing extreme cold, drought and heat; foliage being a darker green than other Dewberries and not inclined to burn in the sun. We recommend it as a fine berry to grow in the north, south, east and west, and an excellent lot of nice plants can be grown by sowing a few seeds which we can supply saved from large selected fruit. Pkt., 5c; 13 ptkts., 12c; 6 ptkts., 20c.

Giant Dewberry

If you receive more than one Catalogue please hand extras to some one you think wants Seeds or Plants...
ASPARAGUS—Four Best Varieties

PALMETTO—This is the finest and best variety grown; remarkably tender and rich when cooked; free from any tough or woody fibre. Pkt. 5c.; pt. 10c.; qt. 15c.; lb. 25c.; 25 lb. 65c.

REMARKABLY—Stalks very large; grow quickly; light in color nearly equal to the Palmetto, but somewhat larger. Per pkt. 6c.; oz. 10c.; lb. 25c.; 2 lb. 40c.; 10 lb. 65c.

CONOVER'S COLOSSAL—A well known large, rapid grower. Pkt. 5c.; oz. 10c.; lb. 15c.; ½ lb. 25c.; 1 lb. 40c.; ¼ lb. 40c.

COLUMBIAN MAMMOTH WHITE—This is a new variety, has white shoots which stay white as long as fit for use. It can be depended upon to give a very large per cent of white plants from seed. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 65c.

STRINGLESS BUSH BEANS—GREEN POD. Beautiful Bush Beans in shape, meaty and of high quality, absolutely stringless and free from any tough lining, not only when young, but this tender quality is retained to maturity. We know all who try this splendid new bush bean will be more pleased and we have a limited quantity of fresh crop seed to offer as follows: Per pkt. 6c.; 2 pt. 10c.; ½ pt. 15c.; 4 pt. 25c.; 1 qt. 35c.; 1 lb. 65c. By express or freight, 50 pts. prepaid, $1.00; 100 pts. prepaid, $1.50.

GIANT STRINGLESS GREEN POD—Is claimed to be absolutely stringless and the best stringless bean. The pods are ready for market several days earlier than the best strain of Red Valentine or Early Six Weeks, making it very valuable. The rich green pods, from 4½ to 6 inches long, are so round that the back is crumpled, and when full grown are of fine flavor and very tender. It is excellent for market gardens and canning establishments. We have the pure stock that we can offer at per pkt. 6c.; 2 pt. 10c.; ½ pt. 15c.; ¼ pt. 25c.; qt. 40c. By express or freight, not prepaid, 4 qts. 90c.; peck $1.50; ½ bu. $2.75.

ARTICHOKE

The Globe Artichoke is cultivated for its flower heads, which are cooked asAsparagus. We offer the Green Globe which is the standard variety. Pkt. 6c.; 3 pts. 15c.; oz. 30c.

BORAGE or KALE

DWARF GERMAN—Largely grown for supplying greens during the fall, winter and spring, also used small like spinach. The leaves are bright green in color, somewhat curly and very tender. Seeds should be sown about May or early in June and when plants are large enough, transplant same as cabbage. Pkt. 5c.; 6c.; oz. 10c.; lb. 40c.; ¼ lb. 50c. 1 lb. 70c. 1 lb. 1,000 76c.

FULL MEASURE.

This is a splendid new round podded bush bean producing round green pods, always solid and stringless, in a very prolific grower, producing pods at least five inches long which are always firm and tender and remain fit for use some time after maturity. The plant grows erect with handsome dark green foliage, and we have found it practically blight proof. We consider this a grand bean for both home or market garden. Pkt. 6c.; 2 pts. 15c.; 6 pts. 35c.; 25c.; 2 pt. 1-2 pint. 30c.; pint. 50c. postpaid.

EXTRA EARLY RED Valentine—(Best Improved Round Pod strain.)—This is one of the best strains of Valentine Beans ever offered. It is producing quality and is of the very best quality. Early, productive, tender and desirable for family or market use. This strain has proven unequalled and our customers who want the very best Valentine on the market should get this one. Pods saddlebacked, 4 inches long; even when grown, are brittle. Generally grown for early market. Per pkt. 6c.; 2 pts. 10c.; ½ pt. 15c.; ¼ pt. 25c.; oz. 40c. These pods are nearly round, light green in color, five to six inches long, tapering to a slender point, and are very prolific. This is a very popular variety and a good one to plant in the home garden. Pkt. 6c.; 2 pts. 15c.; ½ pt. 25c.; oz. 40c. postpaid. By express or freight, not prepaid. 4 qts. 75c.; peck $1.50; bu. $3.50.

IMPROVED REFUGEE OR 1,000 TO 1

The pods of this new strain are equally as tender and fine in flavor as any of the green pod varieties. They grow about 18 inches in height, branching freely and bushing along the ground, with the pods produced on these plants being produced on slender stems. These pods are round and are always tender and stringless. Pkt. 6c.; 2 pts. 15c.; ½ pt. 25c.; oz. 40c. postpaid. By express or freight, not prepaid. 4 qts. 75c.; peck $1.50; bu. $3.50.
Kentucky Wonder Wax Pole Bean

This is a real wonder. The plant is of sturdy growth and always laden with handsome wax pods produced in great profusion of a bright lemon yellow color, of medium size, brittle, meaty and entirely stringless. It is a strong grower, holding its long straight pods well above the ground and is entirely rust proof. It will be greatly appreciated when once grown. Try it.

Burpee’s New Kidney Wax Bean.

This is a grand new Wax Bean. Plants grow erect from 18 to 20 inches high. The foliage is entirely free from blight, even in wet weather, and the pods are free from rust. The pods are 6 to 7 inches long; the color being a rich lemon yellow. Pkt. 6c.; 3 pkts. 15c.; 1/2 pt. 30c.; pt. 40c.; qt. 60c., postpaid. By express or freight, not prepaid, 4 qts., $1.50.

PROLIFIC BLACK WAX—Tender, yellow, with transparent pods 4 to 6 inches long, of the best flavor, stringless. Per pkt. 6c.; 3 pkts. 15c.; 1/2 pt. 25c.; pt. 35c., postpaid.

POLE BEAN—A new variety and very desirable especially for the home garden. The vine is dwarf and very productive. The exceedingly beautiful pods are long, cylindrical, slightly curved in shape, very white and wax-like, stringless and of the very best quality. Pkt. 6c.; 3 pkts. 15c.; 1/2 pt. 20c.; pt. 35c., postpaid.

KING OF THE GARDEN POLE LIMA—This is a well-known bean and produces large sized pods and beans which are of the best quality. This is unquestionably the pole Lima Bean of today. Per pkt. 6c.; 3 pkts. 12c.; 1/2 pt. 15c.; pt. 25c.; qt. 40c., postpaid. By express or freight, not prepaid, 4 qts., 85c. per pt., $1.50.

LAZY WIFE’S-One of the best varieties for snap of the late green podded pole beans. The pods are produced in great clusters, 6 to 7 inches long, broad, thick, bushy and stringless with a buttery, rich flavor. The dried beans of pure white are very fine for winter use. Pkt. 6c.; 3 pkts. 15c.; 6 pkts. 25c.; 1/2 pt. 30c.

FORDHOO k BUSH LIMA.

This is the bean that has been so largely advertised and which created quite a sensation. It grows erect, branching freely and bears enormous crops and the beans are ready for use as early as those of Burpee’s Bush Lima. The pods measure 4 to 5 inches in length, containing 4 to 6 beans each. It is a grand Lima Bean and we offer a choice crop of new seed.

IMPVED GOLDEN WAX—Very early. Pods are large, about 8 inches long; of golden wax color and of the best quality. If gathered young are very tender and brittle. Per pkt. 6c.; 3 pkts. 15c.; 1/2 pt. 15c.; pt. 25c.; qt. 40c., postpaid. By express or freight not prepaid, 4 qts., 80c. per pt., $1.50.

MILLS’ RUST PROOF WAX BEAN.

This is a new strain of Bush Lima; it is claimed by the introducers to be the best they have ever had in their many year’s experience. It is claimed to be an improvement and we would advise our customers to give it a trial.

NEW QUARTER CENTURY STRAIN BUSH LIMA.

This is an extra selected strain and has proven a great success wherever grown. We shall ship thousands of this excellent strain this year. It is the only variety grown and the color in dark red, and the illustration from a photograph shows the shape and appearance. It has a very small top, is fine grained and always grows very smooth and the beets are always of a very even size. It is one of the best varieties for early planting or forcing for spring and summer crops or for use in the winter. It is very tender and crisp and highly prized in market wherever offered. It is a great keeper and will make an excellent crop in a few weeks after sowing the seed. We want every customer who has any room to raise beets to sow a packet of this extra selected early variety and we are sure it will be grown every year. More than 60,000 packets contained this splendid beet in 1906, and it is praised by all who tested it. Our crop of seed is sufficient to supply all our customers. Pkt., 5c.; 3 pkts., 15c.; 6 pkts., 20c.; oz., 50c.; 2 oz., 35c.

COLUMBIAN BEET.

This beet grows very smooth, has clean roots three to four inches in diameter, which are ready for use almost as quickly as some of the earlier sorts and is of much better quality than many of them. The flesh is deep blood red, tender, and of rich flavor, and it retains its fine quality until the roots have reached full growth. It is claimed by some that this is as early as the Egyptian. It is one of the very best to grow for winter. Even if sown as late as July it will produce roots of good size before frost. Pkt., 5c.; 3 pkts., 9c., oz., 10c.; 1 lb., 25c.; 1½ lb., 35c.; 1 lb., 60c.

CRIMSON GLOBE BEET.

Here is a new variety that is giving great satisfaction everywhere. It is excellent for the table, exceedingly tender, beautiful form with rich, red flesh. The root grows to medium size, generally about three inches in diameter, is very handsome in shape, as will be seen by the illustration carefully engraved from specimens grown in our trial grounds the past season. The surface is remarkably smooth and has a very round top and root. The tops and leaves are small, which occupy but very little room in growing. It is free from any stringy or woody substance that is frequent among many other varieties of beets. On account of its handsome color it was named "Crimson Globe," and makes a most beautiful and attractive appearance when a lot of them are placed on the market and they will readily sell anywhere.

Packet, 5c.; 3 pkts., 10c.; 6 pkts., 15c.; oz., 12c.; 1 lb., 25c.

SPECIAL OFFER

Any 4 Packets Beet Seed, different varieties. For 10c., postpaid.
Dark Stinson

Egyptian. This is the old well known Blood Turnip Beet and claimed to be the earliest of all. The illustration gives the shape of this popular root. The flesh is a dark red color and in many sections our customers prefer this variety. Those who want to grow Egyptian Blood Beets can make no mistake in using our strain of seed, which has been carefully selected. Packet, 5c; 3 pkts., 9c.; oz., 10c.; ½ lb., 20c.; ¼ lb., 30c.; 1 lb., 50c., postpaid.

Eclipse. We believe this is one of the best known beets and has given great satisfaction to all who have grown it. The Eclipse is quite early and is superior to many other table beets. We have taken particular pains in selecting this strain for many years and can furnish seed that will produce beets with a very small top, smooth, fine grain, tender and of a handsome bright red color. If you want to raise Eclipse Beets try our strain this year. Packet, 5c; 3 pkts., 9c.; oz., 10c.; ½ lb., 20c.; ¼ lb., 30c.; 1 lb., 50c.

Edmonds’ Extra Early. Here is a splendid variety. Has a short top, round in form as will be seen by the illustration, very smooth, early and of good marketable size for gardeners. The skin and flesh is a deep blood red, very sweet and an all-round good garden beet. It is largely planted in private gardens. Packet, 5c; 3 pkts., 9c.; oz., 10c.; ½ lb., 20c.; ¼ lb, 30c.; 1 lb., 50c.

Lentz. This is an excellent strain of Blood Turnip Beet, fully as early as the Egyptian, large size of good quality and produces a fine crop in from six to seven weeks from sowing the seed. The illustration gives a good idea of the shape and appearance and the flesh and skin area dark blood red. This splendid beet will please anyone for table use. Packet, 5c; 3 pkts., 9c.; oz., 10c.; ½ lb., 20c.; ¼ lb., 30c.; 1 lb., 50c.

**DARK STINSON.**

This has been one of our favorite varieties for several years and it is highly recommended by all who have grown it. It is of good shape, as will be seen by the illustration, and about the size for open garden culture. It is also good for forcing on account of producing very little foliage; much less than many other varieties. The roots are very smooth and of a dark blood red color, and the flesh is of the very best. They can be grown close together: about 4 inches apart in sowing this one. Packet, 5c; 3 pkts., 9c.; oz., 10c.; ½ lb., 20c.; ¼ lb., 30c.; 1 lb., 50c.

**Improved Long Red.** This is the best long red beet on the market, being unequaled for the table or for live stock. It is popular everywhere. Tops are large, necks small; roots, stems and vines red, leaves green. Roots are large, tapering at both ends, growing nearly even with the surface. Flesh and skin dark red, tender, sweet, and remains so when kept until spring. Packet, 5c; 3 pkts., 9c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 30c.; 1 lb., 55c.

**ELECTRIC BEET.**

This is almost round in shape. The flesh is rich red, very tender and remarkably early. The tap root is small. The leaves and tops are small and grow very close to the crown. It is one of the earliest varieties coming in close to Egyptian. The flesh is free from fibers, rich and sweet flavor. Packet, 5c.; 3 pkts., 9c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; 1 lb., 60c.

**MARKET GARDENERS BEET.**

This is an excellent beet which we can recommend. Grown very rapidly, and continues to grow for a long time making a heavy root for Autumn or Winter use. The quality is good at all stages of growth. It is an excellent keeper all winter; a very dark red in color throughout and the very best for table use. The shape is symmetrical as shown; has few roots, small tops and very handsome in appearance. It’s a good beet for everybody. Try it this year. Packet, 5c.; 3 pkts., 12c.; 6 pkts., 30c.; oz., 15c.; ½ oz., 32c.
We offer the standard and reliable varieties and at the prices quoted, the seed is sent by mail, postpaid, unless otherwise noted. We carry a large stock of Mangel and Sugar Beet Seed at all times of the year.

**Mills’ Mammoth Prize Long Red Mangel**

This is the most popular long red mangel; sometimes called "Giant" or "Jumbo." It is the largest variety we know of. Grows about ½ out of the ground and we have frequently grown them to weigh 80 pounds each. It has produced over 60 tons to the acre. It is not coarse grained, even when attaining enormous weight. It is one of the very best beet for cattle and sheep feeding during winter and those desiring a good red mangel will certainly want this one, as it always produces roots of good size and quality. The illustration, carefully engraved from specimens, will give a good idea of the size and shape and our customers who want a good stock feeding red mangel should order this one. Pkt. 5c.; 3 Pkts. 8c.; oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 35c., postpaid. By express, not prepaid, 5 lbs. or over, at 20c. per pound.

**Golden Tankard Yellow Mangel**

Our customers say that this is the most desirable yellow variety that they have ever grown for it contains more sugar and less water than any other variety of this color. It is also claimed that it is one of the leading varieties in England as it is highly prized by dairy farmers. It certainly is a fine mangel and on account of its peculiar shape can be left very close in rows, which makes a very heavy crop. It matures quite early, in fact, earlier than other sorts. Hardy and under good cultivation will yield from fifty to sixty tons per acre. The illustration, carefully made from specimens, gives a good idea of the size and appearance of it and all those who wish a first-class yellow mangel should order this one. Pkt. 5c.; 3 Pkts. 8c.; oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 35c., postpaid.

**Giant Ovid Mangel**

This is a handsome mangel, growing nearly two-thirds above the ground and always producing large crops. Easily pulled on account of the way it grows. It does well on limestone soil. The skin is yellow and the neck is small, while the leaves are medium in size, but few are produced. Owing to the demand for this Giant variety we have secured a good supply of the seed direct from headquarters and we are sure those who wish this giant variety can make no mistake in ordering it. Pkt. 5c.; 3 Pkts. 8c.; oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 35c.

**Red Globe Mangel**

This is the very best Globe Mangel and is used for planting in shallow soil. It is easy to dig on account of its having a short oblong shaped root. It is immensely productive and one of the best for stock feeding. It keeps as well as any when stored for winter use and our customers can make no mistake in planting this if they want to grow a good mangel. Pkt. 5c.; 3 Pkts. 8c.; oz. 10c.; ¼ lb. 15c.; ½ lb. 35c.

**Improved Wanzleben Sugar Beet**

This is the best sugar beet to grow for the manufacture of sugar. It is also used to grow for stock. It is acknowledged by all to be by far the best sugar beet grown. We offer genuine imported seed as follows: Pkt. 5c.; 3 Pkts. 15c.; lb. 30c.; 5 lbs. $1.40 postpaid.

**Lane’s Improved Imperial Sugar**

This is another popular and productive sugar beet; has been in cultivation for some time and is well-known in many sections as a favorite for stock feeding. It is rich and sugary in quality and the crop sometimes reaches 30 tons per acre, and single specimens grow to weigh nearly 35 pounds each. Pkt. 5c.; 3 Pkts. 7c.; oz. 10c.; ¼ lb. 15c.; ½ lb. 30c., postpaid.

We will ship by express or freight, not prepaid, 5 lbs. or more of any of the above six varieties at 20 cents per pound.
EARLY CABBAGES

Early June

MILLS' EARLY JUNE CABBAGE—This is a great Cabbage and should be planted in every garden in the country. We were very fortunate in securing this strain of Cabbage which is even earlier than our famous "First in the Market," which previously was the earliest Cabbage we had ever offered. "EARLY JUNE" is just what its name implies and is the quickest growing Cabbage in the world, and is sure to please everyone who plants it. The heads are fair size, very solid and just the thing for market gardeners, truckers or home gardens. "Early June" coming so early, will readily sell in any market. The illustration well shows the Cabbage, and almost every plant is sure to form a perfect head. They can be planted close together and will yield a large crop and we are sure that our customers will appreciate our offering this grand new Cabbage. We have a fair stock of seed on hand and would advise early orders. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.; 1 oz., 20c.; 2 oz., 35c.

MILLS EARLIEST FLATHEAD CABBAGE

Here is just the Cabbage for your garden—producing fine, solid, good sized heads and fit to use in 70 to 80 days from sowing the seed. Its shape and habit of growth is shown by the illustration, the deep flat heads being remarkably solid and the most uniform in shape and size of any variety. It is a beautiful cabbage in appearance and on account of its rapid growth far excels all others for tenderness. We are particularly anxious to have every one of our customers, who raise cabbage, grow EARLIEST FLATHEAD this year. It will surely please everyone.

Choice Seeds, pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.; ½ oz., 35c.; 1 oz., 60c.
8 Chinese Cabbage

This is a delicious Cabbage grown very extensively by the Chinese and is regarded somewhat of a vegetable by them. The illustrations given a good idea of the beautiful appearance but does not show the delicate blanching. The flavor is a blending of cabbage and turnip. We believe it will be a very interesting addition to the family garden. Try it.

**Mills’ Short Stem Drumhead**

This splendid variety of winter Cabbage has given such universal satisfaction that we offer it as something of rare value and great merit. Few varieties can excel this famous sort in productiveness; it is beautiful appearance and short cooking and keeping qualities and the immense size of the heads. Heads are extra hard and solid; are round and flattened on top. They grow very uniform in shape, with short, firm stems, and present a very handsome appearance. From 100 heads set out, 95 large solid heads may be expected. This is an excellent variety for customers in the south, where many varieties fail. Anyone can rely on the new Short Stem Drumhead. Per ptk. 5c.; 3 ptkts. 10c.; oz. 15c.; lb. 45c.; $1.50.

**Mills’ Giant Late Flat Dutch**

For sureness in heading and regularity in growth Mills Giant Flat Dutch certainly heads the list of late cabbage. No words of praise are too high for its merits. It forms every time large, solid heads, uniform in size and color, handsome in appearance. It has a very short stem and at the same time it is a compact grower. If there is any better cabbage in America then this we do not know of it. For every desirable surheading cabbage has been tried and nothing has equaled our famous Flat Dutch. Per ptk. 5c.; 3 ptkts. 10c.; oz. 15c.; lb. 40c.; $1.40.

**Mills’ Surehead**

While the Giant Flat Dutch is our favorite, always producing an excellent crop, the Surehead comes very close to it and produces large, solid, firm heads, even in the most unfavorable seasons. Few varieties can approach it in fine quality and uniform reliability in forming solid heads of large size. It is remarkable for its certainty to head. It is all hard and always sure to head, even where other varieties fail. Single heads have weighed over 50 pounds. Per ptk. 5c.; 3 ptkts. 10c.; oz. 15c.; lb. 45c.; $1.50.

**Early Winningstad**

This is the first-class, extra early, round, flat head Cabbage, differing in shape from our "Early June." The heads are always uniform, remarkably solid, with few leaves and give great satisfaction everywhere. The stem is short, which makes it very valuable for truckers as well as private gardeners. The "Early Winningstad" is often attained weight of five pounds and is very solid and firm. Those who want an extra early Cabbage of this description can make no mistake in ordering "Early Winningstad." Pkt. 5c.; 3 ptkts. 10c.; oz. 20c.; lb. 45c.; $1.25.

**Early Spring**

This is a very early, large, round, flat-headed Cabbage, differing in shape from our "Early June." The heads are always uniform, remarkably solid, with few leaves and give great satisfaction everywhere. They have been bred to form a weight of five pounds and are very solid and firm. Those who want an extra early Cabbage of this description can make no mistake in ordering "Early Spring." Pkt. 5c.; 3 ptkts. 10c.; oz. 20c.; lb. 45c.; $1.25.

**All Head Early**

This is truly the finest large summer Cabbage in the world, and while this may seem a strong statement, it is due to the fact that every one of our customers who has tried it will agree it to be true. The deep flat heads are remarkably uniform and the most uniform in shape and size of any variety in cultivation. As tendenes in the result of rapid growth, it surpasses all others in this respect. It is the most popular of all American Cabbages, and the heads grow so compact that fully 1,000 more heads can be obtained to the acre than any other cabbage. Price of extra selected stock, per ptk. 5c.; 3 ptkts. 10c.; oz. 15c.; lb. 40c.; $1.75.

**NEW CABBAGE--NEVER FAIL**

We have never offered a late crop Cabbage that has received such praise as this new one, "Never Fail." We have on our hands hundreds of reports from customers in every part of the country telling what a wonderful cabbage it is. This is certainly one of the great crops, and we are proud of it. It is of medium size, and is uniform in all respects to other late varieties. The heads grow very uniform in size, and are remarkably perfect in form and quality. It is a very fine, tender, sweet, making it most desirable for krauts as well as all other purposes for which cabbages are used. In hardiness this cabbage is very valuable and it will stand more than any other variety that we have ever grown. It is remarkable for its quick growing habit and will mature as late as any other variety. If you want to grow an extra early cabbage, this is the one for you. Pkt. 5c.; 3 ptkts. 10c.; oz. 15c.; lb. 40c.; $1.40.

**Short Stem Drumhead**

This is a delicious Cabbage grown very extensively by the Chinese and is regarded somewhat of a vegetable by them. The illustrations give a good idea of the beautiful appearance but does not show the delicate blanching. The flavor is a blending of cabbage and turnip. We believe it will be a very interesting addition to the family garden. Try it.
THE HOUSER CABBAGE.

This is a grand new late Cabbage and all who have grown it are more than pleased with it. It is a very late variety, but the heads are about as hard as Danish Ball Head. It grows very compact as shown by the shape in the illustration. It certainly is a handsome Cabbage, on account of the heads being so round and deep and it is not liable to crack. As to quality there is no better variety; there being no coarse ribs or stems to be found in a head. A very vigorous grower and will stand drought to a remarkable degree and the heads grow so even and solid that they will average 10 to 12 pounds each through a whole crop. It is highly recommended for keeping qualities and excellent sort to grow for storing for spring markets. If there is only one variety of Cabbage you grow this season, be sure and try this one. Pkt., 5c.; 8 pkts., 15c.; oz., 20c.; 2 ozs., 50c.

IMPROVED DANISH BALL-HEAD

This new Cabbage comes from Denmark and is prized so highly that the Danes grow it almost exclusively for winter Cabbage. The heads are hard, round, of good marketable size, fine grained and good keepers, are not so large as the late Flat Dutch, but are even harder and more solid. The true Danish Ball-Head has become wonderfully popular for winter market and we believe that in many sections, where Cabbage is largely grown, at least four-fifths of all winter Cabbage grown is Danish Ball-Head. Our stock is extra fine imported seed, crop of 1909, and can be relied upon as the very best. Per pkt. 5c., 3 pkts., 10c., oz. 20c., ½ lb. 70c., ½ lb. $1.15, lb. $2.10.

MAMMOTH ROCK RED — Largest Red Cabbage known; heads of a deep red inside and out and almost as solid as a rock. Per pkt. 5c., 3 pkts., 10c., oz. 50c., ¼ lb. 70c., ½ lb. $1.40.

World-Beater Cabbage

This is the greatest of main crop Cabbages, enormous in size, one of the best keepers and often produces heads from 3 to 5½ ft. in circumference, weighing from 50 to 50 pounds each. The heads are fine grained, and are considered the king of all winter Cabbages. Its small outer leaves enable it to be planted closer than any other late sort and it is always sure to produce more per acre than any other variety from the fact that the leaves are smaller and grow closer to the head. This Cabbage has stood all kinds of tests and has met competition everywhere, and we recommend it.

PRICE
Per pkt. 5c., 3 pkts., 10c., oz. 50c., ¼ lb. 70c., ½ lb. $1.25, lb. $2.25, postpaid.
OX-HEART OR GUERANDE

As shown by the illustration this Carrot is finely shaped being intermediate in length, fully three to five inches in diameter. Specimens have been raised measuring over seven inches in diameter. The quality is extra good and we can recommend it for home use. It can be pulled where other sorts require digging and if you want an early, handsome, ready selling Carrot you will please Pkt. 5c.; 8 pkts., 9c.; oz. 10c.; 2 oz., 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.

GOLDEN ROD CARROT.

This is a heavy cropper and suitable for both table and stock. It is a half-long stump-rooted sort; grows a smooth, uniform handsome root, free from core, sweet and tender, never becomes stringy. It is very desirable for market gardeners or any private garden on account of its immense yielding qualities. With ordinary care it will yield about 40 tons per acre. We believe this handsome Carrot will please everyone who grows it. Pkt. 5c.; 3 pkts., 12c.; oz. 15c.; ½ oz., 25c.; ¼ lb. 40c.

MILLS' AGRICULTURAL WONDER—

This is a distinctly new Carrot and produces long roots of good size and true yellow color. It is claimed it will yield 60 percent more than any other variety now cultivated. It is a most excellent quality for the table, keeps well and is productive enough to be grown for stock feeding. It will out-yield all other field Carrots and in addition to its immense size it is remarkably free from toughness generally found in field Carrots. We recommend that our customers give this variety a trial. Pkt. 5c.; 3 pkts., 10c.; oz. 20c.; ½ oz., 10c.; ¼ oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.

MILLS' NEW CHAMPION YELLOW

This is a new Carrot recently offered. It is of a beautiful yellow color and the very best for dairymen as it gives better the proper color. It is highly recommended by everyone who has grown it and when the roots are fully grown they average several pounds and the tonnage taken from an acre we believe will surprise any other Carrot grown. It is not only valuable as a Carrot for stock, but if it is sown at the rate of from twelve to fifteen pounds of seed to the acre, it will be an excellent sort for table use. We recommend that our customers give this Carrot a trial and we are sure they will find it a remarkable variety. Pkt. 5c.; 3 pkts., 9c.; oz. 10c.; 2 oz. 15c.; ½ lb., 25c.; ¼ lb. 40c.; lb. 75c.

MILLS' GIANT SHORT WHITE—This is a very productive variety, well suited to shallow soil, and grows well out of the ground. The roots are short, smooth, very heavy at the shoulder taperingregularly to the point. Flesh rich white, solid, crisp and excellent flavor. Is a very large yielder and has given our customers the best of satisfaction. Pkt. 5c.; 3 pkts., 9c.; oz. 40c.; ½ lb., 80c.; ¾ lb., 10c.; lb. 55c.

MILLS' DANVERS—This famous variety originated in Danvers, Mass. It is a variety well adapted to all soils and sections and will yield greater bulk with smallest length of roots of any Carrot grown. It is very productive, medium length tapering at the point. Roots smooth and of a dark rich orange color. Over 40 tons per acre have been grown and a yield from 20 to 25 tons per acre is not uncommon. Pkt. 5c.; 3 pkts., 9c.; oz. 10c.; 2 oz. 15c.; ½ lb. 25c.; ¼ lb. 40c.; lb. 75c. postpaid.

MILLS' IMPROVED LONG ORANGE—The roots are of large size, smooth, fine grained and excellent quality for table use, the color is a deep orange as indicated by its name. Will produce enormous crops and is well adapted for light soil. It is also well suited to dairymen on account of its heavy yields. Pkt. 5c.; 3 pkts., 9c.; oz. 10c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c. postpaid.

MILLS' IMP. NEW LONG ORANGE—This is the old well known Belgian Carrot used for stock feeding. The roots grow to a large size and is highly recommended by experimental stations and agricultural gardeners for all kinds at stock feeding. We have a very choice lot of seed. Pkt. 5c.; 3 pkts., 9c.; oz. 10c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c. postpaid.
CAULIFLOWER

No seed is more important. Don’t buy cheap seed. We offer the finest strain. Quality first, prices afterwards, are the two most important considerations in buying Cauliflower Seed. We wish to call particular attention to Our Early Favorite.

MILLS’ EARLY FAVORITE
BEST VARIETY IN CULTIVATION.

This surpasses all others and will stand the heat and drought of any climate the best of all, and is the earliest and surest of any variety to head. It is perfectly well adapted as a sort for the family and market gardener. It is unquestionably the largest as well as the best. Market gardeners, once having sown it, will now no other. Per pkt. 6c.; 5 pkts. 15c.; 6 pkts. 25c.; 1/4 lb. $1.25; 1/2 lb. $2.00.

EARLY SNOWBALL—This is a well-known variety, and considered one of the best in cultivation, and a great favorite throughout the country. It is very early, close growing compact habit, and is well adapted for forcing under glass during the winter and spring. Our stock is perfectly reliable. Per pkt. 10c.; 8 pkts. 25c.; 6 pkts. 40c.; 1/2 lb. $1.25; 1 lb. $2.00.

EXTRA SELECTED DWARF EARLY ERFURT—This is another remarkable variety for heading. It is dwarf, with solid heads of superior quality. If planted in March the crop will be ready in June. All market gardeners and private planters will do well to plant this excellent variety. Pkt. 5c.; 2 pkts. 15c.; 3 oz. 25c.

EXTRA EARLY PARIS FORCING—A favorite variety and very reliable for heading, and is good for forcing. It is equally as good for outdoor culture. Per pkt. 5c.; 3 pkts. 10c.; 1 oz. 35c.; 1/2 lb. 75c.

WHITE PLUME CELERY

This is a well-known variety and is popular wherever grown. It is the earliest and most easily blanched. The plants grow rapidly and on account of its easy culture every amateur gardener should grow this variety. Seeds sown in April and transplanted in July, will be ready for use in October without having up. Give it a trial and you will be pleased with the result. Our seed of this grand Celery is a very choice selected strain and will produce very fine stalks. Pkt. 5c.; 3 pkts. 10c.; 1 oz. 25c.; 1/4 lb. 50c.

NEW PARIS GOLDEN QUEEN CELERY

New Paris Golden Queen Celery

This new Celery is very handsome and stocky, of close growing, upright habit, with a golden heart. The flavor is sweet and pronounced. The stalks are large in girth and heavy in weight giving the bunch an exceedingly handsome and attractive appearance. It may be used early or late as it blanches easily. An excellent winter keeper. Pkt. 5c.; 3 pkts. 10c.; 1 oz. 35c.; 1/4 lb. 50c.

NEW LARGE RIBBED RED CELERY

New Large Ribbed Red Celery

Our extensive trials have proven that this variety is a sprout of the Giant Pascal, one of the best varieties grown. It has all the good qualities of the Giant Pascal, while the ribs are thicker and much stiffer. It is exceedingly healthy and of most excellent quality, tender and well flavored and is a good variety to keep through the winter. It is very popular on account of its handsome appearance, in connection with its fine keeping quality, and our customers will certainly be pleased with it.

Per pkt. 5c.; 3 pkts. 10c.; 1 oz. 15c.; 1/4 lb. 75c.

DWARF GOLDEN HEART—This variety is of dwarf habit and when blanched, the heart, which is very large, is of a pure golden yellow. It is very striking and shapely, keeps well during winter. Pkt. 5c.; 3 pkts. 10c.; 1 oz. 15c.; 1/4 lb. 90c.; 1/2 lb. 50c.

NEW ROSE—This Celery has a splendid flavor and it is also very ornamental for the table. It is solid, rich in flavor and keeps remarkably well, better than the yellow and the white sorts. Per pkt. 5c.; 3 pkts. 10c.; 1 oz. 15c.; 1/4 lb. 75c.

PINK PLUME—This is a splendid new variety recently introduced and is an advance in Celeries, as an intermediate between the White and Red Celeries, combining the good qualities of both. Pink Plume is just about the same as the old White Plume: rich flavor, long keeping qualities, for which the Red Celeries are noted, together with the girth and heart of the White Celeries. For the home, the florist, or commercial use. Per pkt. 5c.; 3 pkts. 10c.; 1 oz. 35c.; 1/4 lb. 60c.

NEW GOLDEN SELF-BLANCHING

(New Golden Self-Blanching)

GOLDEN SELF-BLANCHING

This is a very choice selected strain and will produce very fine stalks. Pkt. 5c.; 3 pkts. 10c.; 1 oz. 35c.; 1/4 lb. 50c.

GIANT PASCAL

With the exception of our Gilt Edge Strain Self-Blanching, this is without doubt the most remarkable variety ever introduced. The stalks are extremely large and entirely straight. It is crisp and brittle. The heart is rich bright yellow even after blanching. It is an excellent variety for shipping; does not rust or rot. It grows more satisfactorily in the South than any other kind. It is a fine keeper; an extra good shipper, retaining its color and appearance as long as any other variety in existence. Per pkt. 5c.; 3 pkts. 10c.; 1 oz. 15c.; 1/4 lb. 50c.
We give special attention to the selection of our Seed Corn and believe the past season were very satisfactory, and we believe we can furnish the BEST GRADE OF SEED CORN this year that we ever sent out. THERE IS NO BETTER.

MORTGAGE LIFTER YELLOW DENT CORN

We introduced the new and distinct Yellow Dent Field Corn several years ago and it has given our customers great satisfaction wherever grown.

A large grower of Loraine Co. O., says: "While visiting at the World’s Fair, procured a few grains from an ear which was a sport found in a field in Iowa, and pronounced it the most beautiful ear of Corn at the fair. That is how the splendid variety found its way into the east and from these few grains we breed out a Yellow Field Corn, which we do not think can be surpassed. The grains are the largest of any large ear variety in cultivation. The stalks grow very quick, rank and green, and will stand storms to a remarkable degree. These who have grown the Mastodon, Chester County Mammoth, Kandide, Leaning, Iowa Gold Mine, Champion White Pearl, Golden St. Superior, Golden Beauty, White Cap Yellow Dent and Early Butler say that this corn will outyield any of them. We have recorded fields producing 179 bushels and 18 bushels of Corn per acre. The largest grower of Seed Corn in America says it will mature in 85 to 88 days and has 14 to 24 rows on a cob and the longest and largest of any Early Corn in cultivation. Describing it he says: Mortgage Lifter is the most beautiful Yellow Dent Corn ever seen. It will mature in 85 to 88 days and has the largest grains of any Early Yellow Corn in cultivation. It grows from 7 to 11 feet high, strong, rank, and quick, and stands storms remarkably. The ears are of a very large size and will out yield any other Corn grown. It husks and shells easily, brings the highest market price as it will sell for seed on sight. It will cure out in the shock where large cob varieties will mold and spoil."

The above is what the originator said of this variety and while we have sold thousands of bushels of this sort for seed, we are glad to say that our customers are much pleased with it and we believe it is a hard variety to surpass. We have a very fine stock of extra choice seed which we can supply our customers this year.

We offer this Grand Corn at the following prices: Pkts., 5c.; 3 pkts., 10c.; 1 lb., 25c.; 3 lbs., 50c., postpaid. By Express or Freight not prepaid: 4 qts., 40c.; pk., 50c.; 1 bu., $1.00; 2 bu., sack, $3.00.

REID’S YELLOW DENT

This is a very popular variety in many places throughout the Corn belt and has won more prizes at Corn shows than all other Corn put together, it being especially a great show and exhibition Corn.

It is a light yellow color, the ears running from 9 to 11 inches long, 7 to 8 inches in circumference, 18 to 24 rows of kernels. The ears are of symmetrical shape the entire length and the cob carries a large amount of Corn, shelling at least 75 per cent grain. The ears are always well filled from butt to tip. It is a vigorous grower, stalks from 8 to 12 feet high, producing an abundance of foliage which makes it heavy in tonnage to the acre. We have taken particular pains in selecting our seed stock and believe we have the very best strain to be found. We are well pleased with the variety and if you want something to win prizes with, get some of our seed stock.

We offer a very choice selected grade of this great Corn at the following prices: Pkts., 5c.; 3 pkts., 10c.; 1 lb., 25c.; 3 lbs., 50c., postpaid. By Express or Freight not prepaid: 4 qts., 40c.; pk., 50c.; 1 bu., $1.00; 2 bu., sack, $3.00.

EXTRA EARLY HURON DENT—This is a splendid Early Dent Corn and without doubt the earliest Dent Corn in the United States. It will ripen in the northern states where our customers have only been able to grow flint varieties. It is a bright orange color, has a good sized stalk and ear, small, long deep grain. Our seed stock is extra selected. Pkts., 5c.; 3 pkts., 10c.; 1 lb., 25c.; 3 lbs., 50c., postpaid. By express or freight, not prepaid: 4 qts., 40c.; pk., 50c.; 1 bu., $1.10; 2 bu., sack, $3.00.

PRIDE OF THE NORTH—This is very desirable for an early Dent Corn, suitable for main crop as far north as Michigan, Minnesota and Wisconsin. The color is deep yellow, grains very deep with a small cob. Grain narrow, generally about 18 rows, produces 2 ears to the stalk and makes a good yield. It is very hardy and will stand cold weather and frost as well as Flint Corn. Pkts., 5c.; 3 pkts., 10c.; 1 lb., 25c.; 3 lbs., 50c., postpaid. By express or freight, not prepaid: 4 qts., 40c.; pk., 50c.; 1 bu., $1.00; 2 bu., sack, $3.00.

Reid's Yellow Dent Corn

Mortgage Lifter Yellow Dent Corn
This is a splendid Extra Early Yellow Flint Corn and has proven to be all that is claimed for it. The ears are large size, bright and longest of any variety of Flint Corn we have ever grown. Our seed stock of this sort has been kept very pure and improved every year so that we claim to have the handsomest Yellow Flint Corn ever offered. Stalks grow to a good height and produce two to four large ears, under good cultivation. Some of our customers claim to have grown as high as 200 bushels from one peck of seed, which fully matured in twenty-five days from planting. Everyone who wants a splendid Yellow Flint Corn selected from the finest stock in the country, should order of us. We offer it at the following prices: Pkt., 5c.; 3 pkts., 15c.; lb., 30c.; 3 lbs., 50c., postpaid. By express or freight, not prepaid. 4 qts., 50c.; pk., 80c.; ½ bu., $2.30; bu., $2.00.

LONGFELLOW — This is a splendid 8 Rowed Yellow Flint Corn, very early, ear cylindrical, 12 to 14 inches long, color a rich glossy yellow. The average height of the stalk is 7½ feet, producing two to three perfect ears to the stalk. Our seed is extra selected and we offer it as follows: Pkt., 5c.; 3 pkts., 15c.; lb., 30c.; 3 lbs., 60c., postpaid. By express or freight, not prepaid. 4 qts., 50c.; pk., 80c.; ½ bu., $1.40; bu., $2.25.

BRAZILIAN OR STOOLING FLOUR CORN

This corn yields four times more corn to the acre than any common corn, and a great deal more in shelled corn. It looks like wheat, each kernel producing from 4 to 8 stalks, with from 8 to 12 ears on each stalk about 50 to 6 inches in circumference and from 9 to 12 inches in length of pure white kernels. It is the best variety for ensilage. It contains a larger percentage of starch than any other corn and when ground and boiled by the same process as wheat, makes a better bread and breakfast flour than can be made from wheat. It is also used largely as roasting ears. Only two kernels should be planted to the hill and after wards thin to one and cultivate the same as other corn. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.; 12 pkts., 40c., postpaid.

TEOSINTE

A forage plant that was brought to this country some years ago and has been grown very successfully. It resembles corn somewhat, but has a much broader leaf and sweeter sap. It is a very rapid growing plant after it has attained a height of 6 to 8 inches and grows to a height of 11 feet. It yields more than any other foliage plant; often producing 25 to 30 stalks, and as many as 100 stalks have been grown from one kernel of seed. It can be cut when two or three feet high, after which it will rapidly grow up and as many as four crops have been cut during a season. The amount of forage per acre from this plant is something immense; in many cases from 600 to 1000 tons. It should be planted in hills two feet apart each way and three pounds is sufficient for one acre. Pkt., 5c.; 3 pkts., 9c.; 6 pkts., 15c.; oz., 10c.; 1/4 lb., 30c.; 1/2 lb., 50c.; lb., 75c.; 3 lbs., enough for one acre, $2.00, postpaid.

BRAZILIAN

There is often big money in little things, and Pop Corn is one of the little things of big profit. Thousands of ear loads of Pop Corn and use annually for popping purposes since Cracker-Jack and other like preparations have come into use. Plant some of our varieties. We offer some good ones.

BABY GOLDEN POP CORN

Of the Rice type, the smallest Pop Corn in existence. This is the first season we have been able to offer this pop corn, having only secured sufficient seed two years ago to test it and give us a little seed stock. It is very prolific, producing from 5 to 10 ears on a single plant. The stalks do not exceed 3 feet in height and the ears are from 1½ to 2½ inches in length. The kernels are but very little larger than a kernel of rice, of a handsome light, lustrous golden color and pop without leaving any hard center. We recommend it most highly and with all of its good qualities will find it the prettiest pop corn ever seen, both on the ear and when popped. A few packets will produce enough to keep you in pop corn throughout the winter. Pkt., 5c.; 3 pkts., 15c.; 6 pkts., 25c.

RED BEAUTY — It is very productive, of a beautiful red color and in every respect a first-class Pop Corn. Very tender and delicious and is sure to give satisfaction. For pts., 5c.; 3 pkts., 10c.

GOLDEN TOM THUMB — One of the smallest Pop Corn grown, growing only about 18 inches high and produces from two to four perfect little ears on a single stalk. Both ears and kernels of golden yellow, which when popped, expand to a large size. Pkt., 5c.; 3 pkts., 15c.; 6 pkts., 25c.

MAPELDALE — This is a well-known variety and the leader in for the market. Our stock is extra selected. For pkt., 5c.; 3 pkts., 15c.; 6 pkts., 25c.; oz., 40c.; 1/4 lb., 50c.; 1/2 lb., 75c.; lb., $2.00.

WHITE RICE — This is a well-known variety and the leader in for the market. Our stock is extra selected. For pkt., 5c.; 3 pkts., 15c.; oz., 40c.; 1/4 lb., 50c.; 1/2 lb., 75c.; lb., $2.00.
SWEET OR SUGAR CORN

WHITE CORY—With the exception of the "North Pole" and "First of All" this is the earliest Sweet Corn and one of the best of all early varieties. The ears are of good size, sweet and fine quality and a first-class corn for market gardeners or private families. Per pkt., 5c.; 3 pkts., 15c.; ½ pt., 12c.; pt., 20c.; qt., 35c., postpaid. By express or freight, not prepaid, Pk., $1.00.

EXTRA EARLY RED CORY—This is similar to White Cory with the exception of color, and we can supply it at the same price as White Cory.

BLACK MEXICAN—Acknowledged by all to be the Sweeter Corn grown. Not quite so early as some but exceedingly sweet, sugary and delicious. Per pkt., 6c.; 3 pkts., 10c.; ½ pt., 12c.; pt., 20c.; qt., 35c., postpaid. By express or freight, not prepaid, Pk., $1.00.

PREMO—This variety is earlier than the Cory, ears are larger and the grains sweeter. It is a new variety that has been largely advertised and is giving great satisfaction everywhere. It is superior to many other early varieties in account of its earliness, handsome appearance and excellent quality. The ears are from five to six inches long on the average. It is a variety greatly sought for by gardeners and those raising Early Sweet Corn for market. Per pkt., 6c.; 3 pkts., 15c.; ½ pt., 18c.; pt., 30c.; qt., 50c., postpaid. By express or freight, not prepaid, per Pk., $1.00.

SWEET CORN—This is pronounced the very best extra early Golden Sweet Corn in existence, being vastly superior to all others in rich sweet flavor. The stalks grow about four feet in height and produce from one to two good ears on each stalk, larger from five to six inches in length. When the ears are ready for use the grains are a bright golden yellow, being rich and sugary and the sweetest of all. We have found Golden Bantam is the hardest Sweet Corn to grow in the North and it is a good variety to plant late in the summer for fall use. We have thoroughly tested it and believe it will be an excellent addition to our list of Sweet Corn and advise all our customers to grow some of this variety. Per pkt., 6c.; 3 pkts., 15c.; ½ pt., 15c.; pt., 25c.; qt., 45c., postpaid. By express or freight, not prepaid, per Pk., $1.00.

PEEP O’DAY SWEET CORN—This is a very early variety. The stalks grow about three feet high and average from one to two ears to the stalk. The ears are about six inches long, well filled from butt to tip with grains of a very sweet flavor. It is about one of the earliest varieties of Sweet Corn ever offered. Per pkt., 6c.; 3 pkts., 15c.; ½ pt., 15c.; pt., 25c.; qt., 45c., postpaid. By express or freight, not prepaid, Pk., $1.00.

MILLS EARLIEST LARGE—Mills Earliest Large will become a leader among the medium early sweet corns. It is the earliest large variety grown. It grows from a foot to a foot and a half high with one or two ears on a stalk. The ears are filled with plump, deep white kernels that retain their milky tenderness for a long time. Quality and flavor surpassingly fine and sweet. Valuable for either home use or market. Very productive. Per pkt., 6c.; 3 pkts., 15c.; ½ pt., 15c.; pt., 25c.; qt., 46c., postpaid. By express or freight, not prepaid, per Pk., $1.00.
Mills' First of All

With the exception of North Pole this is the earliest Sweet Corn we have been able to offer, even earlier than the Cory which has previously been the earliest. It being a few days earlier than the Cory, not only makes it valuable for family use, but extremely valuable for markets, where the earliest corn always brings the highest price. It is mow grown in growth than the Cory, and superior in quality, tenderness and sweetness. Pkt. $1.25, 3 pkts. 10c., ½ pt. 12c., pt. 25c., qt. 35c., postpaid. By express or freight, not prepaid, pl. $1.50; ½ bu. $3.00.

ZIG-ZAG EVERGREEN—This is a new Sweet Corn and 3 or 10 days ahead of Stowell's Evergreen. It has very large kernels, resembling that variety and grows on the cob zig-zag fashion. It usually produces two perfect ears on each stalk, of such handsome appearance as to readily command a high price when reaped. Where the excellent variety for family gardens, market gardeners and canners. It can be planted any time during the season and be depended upon for a good yield. Per pkt. 5c, 3 pkts. 10c., ½ pt. 12c., pt. 25c., qt. 35c., postpaid. By express or freight, not prepaid, pl. $1.00; ½ bu. $2.00.

GOLD MEDAL—This is an excellent variety we introduced several years ago. It certainly is one of the finest varieties of Sweet Corn we have offered. When we first purchased the seed stock we did so on account of its being highly recommended and we have found that it cannot be praised too highly. It is medium in season, creamy color, when fit to cook. Very sweet and tender and holds its condition longer than nearly all other varieties. Do not fail to give this splendid variety a trial during the coming season. Per pkt. 5c., 2 pkts. 10c., 6 pkts. 20c., ½ pt. 15c.

WHITE EVERGREEN—This is one of the most delicious Sweet Corns ever offered. It is a splendid yielder and entirely unsurpassed for market gardening purposes. The ears are pure snow white, large and well filled. It is the tenderest, sweetest and most desirable for table use. We cannot recommend the White Evergreen too highly as we know it will give the greatest possible satisfaction to all who grow it. If you want a great Sweet Corn by all means include the White Evergreen with your order. The illustration gives a good idea of this valuable variety. Pkt. 5c., 3 pkts. 10c., 6 pkts. 20c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, pl. $1.00.

STOWELL'S IMPROVED EVERGREEN—This well-known variety is more largely planted by private families, gardeners and canners. Our stock is the very best, being selected with great care. There is no stock of Stowell's Improved Evergreen that can excel our "Improved." It is the very best for main crop. Per pkt. 5c., 2 pkts. 10c., ½ pt. 15c., pt. 25c., qt. 35c., postpaid. By express or freight, not prepaid, pl. $1.00.
Cucumbers

We have a very choice selection of Cucumber Seed to offer this year. Several new varieties of great merit.

Earliest Cucumber

This is an excellent early Cucumber and cannot be praised too highly. It is one of the earliest varieties, of good size and unusual length, from 2 to 3 inches in diameter, and the illustration is as exact as can be made from specimens. They are always handsome, being uniform, straight and of a rich, dark green color. The flesh is tender, crisp and of excellent flavor. While this Cucumber is especially adapted for early planting for the table, it is equally as good for pickling. There is no Cucumber that can surpass Mills' Earliest. Per pkt. 6c., 3 pkt. 15c., 6 pkts., 25c., oz. 20c.; 2 oz., 35c.

Mills' Earliest White Spine

This Cucumber cannot be praised too highly. It is the best and most widely grown of any White Spine Cucumber. It is unequalled as a table and market sort and it is also excellent for pickling. It is very productive and good for forcing under glass as well as growing in the garden. The fruits grow from five to seven inches long and from two to three and one-half inches in diameter and the fruits are produced in great abundance, while the color is light green. All those who want the best White Spine Cucumber should order this one. Pkt. 5c., 3 pkts., 10c., oz. 15c., ½ lb. 35c., ½ lb. 60c., lb. $1.00.

Mills' Improved Long Green

This is a well-known variety. The fruits grow from twelve to sixteen inches long, and it is well known by everyone that this variety cannot be surpassed for pickling and when ripe it is the best for sweet pickles. The vines grow strong and the fruit is always produced in great abundance, making it one of the most productive varieties in cultivation. We have a selected improved strain that we highly recommend. Pkt., 5c., 3 pkts., 10c., oz. 15c., ½ lb. 35c., ½ lb. 60c., lb. $1.00.
ITALIAN CUCUMBER
This is a very early variety and when young is very similar to the "Telegraph" and is quite a large grower of a dark green color and always of good flavor.
It is the favorite among Italians and we believe
3 pts., 25c.; 6 pts., 40c.

This is an excellent new variety and originally came from Japan. The young plants are bushy but as soon as they become well established, begin to climb and may be grown on fences, poles or trellises. The vines are of healthy, vigorous growth and cling very tightly that they are not prostrated by heavy storms of wind or rain. They begin to bear early and continue to produce fruit throughout the season. The fruit is from 12 to 15 inches in length and produces but few seeds, which makes them highly productive.
Per pkt., 10c.; 15c., 6 pts., 25c.

KLONDIKE
ONE OF OUR BEST
This is a very handsome variety of a dark green color of the White Spine type. When it attains suitable size for market it averages from 5 to 6 inches in length, and is of such attractive appearance, it is generally appreciated by market gardeners and shippers. It is very productive, excellent quality, firm and good for pickling when small. After you grow this Cucumber you will say you never had a better one.
We cannot recommend this splendid Cucumber too highly. Try it in your garden this year.
Per pkt., 6c.; 3 pts., 10c.; 6 pts., 25c.

GREEN PROLIFIC or BOSTON PICKLING
An excellent variety for pickling, and is immensely productive. It bears abundance of fruit of delicious flavor.
Per pkt., 3c.; oz., 10c.; lb., 35c.; 1/2 lb., 40c.; lb., 75c.

EARLY RUSSIAN—This is one of the very earliest in cultivation and grows only about 2 inches long. It is fine for pickling. Give it a trial.
Per pkt., 5c.; 3 pkts., 10c.; oz., 10c.; 1/2 lb., 25c.; 1/2 lb., 40c.; lb., 75c.

EVERGREEN CUCUMBER
This new Cucumber is admitted to be an excellent pickling sort possessing all required qualifications as a perfect pickling Cucumber. Those who have grown it say it bears three Cucumbers to ordinary kinds one. It is a very strong grower, extra early and the fruits are excellent for slicing if allowed to grow to sufficient size. When ripe the color is yellow, but through other stages of its growth it is a handsome evergreen.
Per pkt., 5c.; 3 pkts., 9c.; oz., 10c.; 1/2 lb., 25c.; 1/2 lb., 40c.

NICHOLS' MEDIUM GREEN CUCUMBER
Unexcelled as a first-class pickling sort, and is used by the best market gardeners. The skin is light green in color, very smooth and of fine quality.
Per pkt., 5c.; 3 pkts., 9c.; oz., 10c.; lb., 25c.; 1/2 lb., 40c.; lb., 75c.

LEMON CUCUMBER
See Page 1, for Colored Plate.
The Lemon Cucumber is nearly round, the skin is smooth and yellow and green mottled. The fruit grows from 3 to 3 inches in diameter, flesh is tender and has a flavor surpassing all other cucumbers. It is excellent for pickling, either green or ripe. For table use they should be used just as the fruits are turning yellow. It is a real novelty and we are sure, after once tasted, that it will be planted every season, for the quality and productiveness is sure to please everyone.
Per pkt., 6c.; 3 pts., 15c.

DAVIS' PERFECT CUCUMBER
This is the great Cucumber that has been so largely advertised. It is claimed you can raise these Cucumbers in open ground and they will sell in any market at the same price as the high-priced hot house forcing cucumbers. It is predicted that this cucumber is bound to become the most popular, both for forcing under glass and for growing outside, of any cucumber ever offered. On account of its splendid shape, handsome color, splendid eating qualities and being almost seedless one-third of its length from the stem end, and the seeds very small, together with its enormous productiveness, it takes the lead of anything we have ever known. It does not change its dark rich color when grown out doors, but resembles a hot house cucumber so closely that they cannot tell the difference.
Mr. Davis has originated several very valuable varieties and we are fully satisfied with this new cucumber, he calls his "Perfect" is bound to become very popular whenever grown. A few of these Cucumbers growing in any garden will surely give great satisfaction. We offer the varieties as described as follows:
Per pkt., 5c.; 3 pkts., 10c.; oz., 15c.; 1/2 lb., 25c.; 1/2 lb., 40c.; lb., 75c.

THORNBURN'S NEW EVERBEARING
A splendid early variety: fruits continuously until killed by frost. They are perfect in form and are of a fine green color.
Per pkt., 5c.; 3 pkts., 10c.; oz., 15c.; 1/2 lb., 25c.; 1/2 lb., 40c.; lb., 75c.
Cumberland Pickling Cucumber

This is a very desirable variety for pickling. The vine is of strong growth and bears heavy, very freely. The illustration, carefully engraved from specimens grown on our trial grounds, gives a good idea of the appearance. The young cucumbers are thickly set with small spines and are very attractive for either large or small pickles. The fruits average when fully grown from nine to ten inches in length and from two to three inches in diameter. It is a good variety for pickling as well as for eating, but we highly recommend it as a desirable variety especially for pickling, and we advise our customers to give this variety a trial this year.

Pkt., 6c.; 3 pkts., 10c.; oz., 15c.; 1/4 lb., 25c.; 1/2 lb., 50c.; 1 lb., $1.10, postpaid.

**BLACK BEAUTY EGG PLANT**

This is one of the earliest and best of all large fruited Egg Plants. It grows fully as large, and is ready for use about two weeks earlier than the New York Improved Purple. The skin is a rich purple-black, and is a real beauty. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

**NEW YORK IMPROVED LARGE PURPLE**—Skin deep purple; free from thorns; flesh white; is quite productive. Per pkt., 5c.; 3 pkts., 10c.; 1/2 oz., 20c.; oz., 30c.

**BLACK PEKIN**—Almost round and of large size, skin jet black, glossy and smooth; flesh white, solid and fine grained; medium early. Per pkt., 5c.; 3 pkts., 10c.; 1/2 oz., 15c.; oz., 25c.

**COLLARDS**

**GEORGIA COLLARDS**—Known as Cole or Colewort; originated in the South. Grown South for greens. Pkt., 5c.; oz., 10c.; 1/2 lb., 30c.; 1 lb., 30c.

**MUSTARD**

**BLACK**—Per pkt., 5c.; oz., 10c.; lb., 40c.

**WHITE**—Very best, mild and exceedingly tender. Pkt., 5c.; oz., 10c.; 1/2 lb., 30c.; 1 lb., 40c.

**Endive**

**GREEN CURLED**—This is a very hardy variety, has dark green leaves, always blanched white and crisp. Per pkt., 5c.; oz., 10c.; 1/2 lb., 35c.; 1 lb., 55c.

**BROAD LEAVED BATAVIAN**—Produces large heads of broad, wide leaves, used for flavoring soups, and if blanched the leaves make a good salad. Per pkt., 5c.; oz., 10c.; 1/2 lb., 30c.; 1 lb., 55c.

**WHITE VELVET OKRA (or Gumbo)**

Never prickly and always round and smooth, while other varieties are either ridged or square edged. Out-yields other varieties. Per pkt., 5c.; 3 pkts., 9c.; oz., 10c.; 1/2 lb., 25c.; 1/2 lb., 40c.; lb., 75c.

**Cress**

**FINE CURLED**—(Pepper Grass)—Agreed taste to salad. Per pkt., 5c.; oz., 10c.; 1/2 lb., 35c.

**Dandelion**

**IMPROVED LARGE LEAVED**—Very early and hardy. Will grow in May and will be fit to cut in July. A very valuable variety. Pkt., 10c.; 1/2 lb., 25c.; lb., 40c.

**Kohl-Rabi or Turnip Rooted Cabbage**

**EARLY PURPLE VIENNA**—It is largely grown for table use in Germany. Per pkt., 5c.; oz., 10c.; 1/2 lb., 60c.; 1 lb., $1.00; lb., $1.80.

**EARLY WHITE VIENNA**—Best for table use. Per pkt., 5c.; oz., 10c.; 1/2 lb., 40c.; 1 lb., 80c.; lb., $1.50.
MAY KING LETTUCE

- This is a new variety for early spring planting in the open ground. The plant will measure 6 to 7 inches in diameter, with the outer leaves folded closely forming a rich, buttery flavor. Many of the heads will tip the scales at one pound each. Be sure to try this grand new lettuce. Pkt. 5c.; 3 pkts. 15c.; 1 oz. 25c.

EARLY CURLED SIMPSON—One of the very best and earliest for outdoor culture. Pkt. 5c.; 3 pkts. 15c.; 1 oz. 25c.; ½ lb. 40c.

NEW YORK LETTUCE

- It is claimed this is the king of all main crop head lettuce, forms immense heads as sold as cabbage, often 15 inches across. The quality is excellent, the heads being creamy-white inside and free from any bitterness. It is very slow to run to seed, and a sure header under all conditions. It is a large growing variety, resisting dry, hot weather, and we can highly recommend it as a standard variety for the garden. Of all the varieties of lettuce we offer, there is none that will give better satisfaction when sown in the garden early in the spring than this immense variety. We want all our customers to try this variety this year. Pkt. 5c.; 3 pkts. 12c.; 6 pkts. 20c.; 1 oz. 30c.

MILLS' EARLIEST—This is the earliest lettuce in the world. Handsome in appearance, excellent flavor and will make more money for the market gardener than any other variety. It is a lettuce for forcing or for general crop or can be sown at any time and we do not believe it can be improved. It forms little heads very tender, remarkably crisp of the very best quality. It resists heat, drought and wet to a remarkable degree and is slow to run to seed. By all means grow this handsome early lettuce. Price per pkt. 5c.; 3 pkts. 15c.; 6 pkts. 15c.; 1 oz. 20c.; 2 ozs. 30c.

MILL'S GREAT NORTHERN LETTUCE

- Here is a wonderful new variety; mammoth in size and we believe it is, without exception, the very largest lettuce in cultivation. It is tender, sweet, crisp, and produces large solid heads about one foot in diameter. While it is mammoth in size it is very tender and no one should hesitate in growing it on account of its size. It resists the heat well, is slow to run to seed and a good variety for late crop when many others are not fit to use. The engraving gives a good idea of this mammoth variety and we would like to have our customers give it a trial this year. Pkt. 5c.; 3 pkts. 12c.; 6 pkts. 30c.; 1 oz. 40c.

EARLY PRIZE HEAD LETTUCE

- A good variety that always gives satisfaction, being one of the best head lettuce varieties. heads being quite early and every leaf in this variety is fit for serving. It is a good market gardener's kind as it is very slow to run to seed and while it is a comparatively early kind, yet rather late in the season it attains its good flavor and does not turn bitter as do a great many other varieties. Pkt. 5c.; 3 pkts. 10c.; 1 oz. 12c.; ½ lb. 25c.

BIG BOSTON LETTUCE

- Without doubt the best large Cabbage Lettuce on the market. Very valuable to the Southern gardener for shipping North and equally as valuable in the North as it is the first early sort grown and is becoming more popular each season in all parts of the country. It gives satisfaction in whatever way it may be grown, whether for forcing in the greenhouse or for sowing in the open ground for summer and fall use. Its large compact, tender and crisp head makes it attractive for table use, the leaves being light green, and it always finds a ready market. Our seed of this popular lettuce is carefully grown under favorable conditions and is the best stock to be had. Pkt. 5c.; 3 pkts. 15c.; 1 oz. 25c.; 2 ozs. 35c.

IMPROVED HANSON—This is a perfect Lettuce for the table. Heads green outside and white within, sweet, crisp and tender, even to the outer leaves. This is becoming a very popular lettuce. Pkt. 5c.; 3 pkts. 10c.; 1 oz. 15c.; ½ lb. 30c.
THE COS LETTUCE

This variety could easily be called Celery Lettuce. The engraving, made from photo, shows its long, narrow, spoon-shaped leaves, most all of which form into a rather loose leaf-shaped head. Its shape makes it a very convenient head for packing or serving, and it is becoming to be highly regarded as it keeps sweet and crisp during the hot months and is very slow to run to seed. If the outer leaves are tied up, this lettuce will form into a solid head and bleach snow white. On account of its compact habit of growth, the plants can be set as close as 6 to 9 inches.

Pkt. 8c; 3 pkts. 20c.; oz. 45c.

PARSNIP

LONG SMOOTH OR HOLLOW CROWN—We consider this the best parsnip to grow. It produces a long smooth root, is excellent for the table, being tender and well flavored. It requires a deep, clean moderately rich soil. It is a heavy cropper and will do well in most any locality. Pkt. 5c; 3 pkts. 8c; oz. 15c; lb. 35c; lb. 20c; lb. 40c.

ROUND THICK LEAVED—Grows large, thick, dark green leaves somewhat crumpled. Per pkt. 5c; 3 pkts. 8c; oz. 15c; lb. 35c; lb. 20c; lb. 40c.

Rhubarb or Pie Plant

BERRANK'S CRIMSON WINTER—See page 37. Pkt. 8c; 3 pkts. 20c.

LARGE VICTORIA—This is a very large, quick growth fine flavor and is the standard variety. General favorite with market gardeners. Two quarts to a peck. Pkt. 5c; 3 pkts. 8c; oz. 15c; lb. 35c; lb. 20c; lb. 40c.

Here is a wonderful mixture of rare, strange and curious Gourds one would never think of seeing. The colors, shapes and sizes would astonish you. Just the sort you will want to plant for a curiosity. We claim that our mixture contains about 18 different shapes and varieties here is in the way of Gourds. Be sure to try a packet. Per pkt. 8c; 3 pkts. 20c.
Casabas have now become a commercial commodity. They are a late variety of musk melon to be classed in a family by themselves. They should be planted after all danger of frost in spring and just before frost in the fall; all melons, even half grown, should be picked and put in a dry place where they will ripen gradually and give a continual supply all winter. We are offering two splendid varieties.

**THE HYBRID CASABA**—See first page for colored plate of this new variety. It is a grand Casaba and will give great satisfaction to all who grow it. For a full description, see Colored Plate in front of this catalogue. Pkt., 6¢; 3 pkts., 15¢; 7 pkts., 30¢.

**WHITE AFRICAN**—This variety is a real novelty. There are but very few of this grand sort being grown in the United States, but when once grown they are a great favorite. This Casaba is entirely white, symmetrical in shape with smooth rind, hard and firm, a long keeper and a good shipper, nearly as solid as Santa Claus. The flavor cannot be excelled by any melon of the Casaba family. Per pkt., 8¢; 3 pkts., 20¢; 7 pkts., 40¢.

---

**MUSK MELONS OR CANTALOUPE**

**Early Gem Musk Melon**

Of all the Musk Melons we have ever grown, Early Gem takes first place. It has been found to be the best shipping melon grown; a cross between Rockyford and Emerald Gem, and comes true in flavor, netting each year. The flesh of this new melon is a pink or orange color. Seed cavity is very small and the flesh is solid, of the best quality; rind thin but tough. Melons of this variety have been shipped thousands of miles and expert melon growers pronounced it the grandest melon they ever saw. We are having great reports on this splendid melon from all parts of the country. It should be grown to be appreciated. We want all our customers to grow this melon for it can be easily raised in any section of the United States, even in the far north. Be sure and try it. Pkt., 6¢; 3 pkts., 15¢; 6 pkts., 25¢.

---

**Mills’ Famous Musk Melon**—We are very fortunate in being able to offer our customers this grand new Musk Melon this year. It is one of the earliest Musk Melons that we have ever raised and we know it will create a sensation wherever grown and should be given a trial to be appreciated. The Melons are uniform in size, of fine appearance, handsome shape, delicious and sell in any market. It is larger than many other early varieties, flesh is yellow, seed cavity very small and produces very few seed, which makes seed high in price. As a table Melon it cannot be surpassed. The illustration gives a good idea of this handsome Melon. Our supply of seed is somewhat limited, but we are anxious that every customer should give it a trial this year, even if they only grow a few hills in the garden for testing. Pkt., 6¢; 3 pkts., 15¢; 6 pkts., 25¢; 12 pkts., 40¢; ½ oz., 15¢; oz., 25¢.
MILL'S NEW STRAWBERRY MUSK MELON—Here is quite a novelty in Musk Melons, and has only recently been introduced. From trials we have made of it, it has proven to be a very satisfactory melon. The original claim it has a flavor like that of the strawberry, hence its name. It is of the small netted type, and the fruit weighs from five to ten pounds each. Its flesh is of an attractive orange red color, and is highly recommended by all who have grown it. Color of the outside is green turning to yellow hue as it ripens. It is claimed that the way this new Melon was originated was by planting certain varieties of strawberries between every other row of the New Hybrid Musk Melon, and in this way a splendid Musk Melon has been developed which we call Strawberry.

EMERALD GEM—One of the very best. Skin is smooth and emerald green in color. Vines grow thirsty and produce an abundance of fruit, very rich and succulent flavored. A grand Musk Melon. Grow it this season and it will always hereafter find a place in your garden. Per pt., 5c.; 3 pks., 9c.; oz., 10c.; 1/2 lb., 20c.; 1 lb., 30c.

Musk Melon Mixture—All those who want to raise every variety of Musk Melon we have by planting the seed all at once in the spring, we highly recommend this mixture. An abundance of early Musk Melons with a continued supply of medium, early and late sorts of all shapes and sizes will be produced. Pkt., 5c.; 3 pks., 10c.; oz., 9c.; 2 oz., 16c.; 1-1/2 lb., 25c.
MILLS' EARLIEST WATER MELON

EARLIEST WATER MELON GROWN

This great Early Water Melon is becoming known everywhere and is making a great record on account of its extreme earliness. Of all our tests we find "Mills' Earliest" absolutely the earliest of them all and is sure to be first in the market. It is delicious in flavor, very juicy and sweet and always salable. It is excellent for family use, as a few vines will yield many melons. Everyone should try this new early Water Melon. It is excellent for family use, as a few vines will yield many melons. Everyone should try this new early Water Melon.

The flesh is deep red in color, exceedingly brittle; the skin is dark green with faint streaks of lighter green. It is a Melon of easy culture and we urge our customers to give it a trial; our claim being that it is the earliest Water Melon grown.

Per pkt., 5c.; 3 pkts., 12c.; oz., 20c.; 2 ozs., 30c.
Kleckley Sweets

**This Water Melon is becoming very popular. It is especially valuable on account of its fine flavor. As will be seen by the illustration, it is a long oval-shaped Water Melon with dark green rind. The flesh is very firm, scarlet in color, and of the very best quality and crisp texture. It has a splendid family garden Melon and always gives good satisfaction everywhere, and we can highly recommend it to grow in the north or south. By all means plant it.**

**NEW FAVORITE—Here is an excellent Water Melon with dark and light green color. It is oblong in shape, as illustrated. Flesh bright crimson and very sweet; is an excellent shipper, ripens before Kolb's Gem or Ironclad. This is an excellent variety to grow in the south for northern market.**

**SWEETHEART—This grand new melon is one of the earliest of the large sorts. Handsome; good keeper; fruits are large; rind thin but firm. Flesh, very bright red; solid and thick. An excellent Water Melon to grow.**

**KOLB'S GEM—Largely grown in the south for shipment to northern markets. Fruit nearly round, rind dark green marbled with lighter stripes.**

**ICERG OR BLUE GEM—In general shape, size and appearance this is similar to Kolb's Gem, but in distinctly darker, and the skin where the melon rests on the ground is a rich yellow instead of white as in that variety. It has a very firm, hard rind; an excellent good shipper.**

**WINTER GEM—Grand new melon, a late ripening sort. Fruit nearly round, rind dark green marbled with lighter stripes.**

**ICEBERG—Excellent variety of large size; the weight averages nearly 50 lbs. each. The flesh is deep red and of best flavor.**

**NEW CHILIAN WATER MELON—A large variety, often weighing 80 lbs. each. The rind is marked with irregular stripes of light and dark green. A very showy variety and largely grown.**

**DIXIE—Beautifully striped. The flesh is of an intense bright deep scarlet, very sweet and tender. Growers say the Dixie is the best eating and the most productive melon they have ever grown.**

**HARRIS' IMPROVED EXTRA EARLY—This variety was originated by Mr. Harris, of Tennessee. He is an expert Melon grower and this Extra Early will ripen and be gone before any other. Early Melons begin to ripen. It is of good size, weighing from 15 to 20 pounds. It is an excellent shipper and will ship thous. ands of miles; skin is mottled with green and white; the flesh is red, sweet and juicy.**

**MAMMOTH IRONCLAD—Excellent variety of large size; the weight averages nearly 50 lbs. each. The flesh is deep red and of best flavor.**
We offer all the leading varieties of Onions. Good Onion seed is what everyone wants and we offer the best. All the seed we have has strong vitality, tests very high and we hope to have sufficient to supply all our customers this year.

**Mills’ Yellow Globe Danvers**

MILLS’ YELLOW GLOBE DANVERS—This is a choice selected strain of Yellow Globe Danvers Onion and we are sure there is no better on the market today. It always attains a good size with deep bulb and small neck. They grow uniformly, large size and command the highest market prices. Skin is rich golden yellow, flesh white, very fine grain, mild pleasant flavor, excellent keeper, and one of the most hardy and productive Onions cultivated. Our seed, stock, is raised with particular care and only the best Onions selected for seed. When once planted, customers will have no other kind. Our crop this season of this Onion is not very large, but the seed is plump and very heavy of strong vitality, reliable in every respect. If you want to grow a choice lot of these handsome Yellow Globe Onions, order our strain of seed. Pkt., 5c.; 5 pkts., 10c.; 10c.; 2 oz., 20c.; 1/2 lb., 40c.; 1 lb., 65c.; Ib., $1.15, postpaid.

**GIANl RED ONION**

A HANDSOME LARGE RED VARIETY.

We are pleased to offer our customers seed of this Giant Red Onion, which we have succeeded in securing from a grower who has made a specialty of this variety. The Onions weigh from 3 to 3 pounds each from the seed sown in spring. The skin is very thick and delicate and is a beautiful reddish brown color. Flesh is pure white, remarkably mild and pleasant in flavor. We are sure this splendid large variety will please our customers. Seed is very limited and high priced. Pkt., 6c.; 5 pkts., 15c.

**Red Globe Wethersfield**

Red Globe Wethersfield—This is a new Onion, only recently introduced and there are no claims made for it. It is admitted that it has a record of over 700 bushels of Onions to the acre and not a scoul-lion among them. They ripen early, are large size and admired by all who see them. Red Globe Wethersfield will be a valuable Onion in the future on account of its being so attractive in appearance in the market, where it commands the highest price. The outer skin possesses that luster and richness of color so desirable and yet so often lacking from the ordinary R. R. Dwarf crop. Try Red Globe Wethersfield this year. Pkt., 5c.; 5 pkts., 10c.; 1 oz., 15c.; 2 oz., 25c.; 1/2 lb., 40c.; 1 lb., 75c.; lb., $1.40.

**Extra Early Red Onion**

EXTRA EARLY RED—This is one of the standard American Onions, adapting itself to a wide variety of soils and situations. It will succeed in cold mucky ground where other sorts will fail. It matures sometime before Red Wethersfield and if grown in rich soil produces bulbs almost as large, but the bulbs are somewhat flattened. It can be made to produce fine Onions in ninety days from sowing the seed. It is of mild flavor and keeps well. Color is a deep rich red. The skin is fine and close and the Onion is solid and heavy. Well adapted for early market. This Onion will succeed almost anywhere and is particularly adapted for northern latitudes, or where the seasons are short and cold. Pkt., 5c.; 3 pkts., 10c.; oz., 15c.; 5 ozs., 25c.; 1/2 lb., 40c.; 1 lb., 75c.; lb., $1.30.

**Bermuda Onions**

RED BERMUDA—This is by far more productive than the old Red Bermuda and we can recommend it as being early, large and very solid. It keeps much better than any other foreign variety. Pkt., 5c.; 3 pkts., 10c.; 6 pkts., 20c.; 1/2 oz., 15c.; oz., 25c.

CRYSTAL WHITE WAX—This is the best White Bermuda Onion that any one can wish for because the color, shape and appearance is at once an attraction for the buyer. It readily sells at first sight. Flavor fine in existence. New seed in rich soil and the handsome, large white onions will astonish you. Pkt., 5c.; 3 pkts., 10c.; 6 pkts., 20c.; 1/2 oz., 15c.; oz., 25c.
We introduced this Giant Onion in our 1908 catalogue after we had worked through several seasons and developed it to a variety that we consider superior to any other light yellow skin variety with pure white flesh.

Our seed stock for the season of 1908 was not sufficient to offer in a larger quantity than three packets to a customer, and last year the largest quantity we could offer was one ounce, so great was the demand for the seed. This onion is a giant in size and seed grown in the spring will easily produce fully grown onions by fall. The outside skin is a handsome light yellow slightly tinted with red at the base and the flesh is pure white with an unusually mild flavor. The bulbs are uniform in size and remain firm and solid throughout the winter. Various crops from seed have attracted a great deal of attention and we cannot recommend it too highly, knowing that it has given great satisfaction to our customers. We have a fairly good supply of seed this season to offer and would like to have everyone that is interested in onions try the Giant American. It will attract more attention than any other onion grown and it will give a very profitable crop.

Pkt., 5c.; 3 pkts., 10c.; oz., 15c.; 2 oz., 25c.; ½ lb., 45c.; 1 lb., 80c.; 2½ lb., $1.50, postpaid.

AUSTRALIAN BROWN—This variety matures early, about three weeks ahead of the Wethersfield and is largely grown for a market onion. The bulbs are of medium size, run very uniform, wonderfully hard and solid and have an attractive amber-brown color. The bulbs are very even in size with a small hard neck and its keeping qualities are excellent, keeping for a year or more.

Pkt., 5c.; 3 pkts., 10c.; oz., 20c.; 2 oz., 35c.; ½ lb., 60c.; 1 lb., $2.00.

MILLS’ DARK RED BEAUTY ONION

Here is a very handsome onion: full grown bulb measures 1½ to 2 inches in diameter and from the crown to the bottom of the bulb the depth averages from 1½ to 2 inches. It resembles the Red Wethersfield, the color of the skin being a pretty dark red, rather a brickish red than a purple red as the Wethersfield. It is extremely hardy; a very long keeper; its solidity and soundness being retained until way into the following spring. For making a handsome looking red set for the market it is particularly fine; very attractive. We secured the seed of this handsome Red Onion from a grower in France and we want every one of our customers who are interested in fine Onions to grow this one this year.

Pkt., 5c.; 3 pkts., 15c.; 6 pkts., 25c.; 10 pkts., 40c.; 1 oz., 50c.
WHITE PORTUGAL OR SILVER SKIN—A well-known variety and a great favorite with market gardeners and truckers. Flavor mild and pleasant, skin silvery white of handsome appearance. Pkt., 5c.; 3 pkts., 10c.; oz., 25c.

WHITE VICTORIA—This is a handsome globe shape Onion of mild flavor. It is really a beauty on account of the Onions being so white and uniform in size. Pkt., 5c.; 3 pkts., 12c.; oz., 20c.

RED VICTORIA—This is identical in the same as White Victoria, except the skin is a very dark red and flesh white or beautiful rose color. Pkt., 5c.; 3 pkts., 12c.; oz., 20c.

SOUTHERN WHITE GLOBE—This is a handsome silvery white perfectly bulb-shaped Onion of large size, commanding the highest prices in the market. Flesh firm, fine grain, mild flavor and an excellent keeper. Its even regular size, perfect globe form, combined with the clear silvery whiteness of the skin makes it one of the handsomest Onions grown. Pkt., 5c.; 3 pkts., 12c.; oz., 25c.; 1 lb., 70c.

SOUTHERN RED GLOBE—This is a large Red Globe Onion, similar to White Globe excepting color. Matures quite early, large size, deep red skin, fine grain, flesh mild, very productive and an excellent keeper. Pkt., 5c.; 3 pkts., 12c.; oz., 25c.; 1 lb., 70c.

SOUTHERN WHITE GLOBE—This is a handsome silvery white perfectly bulb-shaped Onion of large size, commanding the highest prices in the market. Flesh firm, fine grain, mild flavor and an excellent keeper. Its even regular size, perfect globe form, combined with the clear silvery whiteness of the skin makes it one of the handsomest Onions grown. Pkt., 5c.; 3 pkts., 12c.; oz., 25c.; 1 lb., 70c.

YELLOW DUTCH OR STRASBURG—The bulbs of this variety are of good size, quite flat, skin yellow, flesh white, excellent for growing sets. It is an old well-known variety. Pkt., 3c.; 3 pkts., 10c.; oz., 15c.; 1/2 lb., 40c.

MAMMOTH RED POMPEII—This magnificent Onion originated in Italy. It is of very fine quality and has produced Onions weighing 3/4 to 3 pounds from the black seed first year. Notwithstanding their enormous size their shape is always round and symmetrical. The skin is very thick and delicate in appearance, being a beautiful reddish brown in color. Flesh is pure white, very fine grain and remarkably mild and pleasant in flavor. Pkt., 5c.; 3 pkts., 12c.; oz., 20c.; 3 oz., 35c.

MAMMOTH SILVER KING—This variety grows very large, bulbs are of attractive shape, flattened but thick through, as shown in the engraving, average diameter 5 to 7 inches, bulbs often weighing 3 to 4 pounds each. Skin is a beautiful silvery white, flesh is particularly mild and pleasant in flavor. It can be grown in nearly all sections of the United States the first year from seed. Anyone desiring a handsome large pure white Onion of the finest mild flavor will be more than satisfied with the Mammoth Silver King. It cannot be too highly recommended, either for family use or for market for its size and beauty will prove very striking. Pkt., 5c.; 3 pkts., 12c.; oz., 15c.; ozs., 25c.; 1 oz., 35c.; 1/2 lb., 60c.

PRIZE TAKER
One of the Largest Yellow Globe Onions in the World.

IT IS UNEXCELLED AS A MONEY MAKER OR FOR HOME USE

PRIZE TAKER—This is a great Onion, and it is hard to equal the genuine Prize Taker. We consider the Prize Taker by far the handsomest, most productive, most popular and best of the Yellow Globe Onions today. It is nearly as large as Giant American, the new sort we are introducing this year. Prize Taker produces large, handsome bulbs of superior quality and grows very uniformly in size, nearly a perfect globe as shown in the illustration. It has a very small neck and always ripens up hard and fine without any stiff necks. The skin is of a bright straw color and presents a handsome appearance in market. The bulbs grow to an enormous size, often measuring 10 to 15 inches in circumference and attract a great deal of attention in any market and can be sold at a better price than any other variety we know of. The keeping qualities are excellent and the bulbs appear to be as firm and solid in the spring as when put away in the fall. We cannot too strongly recommend our genuine Prize Taker Onion seed. We have a limited quantity to offer at the following prices: Pkt., 5c.; 3 pkts., 10c.; oz., 15c.; 1/2 lb., 25c.; oz., 20c.; 1/2 lb., 45c.; 1 lb., $1.00 postpaid.

Three Pickling Onions

MILLS’ EUREKA EARLY RED GLOBE—This is one of the earliest small Red Onions in cultivation, is very early of perfect globe shape and several days earlier than any other Red Globe Onion. It is an excellent sort for pickling and will be sure to please everyone who grows it. The bulbs are similiar in size, and we highly recommend it. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 25c.; oz., 25c.

MILLS’ WHITE PICKLING—This is the earliest Onion in cultivation producing the handsomest little white bulbs imaginable. At maturity the tops die down directly to the bulb. The bulb is pure white, very delicate and mild flavor. For table use and pickling it is very valuable and we are sure, our customers will be more than pleased with this handsome little white Onion. Be sure to give it a trial. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 25c.; oz., 25c.

NEW WHITE QUEEN—Bulbs are small, flat, pure white and of excellent flavor, sown in March they will produce Onions 1 to 2 inches in diameter early in summer, sown in the summer they will produce good bulbs by fall. This is an excellent variety for pickling and we know will please all who want a white flat Onion. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 25c.; oz., 25c.
Mills' First of All Peas
Earliest Variety in the World

This is the best Extra Early smooth pea, unequalled for yield, size of pod and regularity of growth. Its height is about two and one-half feet and produces pods of good size which are well filled with smooth, round creamy white peas that ripen so evenly as not to require more than two pickings to clear the crop. Pkt., 60c.; 1 pt., $1.00; 1 qt., $1.50; 5 qt., $5.00; postpaid. By express or freight, not prepaid, pl. $2.50.

American Wonder Peas

**American Wonder**—This is a well known early pea and preferred by many for its earliness combined with habit of growth makes it a valuable sort to grow. It has a dwarf robust habit producing a profusion of good sized, well filled pods. Pkt., 50c.; 1 pt., 95c.; 1 qt., 1.25; 5 qt., 4.75; postpaid. By express or freight, not prepaid, pl. $2.50.

**Little Gem**—This is one of the smallest varieties grown, is very early. Its height is only 12 to 18 inches, while quality is excellent and is a prolific bearer. Pkt., 50c.; 1 pt., 95c.; 1 qt., 1.25; 5 qt., 4.75; postpaid. By express or freight, not prepaid, pl. $2.50.

**Advancer**—This is a second early wrinkled pea, grows about 2½ to 3 ft. high producing long pods which are well filled. This pea is used very extensively by market gardeners because of its productivity and the fine appearance of its pod. It is also largely used by canners and we offer an excellent strain of this pea to our customers. Pkt., 50c.; 1 pt., 95c.; 1 qt., 1.25; 5 qt., 4.75; postpaid. By express or freight, not prepaid, pl. $2.50.

**Champion of England**—A well known variety and acknowledged to be one of the best for late sowing. Pkt., 50c.; 1 pt., 95c.; 1 qt., 1.25; 5 qt., 4.75; postpaid. By express or freight, not prepaid, pl. $2.50.

Thomas Laxton

**Thomas Laxton**—This is a fine new early wrinkled pea and some what resembles Gradus or Prosperity, but the pods are a deeper and richer green. It is about as early as the First of All. Pods contain seven or eight very large peas of the richest flavor. It grows about three feet high and as a first year we consider it one of the very best; all who grow this variety will be greatly pleased with it. Pkt., 50c.; 1 pt., 95c.; 1 qt., 1.25; 5 qt., 4.75; postpaid. By express or freight, not prepaid, pl. $2.50.

New Surprise Peas

**New Surprise**—An extra early wrinkled variety. It is not as large as Northerns but resembles Gradus and is very handsome. The vines grow about three feet high and need no bushing; pods are well filled and everyone who has these will be more than pleased with them. Pkt., 50c.; 1 pt., 95c.; 1 qt., 1.25; 5 qt., 4.75; postpaid. By express or freight, not prepaid, pl. $2.50.

Gradus on Prosperity Peas

**Gradus or Prosperity**—This is a grand extra early pea. It is popular wherever grown and is considered one of the very best large podded wrinkled peas which will mature pods only a few days later than the small podded round seeded extra early varieties. The pods and peas are always large and remain tender and sweet for some time after they are large enough to use. Our illustration gives a good idea of this splendid early wrinkled pea. Pkt., 50c.; 1 pt., 95c.; 1 qt., 1.25; 5 qt., 4.75; postpaid. By express or freight, not prepaid, pl. $2.50.
Mills' Golden Peas

results. They are yielded by the entire crop, as ten pods from one root stalk. It is certainly a grand pea. Pkt., 6c.; 3 pkts., 15c.; ½ pt., 15c.; 1 pt., 25c.; 1 qt., 45c., postpaid. By express or freight, not prepaid, pk., $3.50.

TELEPHONE

TELEPHONE—This is a strong luxuriant growing main crop variety, attaining a height of about 4½ feet. It is exceedingly prolific, producing a large number of pods to the stalk. The pods are always large size and filled with immense wrinkled marrow peas, six to eight being the average, while ten to twelve peas to a pod are frequently found. Quality is excellent and for family use it is hard to excel. The Telephone Pea, Pkt., 6c.; 3 pkts., 15c.; ½ pt., 15c.; 1 pt., 30c.; 1 qt., 55c., postpaid. By express or freight, not prepaid, pk., $3.50.

PRIDE OF THE GARDEN, GOLDEN SUGAR

PRIDE OF THE GARDEN, GOLDEN SUGAR—This is a mammoth Sugar Pea and we have never found a variety that can equal it. The flavor of the Peas is better than other Sugar Peas, are entirely free from strings, pods are very tender and brittle vines grow 3½ to 4 feet high and are covered with mammoth pods. They can be used the same as snap or string beans and on account of the excellent quality there is always a large demand and seed stock in very limited.

MILLS' ENORMOUS

MILLS' ENORMOUS—This grand new pea was first introduced by us as No. 4 and we paid $5.00 for the name. When it was first introduced we claimed it would prove a rare variety. Hundreds of our customers have been more than pleased with it and write us it surpassed every-
GOLDEN SUGAR PUMPKIN

These Grand Pie Pumpkins are just the ones to grow in the garden for home use. They are a deep buff color, ripen very early, fine grained, sweet flavored, and splendid keepers all through the winter. They will grow in most any location and produce an abundance of handsome pumpkins. We want you to try them this year. Pkt., 5c.; 3 pkts., 15c.; 6 pkts., 25c.; 25c.

PUMPKINS

WINTER LUXURY—Golden russet in color and one of the best for pies. A great keeper, fine grain, rich and sweet. Pkt., 5c.; 3 pkts., 8c. oz., 10c. lb., 25c.

JAPANESE PIE—This is a Japanese variety, valuable for cooking. Flesh is very thick, of rich salmon color, fine grain, dry and sweet. Lbs. of medium size, seed cavity small, very productive and a good keeper. Pkt., 5c.; 3 pkts., 8c. oz., 10c., ½ lb., 50c.

TELENEE SWEET POTATO—This is a medium size variety, pear-shaped, slightly ribbed, ranging in color from cream to white; some times slightly striped with green. Flesh is slightly colored, fine grain and when cooked resembles a sweet potato in appearance and taste. Pkt., 5c.; 3 pkts., 8c. oz., 10c., ½ lb., 25c.

CAL-HOON—Color cream brown, while the inside flesh is deep salmon yellow. Fine grain and an excellent Pumpkin. Pkt., 5c.; 3 pkts., 8c. oz., 10c., ½ lb., 25c.

KING OF THE FIELDS—This is a giant Pumpkin, growing to a large size, some resemblance Mills' Giant. Pkt., 5c; 3 pkts., 10c.

COMMON FIELD—This is the ordinary Pumpkin used to plant in connection with the crops. Fine and productive. Pkt., 5c.; 3 pkts., 8c. oz., 10c., ½ lb., 25c.

YANKEE PIE—Here is a splendid Pie Pumpkin, which has been produced through a careful selection of sugar or sweet varieties. The Pumpkins are not large, but of excellent quality and we are sure no Pumpkin ever introduced has given more satisfaction than Yankee Pie. It is extremely early, remarkably prolific, yielding six to twelve medium size Pumpkins to a vine; fine grain, sweet sugary, and the earliest of all Pie Pumpkins. Pkt., 5c.; 3 pkts., 8c.; oz., 15c., ½ lb., 25c.

Grow to Weigh
100 to 250

Pounds

SUGAR PUMPKIN—Also called Sweet Pumpkin. There is a great demand for seed of this well-known variety. It has a deep yellow skin and fine grained flesh, excellent keeper. It cannot be exceeded as a table variety. It is a sure cropper and excellent for marketing, as it always grows to a uniform size. Pkt., 5c.; 3 pkts., 8c. oz., 10c., ½ lb., 25c.

MILLS' GIANT PUMPKIN—This is a prize winning variety and grows to an enormous size and should be grown to be appreciated. But few have an idea of the plant size these pumpkins attain. The flesh is bright yellow, fine grain, and of good quality. Notwithstanding the large size of the Pumpkin it is excellent for pies. We have raised specimens weighing over 200 pounds and it is nothing uncommon for our customers who have grown this variety to show specimens weighing 100 pounds and upwards. We do not think there is anything offered that will create a greater interest than a few hills of this Giant Pumpkin. It is an excellent pumpkin to plant for show purposes, on account of its attaining such an enormous weight. It is a very shy seeder making thinned seed of no account. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.
This new Pepper originated with an expert pepper grower and describing it he says: "The plant grows from 1½ to 2 feet high and is very prolific, always producing a large number of clusters of peppers in the form of a bouquet as shown by the photograph, there being from 12 to 30 cone shaped fruits to the bouquet from ¾ to 1 inch long. It is a very strong grower and makes a beautiful pot flower and with the same treatment as that of a Geranium will live through the winter in the house, shedding its leaves and putting out new and stronger branches the second year. We want all our customers to grow this splendid Pepper.

Per pkt., 6c., 3 pkts., 15c., 6 pkts., 25c.

GREAT NORTHERN PEPPER—Here is one of the greatest Peppers ever introduced. It is a perfect Giant in size; double the size of other Peppers. The plants grow vigorously of a strong stocky habit, nearly two feet in height. The fruit is very uniform in size, while the flesh is extremely mild, being entirely free from any fiery flavor. The Mammoth Peppers grow very rapidly, always of a glossy scarlet in color from four to five inches broad at the top. They are excellent for many purposes where Peppers can be used. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c.

CHINESE GIANT—This is a large variety producing enormous fruit in great abundance on strong plants, which grow about two feet high of a handsome branching character. The Peppers are thick, tender and mild, nearly as sweet as an apple, while the skin when ripe is a brilliant scarlet. It certainly is an excellent large variety of the mildest flavor. Pkt., 5c., 3 pkts., 12c.

BELL OR BULL NOSE—This is an early red variety of large size, mild flavor, thick and fleshy. Plants grow about 8 feet high, while the fruits are about 3 inches in length and 2 inches in diameter. It is a first-class red Pepper. Pkt., 5c., 3 pkts., 10c., ½ oz., 15c., oz., 25c.

LONG RED CAYENNE—This is the true Cayenne, fruit conical shaped, red in color, very hot in flavor. Pkt., 5c., 3 pkts., 10c., ¼ oz., 15c., oz., 25c.

NEW CELESTIAL—A handsome Pepper growing about 1½ to 2 feet high, producing an abundance of fruit well above the foliage of the plant, as shown by the illustration. Up to the time they are fully grown they are a rich creamy yellow and when ripe they turn to a bright scarlet. Pkt., 5c., 3 pkts., 10c., ½ oz., 15c., oz., 25c.

Mammot Golden Queen Pepper

MAMMOTH GOLDEN QUEEN—This is the largest sweet yellow Pepper, handsome, very productive, perfect in shape, uniform in size, mild flavor and of a golden waxy yellow color. The illustration gives a good idea of the appearance of the plant of this handsome variety. Pkt., 6c., 3 pkts., 10c., ½ oz., 12c., oz., 20c.

GOLDEN UPRIGHT—This fruit is of a golden color tinged with bronze, of mild flavor, a very handsome variety. Pkt., 5c., 3 pkts., 10c., ½ oz., 12c., oz., 20c.

Great Northern

RUBY KING PEPPER—This is a well known variety and one of the leading Peppers, always in great demand. It grows to a good size producing large size brilliant red Peppers, which are sweet and of mild flavor. Ruby King is a sort that can be relied upon and we offer seed selected from extra large specimens. Pkt., 5c., 3 pkts., 10c., ½ oz., 15c., oz., 25c.
THE WONDERBERRY

The Wonderberry was largely advertised during the past year as a remarkable new berry, a creation of Luther Burbank and adapted to pot as well as open ground culture. There has been a great deal of controversy as to the value of the fruit, some claiming that it is of no value being no more nor less than Nightshade. We have grown the fruit on our own grounds the past season and experimented with it in many ways and our experience has proved to us that the genuine Wonderberry is quite different than the so-called wild Nightshade which may be found growing in various sections of the country, but it may somewhat resemble it. It will produce fruit in from 3 to 4 months from sowing the seed, and is quite an interesting plant. Its fruits in shape and color are similar to huckleberries but not quite so large and a single bush will produce a great quantity of fruit. We have the genuine Wonderberry seed to offer as follows:

Pkt. 6c.; 3 pkts. 15c.; 6 pkts. 25c.

EGYPTIAN WHEAT CORN—A Great Novelty from India.

This is a non-saccharine Sorghum cultivated very extensively in India and recently brought to this country and found to yield very valuable crops. As a grain it is much more valuable than Kaffir Corn as it yields a larger amount of seed. It is of stolting habit, producing from three to six stalks from a single grain. The heads grow similar to Broon Corn, forming large heads of round, plum-shaped seed. It is an excellent feed for horses and cattle, and for chicken feed it is simply unexcelled, and when ground makes excellent flour for pancakes; besides it can be popped as pop corn, as it has a surprisingly good flavor very tender and crisp. It is more of a grain crop than forage, forming double the seed of Kaffir Corn and more than any Cane or Sorghum plant that we know of. In India this grain is grown under the name of "Egyptian Wheat" and in this country is also known under the name of "California Rice Corn," "California Wheat," and "Egyptian Wheat". We have grown this interesting corn and can highly recommend it and hope all our customers will try it this year. Pkt. 6c.; 3 pkts. 10c.; 10 pkts. 20c., postpaid.

GROUND ALMONDS

This is a very choice Nut of fine flavor, resembling the Coconut or Almond. Very appropriate on the table with cakes or used as an after dinner relish. The meat is snow-white, covered with a thin shell of skin of brown color. It grows in the ground as shown, close to the surface producing an abundance of handsome green foliage resembling wide blades of grass, and is very prolific, a single nut yielding from 200 to 300 nuts in a hill and will do well in any kind of soil. If the nuts are planted in the spring the same as potatoes a big crop can be expected about potato harvest time. If there are only a few things in our catalogue you can use, be sure to order the Ground Almonds as one. They grow so rapidly and produce such immense quantities that you will be surprised as well as your neighbors when you show them what you have.

Pkt. 6c.; 3 pkts. 15c.; 6 pkts. 25c.; 15 pkts. 50c.

NEW LONG STRING RADISH

This is a new sort of Japanese Radish, the seed of which we have imported especially for our customers. The peculiarities of this variety is to grow over three feet long, while the circumference is from two to three inches. In Japan it is used for many purposes and is esteemed very highly for pickling. Be sure and try this very strange and curious radish.

Pkt. 8c.; 3 pkts. 20c.
THESE MAMMOTH FRUITED GROUND CHERRIES are by far the most prolific of all, besides the fruit is about double the size to that of any other variety, some of them measuring from 1½ to 2 inches in diameter, of a dark purplish-red color, and having a very sweet and rich flavor. They have been found superior to any other Ground Cherry or Husk Tomato for preserving purposes, and the flavor is sweet and delicious. The plants grow about 2½ feet high, about the same in width and are heavy bearers of fruit in any ordinary garden soil. The fruit when picked with the husk on is a splendid keeper, remaining in good condition for several weeks if kept in a cool place. They are a very early fruit to grow in any garden, and the greatest producer of fruit of anything we know of. Try them. Pkt. 50c., 1 oz. 1.25, ½ lb. 2.50.

THE STRAWBERRY GUAVA— blooms and fruits continuously and is a magnificent new pot plant, both useful and ornamental as well as of great value. The fruit is of beautiful claret color, about the size of an English walnut and the flavor is sweet and delicious, somewhat resembling that of a strawberry. It blooms and fruits continuously and when plants are well established they produce their flower buds for 6 months or longer in the fall. It can be used as a dessert fruit as well as for preserving. It also makes a very excellent and delicious jelly which will sell readily at a high price. As many as 500 fruits have been produced on a plant a year and a half old. It can be grown in pots, boxes or in the open ground, and we are sure will be a real surprise and delight to all who grow it. Do not fail to include Strawberry Guava in your order this year. Pkt. 50c. 1 oz. 1.25, ½ lb. 2.50.

EVERBEARING STRAWBERRY
You can Grow it From Seed!
Here is an Everbearing Strawberry that grows freely from seed and will fruit the first summer. The seed can be sown early in the spring in the house or hot bed and will soon produce young plants. seed can be sown later in open garden if desired. The plants grow very fast and in a short time will be large enough to transplant in the garden. If the seed is sown in March the plants will begin to bloom early in July, and in from two to three weeks will begin to bear ripe fruit.

The valuable point about this New Berry is that from the time the first ripe fruit appears they continue to fruit until late in the fall. The berries are not quite as large as the garden varieties, but they are much higher flavored and of excellent quality. They are enormous, single plants having produced nearly a half pint of Berries at one picking as late as October. They are perfectly hardy and will grow anywhere by starting from the seed. We all our customers are very much interested in this New Berry, and people in the city, or others, who are limited for space can grow the plants in pots, boxes, or anywhere convenient and it will even fruit in the winter from plants raised in the house.

Mrs. A. L. MEADE, Geauga Co., Ohio, Oct. 5, 1899, writes: "I sored one packet seed and get 30 plants, was in blossom July 20, opened in Aug. September and now have ripe fruit, green berries, and blossoms. They are a great curiosity." Seed per pkt. 50c. 1 oz. 1.25, ½ lb. 2.50.
The Strawberry Raspberry is a beautiful fruit from Japan. The bush grows from 1½ to 2 feet high and is entirely hardy and a rapid grower. The berries are produced on stems above the foliage, always of a bright, shining scarlet, and larger than the largest strawberries. It is an immense yelder, producing abundance of fruit and bears the first season and gets stronger each year. It continues to bear fruit until very late in the fall and is really one of the most beautiful berries ever grown. We know it will surprise and please you. Plants may be started from sec-j which we offer, all selected from large fruit.

Packet, 8c.; 3 packets, 20c.

The Lemonade Plant of Queensland is a plant that will soon be very popular as it has great value and should be cultivated very extensively. It is used mostly for making jelly and jam, many claiming it superior to Current or Guava jelly. It is cultivated very largely in Australia and shipped as jelly, etc. to all parts of Europe. The fruit resembles Scarlet Pimpernel and is very ornamental, easily grown from seed, and resists drought. It is easy to raise and the fruit requires no cleaning or other labor after picking.

It is a very worthy addition to your garden and you will find it one of the best and cheapest fruits for preserving. Do not fail to try this novelty.

Packet, 10c.; 5 packets, 25c.

The Baby Rose is a Wonderful Rose. It will produce semi-double and double flowers from 2 to 3 months after sowing the seed. Long before that however, when the plant is not over 1½ inches high, and having two or three very small leaves, it will throw out from 1 to 3 single flowers about the size of strawberry blossoms, but much more delicate, and very attractive as it plainly shows the true rose bush type. With the increase in size of the plant, the blossoms increase until it is a magnificent sight. It is a hardy hybrid perpetual, overblooming Rose, sure to be in bloom from spring until winter. The seed is mixed and from one packet of seed you will get Pink, Crimson, White, and various shades. Pkt., 3 seeds; 25c.; 6 pkts., 30c.

**Everblooming Crimson Rambler Rose.** (See Colored Plate)

When considering the popularity of roses, most everyone is aware that the old **Crimson Rambler** has made a record unequalled by any other rose. It is found in almost every flower garden, as it is perfectly hardy in all parts of the country, and there appears to be something lacking in the appearance of the well-kept residence if it is not found trailing its way displaying its clusters of beautiful crimson flowers about the veranda.

Now we have to offer the "**EVERBLOOMING CRIMSON RAMBLER**" as a glorious improvement. It is the old **Crimson Rambler** in growth and flowers, but it is an everbloomer, blooming continually all the season. It is a vigorous grower, making shoots 10 to 20 feet in height in a single season, and when in bloom is greatly admired for the gorgeous display of its brilliant, crimson clusters of blossoms, each cluster a bouquet in itself. Upwards of 15,000 blossoms have been produced by a single plant. It is perfectly hardy and succeeds everywhere, producing its great abundance of bloom from June until fall, making it the **CHARGING EVERBLOOMING CLIMBING ROSE** ever offered. It is a magnificent novelty. Do not fail to order plants of this grand Rose. Price, 15c. each, 3 for 35c., 7 for $1.00, postpaid.

**OLD CRIMSON RAMBLER**—Everybody knows this rose. It's just like the "Ever-blooming" except it does not bloom only about 3 to 5 weeks each year. We have good stock to offer. Price, 10c. each, 3 for 25c., postpaid.

**THOUSAND BEAUTIES**—(See Colored Plate)—This beautiful novelty surpasses all other climbing Roses, both in growth, foliage and beauty of bloom on account of the great combination of colors. Blooms profusely from June to end of July and the colors run through different shades; pink, rose, carmine, with various tints of crimson, white, etc. Imagine a Rose producing on the same bush so many different colored flowers; borne in clusters, 15 to 20 in one truss! Impossible to describe or even picture the colors. A single cluster of flowers is a bouquet in itself; hence its name, "Thousand Beauties." It is hardy, a strong vigorous grower; nearly thornless, and a grand rose for porches, trellises, etc. The colored engraving does not do this beautiful rose justice. It's a beauty. Price, 15c. each, 3 for 35c., postpaid.

**CRIMSON BABY RAMBLER**—(See Colored Plate)—This is decidedly the grandest rose novelty introduced in recent years, and a seedling of the well-known **Crimson Rambler** with which it is identical in all but habit of growth and blooming, being a pronounced dwarf, very quickly reaching a mature height of eighteen inches to two feet which it rarely exceeds; as a bedding or border plant it is incomparable; a superb, rich, crimson in color, blooming in immense clusters as its parent, the **Crimson Rambler**. The baby Rambler is, in addition, a more continuous bloomer than the tender Tea Rose, bearing its wealth of flowers from early spring until frost. Grown as pot plant it's always in bloom. 15c. each, 3 for 45c., postpaid.

**$2 Per Pink and White Baby Rambler Roses see page 45.**
OUR GREAT DROUGHTPROOF POTATO

- SEE DESCRIPTION AND PRICES NEXT PAGE -
THE GREAT MAPLE LEAF POTATO

Here is a magnificent second early and maincrop Potato, which comes from the cold North. It is a Potato that stands at the head in the matter of quality. You may test it with any other variety, early, second early or late, and you will find that the Maple Leaf possesses a flavor particularly its own and very superior.

This new Potato comes from Northwest Canada and is a real Western gem. We secured planting stock direct from headquarters and on account of the extreme Northern location we were unable to get the planting stock shipped until the last of April, the thermometer having been below zero up to that time. For a second early we believe that it will give our customers the very best satisfaction. The Maple Leaf is a beautiful white oval potato with very shallow eyes and white flesh. It is a heavy yielder and a great keeper, and with care they will keep good up to the following August. The originator is a Potato enthusiast and from boyhood has been after the best potatoes, hunting all parts of the world for good new sorts, and says the Maple Leaf is a seedling of his own raising, and he claims he has failed to find a better one in the world.

We were greatly impressed with the appearance of this Potato when samples were sent us for trial, and we know every customer, whether he be a farmer, market gardener or private gardener, will be pleased with it. A hill of these Potatoes is shown on the front cover of this Catalogue. Our stock is somewhat limited and we advise as early orders as possible. It is not uncommon for 25 eyes to yield two bushels of Potatoes. This is the proper way to get started and we offer them at the following prices: Good, strong Eyes, carefully packed, 25 for 40c., 50 for 75c., 100 for $1.25, postpaid.

GREAT DROUGHT PROOF POTATO

We introduced this Potato last season, and after carefully testing and receiving many recommendations from those who grew it, we know that it is the coming great market potato. It is a very handsome variety, both in shape and appearance, and the engraving on the opposite page gives an excellent idea of it. It grows to a good size and there is a less per cent of small Potatoes in a crop than any Potato we have ever grown. The Tubers grow compactly in the hill, eyes are shallow, skin white; is fine grained, cooks dry and mealy and cannot be excelled for quality. This is the case when first dug and they retain their excellent cooking qualities and keep sound and perfect until the new crop comes, being superior to other late Potatoes for long keeping qualities. It has proved drought and blight proof and is an enormous yielder and we want every person who grows Potatoes, whether a few hills in the garden for family use or acres for market, to try this Potato this year. A cheap way to get a good start is to order a quantity of Potato Eyes, and as we make this branch a specialty, we can supply you with instructions how to keep and plant them, and we make the prices very low this year. Prices—Good strong Eyes, carefully packed to go anywhere in the United States, 25 for 30c., 50 for 55c., 100 for $1.00, 250 for $2.50, 500 for $4.00, postpaid, Selected whole Tubers, lb., 30c., bu., 75c., postpaid. By express or freight, not prepaid, pk., 60c., 1 bu., $1.00; bu., $1.75.

IONIA SEEDLING POTATO

The Ionia Seedling Potato is highly recommended by all who have grown it. It is round to oblong in shape, slightly russet skin, pure white flesh of the very best quality, foliage extremely healthy and intermediate in the point of ripening. Report of 250 to 400 bushels per acre is given, and it is not uncommon for 300 bushels per acre being reported for an entire crop. It is claimed this potato has for the past three years outyielded all the other sorts on the Edin- trial grounds in Massachusetts, and there has been over 100 varieties tested alongside. We would like to have our customers try it.

Prices—Good, strong eyes, carefully packed, 25 for 30c., 50 for 55c., 100 for $1.00, 250 for $2.45, 500 for $4.00, delivered postpaid. Selected whole tubers, lb. 30c., 8 lbs., 75c., postpaid. By express or freight, not prepaid, pk., $1.00.

EARLY SIX WEEKS POTATO

The Early Six Weeks Potato is one of the earliest in America. It is a good yielder and an excellent variety for the early gardener. Produces good sized, round or oblong smooth tubers. Market gardeners and all others will find this a splendid early sort. This variety is planted by more people who want a few very early potatoes than any other variety in existence. They grow very rapidly and mature so early that they are highly prized and greatly appreciated by all who grow them. Good Eyes, 25 for 30c., 50 for 55c., 100 for $1.00, postpaid. Whole Tubers, lb., 30c., 8 lbs., 75c., postpaid. By express or freight, not prepaid, pk., 75c., 1 bu., $1.25, bu., $2.

EARLY FORTUNE POTATO

ONE OF OUR INTRODUCTIONS

This great Potato was introduced in 1893 and has gained a worldwide reputation. We are growing the varieties of this Potato mentioned annually from our customers who grow this Potato and we are sure that we cannot recommend it too highly. It is one of the very handsomest, earliest and best potatoes to culture. It is one of the strong growers among early varieties, perfect in shape, of the Rose type, and resists drought and blight remarkably and is enormously productive. If you have not already given this famous Potato a trial you should do so this year, as we know you will be more pleased.

We introduced Early Fortune and have the best stock in the country to offer this year.

Good Eyes, 25 for 25c., 50 for 45c., 100 for 80c., postpaid. Whole Tubers, lb., 30c., 8 lbs., 75c., postpaid. By freight or express, not prepaid, pk., 60c., 1 bu., $1.35, bu., $2.90.
MILLS' FIRST CHOICE POTATO

Here is a splendid early variety possessing all the good qualities to be found in an early potato, and at the same time enormously productive, producing a larger per cent of large tubers in a crop than any other early variety we know of. They always grow, clean and free from prongs. Tubers grow compactly in the hill, eyes are shallow, very fine grained, cooks dry and mealy even when first dug: grown by the side of other early sorts they produced one-third more and matured at least a week before the very earliest varieties. Not half enough can be said in favor of this grand Early Potato, and we want our customers to give it a trial even if only a few plants. In the North, South, East and West this new Early Potato will surely take the lead and make more dollars for the grower than any other early variety.

PRICES—Potato Eyes, carefully cut and packed. 25 for 30c.; 50 for 55c.; 100 for $1.00, postpaid. Whole potatoes 1 lb.; 50c.; 3 lbs. for $1.00, postpaid. By express or freight, not prepaid. pk.; 50c.; ½ bu., 80c.; bu., $1.50.

MONEY MAKER Choice Potato

This is a splendid main crop potato and highly recommended by all who have grown it. The tubers are large, of good shape, slightly flattened, pure white in color, with extremely strong eyes near the surface andbs a good eating quality. For all sections in the United States where long white potatoes are in demand, the Money Maker is the potato to plant. We believe it is much superior to such old varieties as White Star, Burbank, Empire State, which has in the past been excellent varieties to grow for market, but we now believe Money Maker will take their place and give splendid crops.

We have a good crop of Money Makers on hand and would like to have our customers give them a trial, if no more than in a small way, All growers who have seen crops of Money Makers are greatly pleased with them.

PRICES—Potato Eyes carefully cut and packed, 25 for 35c., 50 for 45c., 100 for 85c., postpaid. Whole potatoes 1 lb.; 25c.; 3 lbs. 60c., postpaid. By Express or Freight, not prepaid, pk., 50c.; ½ bu., 80c.; bu., $1.50.

ALL THE SEASON

NEW POTATO ALL THE SEASON

All the Season Potato is one of the most valuable varieties we have ever offered. When planted early in the spring they produce fine large smooth potatoes that in quality and productivity far surpass the best early sorts on the market. This great potato can be grown for an early, medium or late crop. This feature alone is of vast importance as most all early or medium varieties are not so productive as the late sorts. However, this is not the case with All the Season as they always produce from 8 to 10 large smooth perfect shaped tubers to the hill. This Potato is a strong vigorous grower, resists blight and drought remarkably and its growth is not retarded by potato bugs like other varieties on account of the great mass of strong healthy vines it produces. As will be seen by the illustration it is a most perfect and desirable shaped potato. The skin is smooth and white, the eyes are shallow and it is an splendid keeper and cannot be equalled for superior cooking and eating qualities. It is by far the most valuable and greatest all purpose potato we have ever introduced, and it makes no difference whether you want to raise a few hills in your garden or a large field for market you will find this is the potato you will want to grow. We earnestly urge every customer to give this great potato a trial this year. Even if you order only a few eyes to plant in your garden, it will give you a start in this Great Potato.

PRICES—25 Eyes 30c.; 50 for 55c.; 100 for $1.00, 300 for $3.75; 500 for $4.50, postpaid. Whole tubers, 25c.; 3 pounds 60c., postpaid. By express, pk., $1.00.

It is nothing uncommon for 25 eyes to produce 100 pounds of large fine potatoes, and we claim there is no way that our customers can get a start in our potatoes so cheap as starting with Potato Eyes, which we supply carefully cut and packed, by Mail or Express, postage or express paid. Try some of them this year.
The Leading Incubator Offer for the Spring of 1910

Thousands of these Outfits are in use in all parts of the world and they have proved so reliable and satisfactory that we want every one of our customers interested in raising poultry to have one. We have had a large number of these Outfits built in order to make this liberal offer to our customers this season, as we fully realize that everyone purchasing an Incubator or Brooder wants the best that can be obtained at a reasonable price. Every machine is carefully searched for before leaving the factory, and is furnished complete, with full directions for operating, together with our binding guarantee of perfect satisfaction or money refunded. If you ever expect to purchase an Incubator do not fail to take advantage of this Coupon Offer. It will save you $2.00 on your purchase and many times this amount in hatching and raising your chickens.

"Early Bird" Brooder

This machine is built of selected kiln-dried lumber. It is operated with overhead heat applied to the chicks by radiation, always keeping them in good healthy condition. This Brooder is furnished with one of the surest, safest, and best systems of ventilation, which makes it the most reliable chicken nursery on the market. Thousands of these machines are in use everywhere and are giving the greatest of satisfaction. We know that the working qualities cannot be equalled. The "Early Bird" Brooder is a companion machine to the "Early Bird" Incubator. Shipping weight, 55 egg capacity, 25 lbs., price, $5.75; 100 egg capacity, 55 lbs., price, $4.50.

36 Sakurajima Radish—From Japan, the largest variety in existence. (See Page 32.)

New Long String Radish—A Japanese Radish, grows 3 ft. in length. (See Page 32.)

**Early Bird**

This new Radish we believe is one of the earliest Scarlet Globe Radishes grown. The shape is regular, of a rich scarlet color, very tender, crisp and delicious, never becoming hollow or pithy. It is very desirable for forcing, being fit to pull in less time from sowing than any other turnip variety. It is also valuable for outdoor planting for spring or autumn. We know of no vegetable that will pay the market gardener better than Early Bird Radish and it is equally as desirable for every kitchen garden. Sow this variety and have the first radishes in your neighborhood.

Pkt. 5c.; 8 pkrts., 15c.; oz., 15c.; lb., 35c.

**French Breakfast**—This is an early, bright scarlet; tender, crisp and an excellent variety for forcing in frames for early market. It is one of the quickest growing and its beautiful rose scarlet color, with white tip, recommends it everywhere. It is the standard early variety in the French market; grows in all climates and is very attractive.

Pkt. 5c.; 3 pkrts., 8c.; oz., 10c.; lb., 20c.; ½ lb., 35c.

**Early Scarlet Globe**—This is a splendid forcing Radish and is considered one of the earliest Scarlet Globe Radishes in cultivation. It is a beautiful oval shape, rich scarlet color, flesh is very tender, crisp and mild, and while it is a leading variety for forcing it is equally as good for outdoor culture.

Pkt. 5c.; 5 pkrts., 8c.; oz., 10c.; lb., 20c.; ½ lb., 35c.

**Early Scarlet Turnip-White Tipped**—This Radish is sure to please all who grow it. It presents a beautiful appearance in the market and is very popular. It is valuable for forcing under glass. The skin is very smooth, flavor excellent, tender, crisp and mild.

Pkt. 5c.; 3 pkrts., 8c.; oz., 10c.; lb., 20c.; ½ lb., 35c.; ½ lb., 60c.

**Early White Turnip**—A grand summer variety; turnip shaped with small tops and of quick growth; crisp and tender, skin pure white.

Pkt. 5c.; 3 pkrts., 8c.; oz., 10c.; lb., 20c.; ½ lb., 35c.; ½ lb., 60c.

**Crimson Giant**

This is a new early turnip-shaped Radish but double the size of other varieties of that type, often measuring 4 to 7 inches in circumference. Notwithstanding its large size it has an excellent flavor, mild and crisp and has not the hollow or pithy center, while it is equally suitable for forcing or planting in the open ground as varieties developing to only half its size. It is a rapid growing sort with handsome, crimson colored roots and the flesh is crisp and mild.

Pkt., 5c.; 3 pkrts., 10c.; oz., 15c.; ½ lb., 35c.

**New Leafless**—This is quite a novelty and certainly is an excellent variety of Radishes. It was named Leafless from the fact that its leafy in developing the foliage is more noticeable than any other variety. The color of this new Radish is a very bright scarlet. The flesh is white, crisp and tender, and of the best flavor. The illustration gives the shape of the Radishes. On account of producing but few leaves, the strength of growth is all thrown into the roots surpassing other varieties in this respect. Seed of the Leafless Radish is scarce it being a shy seeder.

Pkt. 5c.; 3 pkrts., 10c.; oz., 15c.; ½ lb., 35c.
NEW OAK LEAVED—We offer this new radish this year for the first time. It is a turnip-shaped medium size sort, with an extremely handsome rose-salmon color that puts it in a class by itself as far as color is concerned. It is a quick growing kind and cannot be too highly recommended for general cultivation. The flesh is pure white, of good mild flavor and very crisp; is a distinct variety and we are sure will give universal satisfaction. Pkt., 5c.; 3 pkts., 15c.; oz., 20c.; 2 oz., 35c.

LONG SCARLET SHORT TOP—This is without doubt the best long red Radish. It is very early and the leading outdoor quick-growing variety; crisp and tender and the roots are a bright red color. Pkt., 5c.; 3 pkts., 10c.; 10c. lb., 20c. lb., 30c.

BRIGHT SCARLET, NEW LONG CARDINAL—Fit for use in about 25 days from sowing, a bright red in color with a white tip; is crisp, tender and very profitable for market gardening. Pkt., 5c.; 3 pkts., 8c.; oz., 10c. lb., 20c.

NEW WHITE LADY FINGER—This is one of the finest long white Radishes in cultivation; is of very rapid growth and remarkably tender, crisp and brittle. It is a great favorite with many and is sure to please all who grow it. Pkt., 8c.; 3 pkts., 8c.; oz., 10c.; 16 lb., 50c.

CHARTERS OR SHEPHERD—A long smooth Radish, red above ground and shading to a clear white at the tip large but both brittle and tender; good for all seasons. Pkt., 5c.; 3 pkts., 8c.; oz., 10c.; 16 lb., 20c.; 16 lb., 50c.

WHITE STRASBURG—This is a white Radish of large size, excellent for summer planting, resists the severe heat and will grow solid with good flavor when other kinds fail. Pkt., 5c.; 3 pkts., 8c.; oz., 10c.; 16 lb., 20c.

ROSE CHINA WINTER— Scarlet China]]—A bright rose colored winter variety of excellent quality. Pkt., 5c.; 3 pkts., 8c.; oz., 10c.; 16 lb., 50c.

SCARLET OR ROSE-OLIVE SHAPED—This is a very quick growing radish of an attractive carmine color, some roots of a rose shade with an olive shape, making a very attractive appearance. It is of very mild flavor and the flesh very crisp. They grow very uniform in size and the illustration, drawn from nature, gives its true shape. It is a very attractive radish when bunched for sale. Pkt., 5c.; 3 pkts., 8c.; oz., 10c.; 16 lb., 25c.; 16 lb., 50c.

CALIFORNIA MAMMOTH WHITE WINTER—Grows to a larger size than any other White Winter Radish. We have grown specimens measuring 7 inches in diameter and about 18 inches in length, weighing 3 pounds. It is the only American radish growing in this immense size and still retaining a mild, pleasant flavor and solid all through. We have known of our customers taking such specimens from the ground late in the fall and storing in the cellar as you would turnips, and having a supply of radish until late in the winter. It is an excellent table variety, giving entire satisfaction on account of having a mild and very pleasant flavor at any stage of its growth. Whether 2 or 3 inches in diameter its flavor and fineness of grain is the same. Pkt., 5c.; 3 pkts., 8c.; oz., 10c.; 16 lb., 20c.; 16 lb., 50c.

ICICLE—This is a long, extra early variety with color of snow white. It is crisp and brittle and of an excellent mild flavor, many claiming that it has a better flavor than the scarlet varieties. It has the same mild flavor at all stages of its growth and is the most popular of any of the white sorts. It is a short top variety, having few leaves and the roots are very uniform in size. Pkt., 5c.; 3 pkts., 10c.; oz., 12c.; 16 lb., 35c.

California Mammoth White Winter Radish.

Burbank's Crimson Winter Rhubarb

Burbank's Crimson Winter Rhubarb is one of the greatest and most valuable Novelties we have ever offered. It is the earliest of all Rubarb, and fit for use, not only in the spring, but all through the summer and fall, while common sorts are fit to use only a few weeks in spring. As fast as stalks are pulled new ones take their place, and in the south or Pacific states it may be used all year, requiring only water in dry localities to keep it growing. Stalks are of medium size, of good length, about one inch in diameter, of beautiful crimson color, the quality being simply superb, fully equal to the finest berries for flavor and quality and is really a combination of fruit and vegetable. The skin is so thin and tender it is not necessary to remove it and when cooked a beautiful crimson sauce is the result, looking and tasting like berries. It is especially adapted for forcing in greenhouses or cold frames. It will stand frosts which will destroy any other sort. Rhubarb is the first vegetable we have in the garden in spring and it is the easiest plant of all the perennials to grow. A half dozen plants will supply a large family during the season, and plants once established will last for years. We offer good seed grown especially for us from true stock and urge ever customer to start a few plants this year. Pkt., 8c.; 3 pkts 30c.; 6 pkts, 50c.
MAMMOTH WARTED HUBBARD—This is a special strain of the Hubbard Squash, noted for its enormous size. It sells well in any market no matter what competition. It is equal in every respect to the Improved Hubbard and we can highly recommend it to all those who are fond of extra large Squashes. Pkt., 10c.; oz., 6c., 12c.

COCOZELLE BUSH—This is an early Squash, very prolific and has given us the greatest satisfaction. Following is what the originator says: "The point in favor of this Squash is its earliness, it is much easier to cultivate than a timer; if picked as soon as matured it will continue bearing until killed by frost. It is exceedingly hardy, persistently living in dry soil without water. When watered it grows and matures a big crop. It grows just the same as the ordinary summer squash, requires the same kind of soil and tillage and begins to bear early. It is used in the green state and is better than egg plant when nicely fried in butter and well seasoned. It makes an excellent stew."

We are very glad that we can offer this new squash to our customers and can recommend it highly. We regret the seed we have is not sufficient to offer larger quantities than as follows: Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

ITALIAN—This Squash is similar to the Cocozelle, except that it only grows to half the size and never exceeds 8 inches in length. When steamed it is as delicious as the Marrow squash, and when fried as Egg Plant is equal to it. It is not better than Egg Plant itself. On account of its size and attractive appearance it sells well on the market. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

It is claimed, with good proof, that this squash is not equalled by any other in its good qualities. Every one that has grown it can testify to its fine meat of rich, dry, and its exceedingly rich flavor. It has a very small seed capacity, solid flesh and is an unusually good keeper. It grows to weight from five to ten pounds and has been known to keep in good condition through the winter and up to April 10th. We are sure this squash will be highly appreciated by every one that grows it and we recommend it for your garden.

SQUASHES

IMPROVED HUBBARD—This is the well-known variety and planted by more people than any other sort grown and has become the American Favorite. There is always a ready market in the large cities for this favorite sort; it sells well at all the city and country stores. We have taken particular pains in selecting our strain and we believe our Improved Hubbard is the choicest type of Hubbard Squash grown. The flesh is a rich yellow in color, very fine grained, solid, sweet and dry. This Improved strain nearly always is true in color, being a dark green. We offer another strain known as Red Hubbard and Mammoth Warted Hubbard; both of which are of excellent quality. We can highly recommend our Improved Hubbard seed to all and have a choice supply of seed to offer at the following prices: Pkt., 6c.; 3 pkts., 10c.; oz., 10c.; 1/2 lb., 60c.; lb., $1.00.

GOLDEN HUBBARD—This is another strain of the well-known Improved Hubbard which produces Squashes of a deep orange yellow color, exceedingly showy and attractive, while the quality is equal to Improved Hubbard in every respect. Pkt., 6c.; 3 pkts., 10c.; oz., 15c.

This Summer Squash is so well known that it does not require much description. It is still the most desirable early summer variety. The outer skin is very rough and of a light orange yellow color.

Pkt., 6c.; 3 pkts., 8c.; oz., 10c.; 1/2 lb., 25c.

A new Squash from France, often growing over three feet in length, having a dark slate color and specimens have been grown to weigh over 100 pounds. The flesh is solid, of a beautiful orange color, of excellent quality and a remarkable keeper, very slippery seed. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

BOSTON MARROW—A good fall variety, both skin and flesh a bright yellow color. Pkt., 6c.; 3 pkts., 8c.; oz., 10c.; 1/2 lb., 25c.

IMPROVED MARBLEHEAD—This is an excellent keeper, very good quality, fine grained and good flavor. Pkt., 6c.; 3 pkts., 8c.; oz., 10c.; 1/2 lb., 25c.

ESSEX HYBRID—A rich flavored fine-grained sort, very productive and a good keeper. Pkt., 6c.; 3 pkts., 8c.; oz., 10c.; 1/2 lb., 25c.

MAMMOTH EARLY WHITE BUSH SCALLOPED—It is pure white in color, largely grown for first early table quality, is excellent, very productive. Pkt., 6c.; 3 pkts., 8c.; oz., 10c.; 1/2 lb., 25c.
Golden Custard

This is a standard early summer variety and is much larger than any of the other curled sorts, frequently growing two feet in diameter. The habit of growth is upright, regular, bushy form; fruit has a wonderful, very flat, nicely scalloped, a dark flesh, golden yellow, flesh, pale yellow and finely flavored. Pkt., 5c.; 3 pkts., 10c.; oz., 15c.; lb., 30c.

Our Squash Mixture

Many desire to raise all the different varieties and we have therefore included in this mixture the all the early and late sorts which will produce Squashes of all the shapes, colors and sizes imaginable and is a profitable collection to grow by all those who have a limited space. Pkt., 5c.; 3 pkts., 10c.; oz., 2 ozs., 15c.

Grow this GREAT WONDER among Squashes. Nothing on earth can equal it.

Often Weighs from 150 to 200 Pounds.

Parsley

CHAMPION MOSS CURLER—Produce crinkled and curled leaves, a choice selected strain. Pkt., 5c.; 3 pkts., 9c.; oz., 10c.; ½ lb., 25c.

HENDERSON’S EMERALD—Beautifully curled and crinkled, of a beautiful emerald green in color. Pkt., 5c.; 3 pkts., 9c.; oz., 10c.; ½ lb., 25c.

POT, SWEET AND MEDICINAL HERB SEED

No garden is complete without a few sweet, aromatic Herbs for medicinal purposes. Sow in spring in shallow drills one foot apart and when well up thin out or transplant to a prepared bed. Those marked (*) are perennial, and when once obtained in the garden, may be preserved for years.

**OREOHOUD—Has Medicinal Qualities.**
**SUMMER SAVORY—For seasoning.**
**SWEET FENNEL—Seeds Aromatic.**
**SWEET BASIL—Culinary Herb.**
**SWEET MAJORAM—For Seasoning.**
**WORMWOOD—Has Medicinal Qualities.**
**YELLO—Has Medicinal Qualities.**
**CORIANDER—Seeds Aromatic.**
**CARAWAY—Seeds Aromatic.**
**LAVENDER—Very fragrant.**
**ROSEMARY—Very fragrant.**
**ANISE—Seeds Aromatic.**
**DILL—Seeds Aromatic.**
**SAGE—Culinary Herb.**
**THYME—For Seasoning.**

Price, 5c. per pkt., for any of the above, 3 pkts., 10c.

Salsify or Vegetable Oyster.

MAMMOTH SANDWICH ISLAND—The best variety grown: of large size fully double the size of other sorts. Leading variety among gardeners. Delicious flavor. Per pkt., 5c.; 3 pkts., 10c.; oz., 1½ lb., 25c.

Squashes. The Jumbo of the Squash Family. Largest of all Squashes. It is a perfect wonder. This Giant Squash has become a great curiosity as well as very valuable wherever grown. As shown by the illustration it is hardy in shape, the color being a bright yellow. Skin very smooth, flesh quite thick, while the quality is good. It is a very prolific variety and excellent to grow for exhibition at fair, specimens often weighing over 250 pounds each. It is a good winter keeper and we advise everyone who can plant a few hills to grow some of these Giants. Any person who wants to have the wonder of their neighborhood should plant a packet of this seed. There is nothing that can come anywhere near equaling it in size, except Mills’ Giant Pumpkins. Per pkt., 6c.; 3 pkts., 15c.

MAMMOTH PEANUTS

Peanuts can be successfully grown in almost any place where corn succeeds. This variety contains carilons and large size, is also very prolific as is shown by the engraving from photo. Every part is useful: the vines as valuable feed for horses, cattle and sheep; the pods containing one to two tons of vines per acre, while the nuts contain a large percent of rich nourishment. They do best on a light sandy soil; but will produce a good crop on any open soil when it is shallow and carefully tilled. Plant them in rows 2½ to 3 feet apart from 9 to 12 inches in the row with about 3 inches of dirt. If you grow a crop of peanuts you will also find that your soil has been benefited nearly as much as if planted in clover. We encourage everyone to try a crop of peanuts if only grown for home use. Pkt., 5c.; 3 pkts., 10c.; oz., 15c.; lb., 30c.; 2 lbs., 60c., postpaid.
We make Tomatoes a specialty and our list will be found to contain the best varieties in cultivation. We have introduced several new varieties which are giving great satisfaction.

**Mills' Early Wonder Tomato**—(See Colored Plate Page)—This is the great Tomatoes introduced three years ago and we have been able to secure it from every section where it has been grown. It has made a wonderful record everywhere. It is handsome in shape as will be seen by the colored plate: very smooth, thick from stem to blossoms, very solid and heavy. It is free from cracks or ridges, the meat is sold with only a few seeds. It is a beautiful dark red in color, producing its fruit in large clusters, and taking into consideration all points it is the most perfect Early Tomato we have ever grown. Not only is it perfect in form and quality, but it is a perfect wonder for earliness producing large handsome red fruit ahead of any other variety we have grown. The vines grow strong, are very hard, making it desirable for early planting. Not half enough can be said in favor of this great Early Tomato and we want our customers to grow it this year. Do not forget to see Colored Plate. Pkt. 6c.; 3 pkts., 15c.; 6 pkts., 25c., 1-2 oz., 60c., oz., $1.00.

**Mills' Mammoth Prize Tomato**—(See colored plate page)—This is one of the largest Tomatoes grown. We introduced it several years ago and it has given great satisfaction everywhere. It possesses every good quality to be found in a Tomato. The vines are strong and vigorous and when properly trained will easily attain the height of fifteen feet and carry an enormous weight of fruit. Its massive fruits are almost perfect in form as shown by the colored plate of catalogues and it is free from ridges as to seem nearly as smooth as glass, and as to size, weight and solidity no other Mammoth Tomato can approach it. We have seen specimens of this Tomato such as we have grown of late exceed in size the largest Mammoth Tomatoes that weighed 3½ pounds and specimens weighing 2 and 3 pounds each are a common occurrence. The fruit is exceedingly firm and a marked peculiarity of this variety is that it is almost seedless. This makes the seed cost much more to grow than any other variety. If started early the fruit will ripen from July until killed by frost. There is no garden complete without this Mammoth Tomato.

CAUTION.—There are the short growing bush Tomatoes called Tree Tomatoes, and the long growing called Tree Tomatoes, but if you want the true Mammoth Prize, order your seed of us and you will not be disappointed. We have the genuine stock which will produce mammott fruits as shown on Colored plate Page, at the following prices: Pkt. 6c.; 3 pkts., 15c.; 6 pkts., 25c.

**THE TOMATO GRAPE**

**Fruits in Four Months From Seed.**

This most delicious and handsome Tomato is one of the prettiest in cultivation. The fruit is of uniform size and resembles a peach in shape, size and color, which is a deep rose, beautifully blended and covered with a delicate bloom or fuzzy like a peach. It is excellent for eating from the hand, the flesh being of a rich and most delicious flavor while the skin is very thin and can be peeled off like that of a peach. The whole fruit is tender and firm, and free from core, even around the stem. It is such a handsome tomato that no illustration will do it justice and we are sure a few plants will be a real delight and surprise growing in any garden. If you want to surprise your neighbors, have a few Peach Tomatoes growing in your garden this year. Pkt. 5c.; 3 pkts., 15c.; 6 pkts., 25c.

**MILLS' GIANT PRIZE**—This is without question the largest climbing variety ever introduced. It has been grown for many years and we find it always produces an abundance of handsome fruit that will astonish anyone. It is a handsome red in color, very solid and only a few seeds in each fruit. A few seeds, and free from rot. If the seed is planted early the fruit will ripen from July until killed by frost. It is an enormous variety and not to be confused with any other Mammoth Tomato. Order some seed and see what can be done. You will be sure of a large crop of Tomatoes. Pkt. 6c.; 3 pkts., 15c.

**MILLS' EARLY JULY TOMATO**

This is a splendid early variety we have made quite a specialty of for several years. Its great value lies not only in the time of ripening its first fruit, but that such a quantity of fruit can be gathered from a single plant while many other early varieties ripen only a few fruits. They are perfectly smooth, large sized, and very firm, and the color being a bright red. They grow in large clusters, which ripen from July until killed by frost and command the highest market price. It deserves a place in every garden and we can highly recommend it. Pkt. 5c.; 3 pkts., 15c.; 6 pkts., 25c.

**MANSFIELD TREE TOMATO**

This is a very handsome, large red Tomato. It can be grown in the same way and equally trained to supports as shown in the illustrations, and produce immense quantities of fruit. Over 100 lbs. of fruit has been produced on a single plant. The fruit is large, smooth, mostly, juicy, very solid all through with only few seeds which makes it very valuable. Pkt. 5c.; 3 pkts., 15c.
EARLIANA TOMATO—This is a new perfect smooth Tomato and is claimed to be one of the earliest varieties grown especially adapted for market gardeners. It is claimed that fruit has been marketed fully three weeks ahead of other varieties. It has given splendid satisfaction everywhere on account of its handsome appearance, large and uniform size, and of a beautiful red color. It is wonderfully productive and the quality is of the best, being very sold with only a few seeds. Our stock is from extra selected fruit. Pkt. 5c.; 3 pkts., 10c.; ½ oz., 15c.; 1 oz., 35c.; ½ lb., 175c.

NEW IMPERIAL—This variety has many good qualities as an early or late sort and embraces every desirable quality to make a good Tomato. It is very early, perfectly smooth and ripens evenly to the stem. It is of large size and includes all the good qualities that can be found in a Tomato. It is between the Champion and Beauty in color and one of the most productive. Pkt. 5c.; 3 pkts., 10c.; ½ oz., 15c.; 1 oz., 35c.; ½ lb., 175c.

CHALK'S EARLY JEWEL—This variety has smooth ripeness only about a week after Earlana. The fruits are larger and heavier and it is the most valuable and early, of the very early sorts, being thoroughly adapted to market gardeners. We believe June Pink is sure to give satisfaction and offer the genuine seed as follows: Pkt. 5c.; 3 pkts., 10c.; ½ oz., 15c.; 1 oz., 35c.

MATCHLESS—Skin very tough and will keep well for a long time. A strong grower, productive, large size, no better large red Tomato grown in the class. Excellent for market gardeners. Pkt. 5c.; 3 pkts., 15c.; ½ oz., 25c.; 1 oz., 35c.

CRIMSON CUSHION TOMATO—This variety has been very largely advertised, claimed to be the earliest large tomato, smooth as an apple, ripens thoroughly all over, in color it is a handsome scarlet crimson and ripens up almost completely to the stem. It is a splendid sort on account of its being so very prolific and early for so large a tomato. Give it a trial. Pkt. 5c.; 3 pkts., 15c.; ½ oz., 25c.

GOLDEN QUEEN—This is a first-class large smooth pure yellow Tomato, the best of the yellow class. Pkt. 5c.; 3 pkts., 10c.; ½ oz., 15c.; 1 oz., 35c.

MADAM SHEILA—A large and productive variety. A fine variety for the market and is not surpassed in size or quality by any. Pkt. 5c.; 3 pkts., 10c.; ½ oz., 15c.; 1 oz., 35c.

PONDEROSA TOMATO—This variety is claimed by some to be the grandest Tomato ever grown. It certainly is a large handsome variety as will be shown by the illustration. It often attains a circumference of 13 inches and frequently weighs two pounds each, perfect in form, quite free from wrinkles and very solid and meaty and almost seedless; ripens thoroughly and is a handsome crimson in color and firm from rut. It is a very healthy grower, free from blight and a continuous bearer throughout the season. We can highly recommend this large variety which is well known everywhere. On account of its producting very little seed, it makes seed high in price, nothing but the large and best fruits are selected for seed purposes. Pkt. 5c.; 3 pkts., 15c.; 6 pkts., 20c.; ½ oz., 35c.; 1 oz., 50c.

EARLIEST IN THE WORLD—This is one of our first introductions in early Tomatoes and has been grown in more than half a million gardens during the past few years. It is very early, smooth, and has proven a wonderful success wherever grown. It is a deep red color, is an immense yielder, producing medium size fruits of the best quality. Pkt. 5c.; 3 pkts., 10c.; ½ oz., 35c.; 1 oz., 50c.

SUPERB MIXTURE OF TOMATOES—A packet of this seed is a great curiosity. It contains all the various Tomatoes and a very interesting collection of all the early, medium and late varieties of Tomatoes of all the different colors and shapes will be produced. Pkt. 5c.; 3 pkts., 10c.; 6 pkts., 18c.
SNOW WHITE TURNIP—This is one of the finest early Turnips ever introduced. It has thin white skin, always solid, sweet and a good keeper. The flesh is snow white and on account of its being early is the best variety to sow in the garden for early use. It can be sown late with good results. Do not fail to give it a trial this season. Pkt., 30c.; oz., 8c.; lb., 30c. bunch. 40c.

WHITE EGG—A variety that produces eggs thin white, large, sweet and a good keeper. Excellent for early or late sowing. Very desirable for table use. One of our best. Pkt. 5c.; oz., 10c.; lb., 20c. 20c.

EARLY WHITE FLAT DUTCH—This is another early variety, which grows to a medium size very quickly. It has a clear white skin and is always choice for table use, and is one of the very best varieties for spring sowing. Our Early White Flat Dutch seed this season is the finest we have ever produced, being of strong vitality. Give it a trial. Pkt. 5c.; 3 pkts., 8c.; oz., 30c. 40c.; lb., 30c. 40c.; lb., 30c. 40c.

SNOW WHITE TURNIP—This is one of the finest early Turnips ever introduced. It has thin white skin, always solid, sweet and a good keeper. The flesh is snow white and on account of its being early is the best variety to sow in the garden for early use. It can be sown late with good results. Do not fail to give it a trial this season. Pkt., 30c.; oz., 8c.; lb., 30c. bunch. 40c.

SUPER Mixture of Turnips—This mixture contains all the leading varieties, both early and late, and by sowing this seed a continuous supply may be had throughout the season. You cannot do better than plant some of this seed. Per pkt. 5c.; 3 pkts., 9c.; oz., 10c.; ½ lb., 30c.; ½ lb., 25c.; lb., 45c.

HEAVY CROPPING RUTABAGA

This is a magnificent Rutabaga and we consider it the most profitable of Swedish Turnips, and is the hardest, heartiest, best shaped and most productive. The flesh is yellow, of the choicest quality and bulbs always round and good when flatter varieties will rot. It is a variety that should be grown in preference to all others and you will make a great mistake if you do not plant it this year. Per pkt. 5c.; 3 pkts., 9c.; oz., 10c.; ½ lb., 30c.; ½ lb., 25c.; lb., 45c.

SKIRTING'S PURPLE TOP—Enormously productive, flesh yellow, solid, sweet and one of the best for field culture. Per pkt. 5c.; 3 pkts., 9c.; oz., 10c.; ½ lb., 30c.; ½ lb., 25c.; lb., 45c.

BREADSTONE—Is medium size, very quick growing and roots are smooth, white, with colored tap, flesh perfectly white, fine grained, cooks quickly. One of the best in cultivation for winter and spring use. Per pkt. 5c.; oz., 10c.; ½ lb., 20c.; ½ lb., 15c.; lb., 45c.

IMPROVED AMERICAN PURPLE TOP—One of the best varieties, fine quality, it keeps hard and brittle until summer, and after heavy cropping is the largest yielder of them all. It is one of the best for table and stock feeding. We consider our extra choice stock unequalled. Per pkt. 5c.; oz., 10c.; ½ lb., 20c.; ½ lb., 15c.; lb., 45c.

IMPERIAL HARDY SWEDE—Grows to a large size, with a single tap root and produces a fine bulb always of good quality, and is one of the best for winter use. Per pkt. 5c.; 3 pkts., 9c.; oz., 10c.; ½ lb., 20c.; ½ lb., 15c.; lb., 45c.

LARGE WHITE SWEET—Flesh white and solid, rich sweet flavor, a well-known Rutabaga. Per pkt. 5c.; 3 pkts., 8c.; oz., 10c.; ½ lb., 20c.; ½ lb., 15c.; lb., 45c.

We will mail the following for 12 Cts.:

1 pkt. Purple Top Strap Leaf
1 pkt. Early Snow Ball or Six Weeks
1 pkt. American Purple Top
1 pkt. Large White Sweet
50c. 4 Packets for 12c., postpaid.
THE CAMPFORD PLANT

BE CAMPFORD TREE is very interesting and makes a novel pot plant while small. This is the plant that campford is prepared from, and the wood is used in Japan for making boxes, cases, etc., its quality being insect-proof. It is also claimed that if planted among fruit trees they prevent the attack of blight.

The Bureau of Plant Industry at Washington, D. C., during the past few years has been engaged in a study of the Campford Content tree grown for ornamental purposes. The leaves and young twigs cut off in the dormant season, have been found to contain from 3.75 to 1.65 per cent of campford, calculated from the weight of the fresh clippings. The yield from the older wood is less, more campford being produced instead.

The plants can be readily started from seed and will grow in pots to a good size, which makes a novel plant for the house, garden or lawn, but must be protected in winter not being hardy in our northern climates.

What would be more interesting than a few genuine Campford Plants growing in pots in the house?

We have imported a quantity of seed direct from Japan and offer them to our customers this year with directions for planting. We know campford plants will be a real curiosity in any home in this country and urge our customers to start a few.

Imported Seed per pkt., 8c.; 3 pkts., 20c.

Coffee Berry

This berry or bean is easily grown in any ordinary garden soil and is very prolific. The plant grows very strong, producing a great abundance of pods containing the coffee berry. It makes an excellent drink, very nearly equal to good Java coffee. It can be planted in May and cared for same as beans and will be found as good a substitute for coffee as any cereal used; many preferring it to genuine Potsm Cereal.

Do not fail to plant a few in your garden this year.

Pkt., 8c.; 12c.; 6 pkts., 39c., 1/2 pt. 30c.

See Page 32 for some of the LATEST CREATIONS such as Two Japanese Radishes, Erythritol Worm Corn, Wonderberry, Garden Huckleberry, Strawberry Guava, Lemonade Plant of Queensland, Strawbery-Rasberry, etc.

YOU SHOULD TRY THEM THIS YEAR.

TEA PLANT SEED

How many of our customers ever saw a genuine Tea Plant growing? It is quite an interesting plant and a few of them growing in any neighborhood will attract much attention we are sure. According to the U. S. Department of Agriculture, Tea plants are successfully grown in different parts of the U. S. and in describing Home-grown Tea in one of their Bulletins they say:

The cultivation of the tea plant in home gardens is not only profitable, but a great deal of pleasure can be derived from it at the same time that the use of the much adulterated foreign article can be avoided. This is often found to contain Prussian blue, indigo, turmeric, soapstone, and leaves of other plants than tea, some of which are injurious to health.

In the autumn this beautiful evergreen plant is covered with handsome, fragrant, whitish flowers, having a golden yellow center, making it an excellent ornamental plant. The children as well as the older members of the family derive abundant pleasure in picking and making tea from the leaves into tea, although the process is so simple that this work can easily devolve upon an intelligent servant. The crop of an average tea bush is about 3 ounces of cured tea during the season to 100 plants will yield about 15 pounds a year. About 300 to 400 cups of tea, 50 plants should furnish a cup of tea to a family of six for every day in the year.

Tea plants are not hardy in our northern climate, but it can be grown if given protection in winter. We are so much interested in tea plants that we have decided to offer seeds with directions for growing to our customers this year, the seed all being from Japan. There is no home plant that is more interesting and would attract more attention than genuine tea plants.

Why not try them this year. Seeds per pkt., 8c.; 3 pkts., 20c.; 6 pkts., 30c.

The Japanese Salad Plant, "UDO"

This is a splendid novelty of recent introduction, handsome in color and appearance and an enormous yielder. As shown, vines of this Vegetable Orange are smaller than a Musk Melon vine, but they require about the same cultivation. It is a wonderful yielder, producing fruit about the size of an Orange of a bright yellow color, somewhat roundish. In the west where fruit is scarce, this Orange is rapidly becoming popular. For sweet pickles, pies or preserves they are splendid and can be used in many ways. Pkt., 8c.; 3 pkts., 15c.; 6 pkts., 25c.

THE PLANT DEPARTMENT

We offer only such varieties of Plants as will be sure to give entire satisfaction. We grow millions of plants annually and our trade has grown to such an extent during the past few years that we have been obliged to greatly increase our facilities.

Mailing Size Only. We do not handle larger plants of any kind.

Plants Mailed at Any Time. A great many of our customers order both Seeds and Plants early in the winter. Seeds are sent at once and if requested we will send Plants later, any time up to June 1st. We begin to fill Plant Orders in February and unless you name the date you want us to mail the Plants we will consider you ready for them and will forward at once in a separate package. Seeds and Plants are never sent together in the same package. We cannot fill plant orders after June 1st.

All Orders will have our best and careful attention and are guaranteed to be packed so they will arrive safely at any post office in the United States. Any complaints must be made within one week after Plants arrive. Orders filled in severe cold weather or foreign shipments are at purchasers’ risk.

ROSES—We have for years made Roses our leading specialty, and pay particular attention to their culture, so that our Roses are famed for their thrifty condition; besides we offer nothing but the very best selected varieties that have been thoroughly tested in our gardens. Our Roses are grown on their own roots and are therefore far superior to those budded or grafted on wild stock.

Our assortment this season includes the very best of the old favorites and the newest introductions. We do not offer all the Novelties; only those that we have found to have especial merit and suitable for outdoor culture.

MONTHLY EVERBLOOMING TEA ROSES

MISS KATE MOULTON—A brand new Hybrid Tea that is in a class by itself; beautiful light pink in color, robust habit, and with heavy foliage like American Beauty. A grand Rose for home garden or garden planting.

PRINCESSE BONNIE—Very dark, almost black; color is really indescribable. Unlike any other Rose.

UNCLE JOHN—A pleasing and constant bloomer; the bushes are never without flowers; buff yellow shading to white and pink.

W. L. BLEECKER—Another New Rose, a seedling of Liberty crossed with Bridesmaid, retaining the form of Liberty with the fullness of Bridesmaid, and in color a beautiful shade of pink; in addition, it is a healthy grower, remarkably free-flowering, and possesses unusually good keeping qualities.

DUCHESSE OF ALBANY—A rich red, grown in France; practically identical with the Pink La France in all but the color which is much deeper, almost a pronounced red.

GOLDEN GATE—One of the new Roses of exceptional merit; extra large, very double, deliciously

fragrant; creamy white in color; beautifully bordered with clear rose; a constant bloomer.

MANCHET—Richorsal pink, elegantly shaded with rose crimson. The buds are immense in size and the full blooms magnificent; very sweet, ranks among the very best of hardy, everblooming roses.

RICHMOND—Its fine, crimson, peacock form are borne on long stems making it especially valuable for cutting purposes. The most largely planted of any American Red Rose. Has a delicious fragrance and is of the American Beauty and we believe that in a short time it will take the place of all other Red roses.

KILLARNEY—Flowers are very large, petals often measuring 2½ inches deep, of a rich rose pink in color, buds large long and pointed. Plant is a vigorous grower, free bloomer and entirely hardy in vicinity of New York City or further south.

CHAMPION OF THE WORLD—A Hardy, free-blooming Rose of great merit. Flowers of large size and produced in great abundance, color being a lovely clear deep pink. One of the best of all roses for outdoor cultivation.

ETOILE DELyon—A rich, golden yellow, strong, healthy and vigorous grower, immense bloomer. One of the best Yellow Roses and the best Yellow Tea Rose for outdoor planting.

Kaiserin August Victoria—A royal name and a royal Rose. Perfect in bud and when opened, flowers are the best White Rose of the West. Do not possess this merit. A continuous bloomer producing successive crops of buds and blooms of great profusion, the color being true white.

PAPA GONTIER—A splendid Rose, extra large, finely formed buds and flowers, strong robust grower, free constant bloomer. Very full and sweet.

Price of strong plants of any of the Monthly Everblooming Tea Roses, 50c. each; 3 for 25c.; 6 for 50c., postpaid.
etoilé de france

this is a grand, new rose. it is hardy and ever-blooming of a velvety crimson color; is vigorous in growth, foliage of a handsome bronze green, long stems, stiff and erect with very few thorns. the flowers are very large, petals of splendid substance and form and full, expanding freely. the buds are long and pointed borne singly and erect making it very valuable for cut flowers.

bridesmaid. this is a grand pink tea rose. the bush is of exquisite shape, solid and firm, and the stems are so long and stiff that no other rose can compare in keeping qualities after being cut. it is a very deep pink in color, and enough to make it bright, and keeps the same color all the time under every condition of weather.

hardy hybrid perpetual roses

white american beauty (f. karl druschki) this hybrid perpetual rose is nearly of the same white american beauty. the foliage is large and of heavy texture. the glory of this plant is its flowers which are immense in size. an ordinary plant will produce hundreds of magnificent flowers which are full, very deep and crimson, petals broad and long. the color is hardy and pointed. the color is marvelous snow-white without a tint of yellow, pink or any other color. it is hardy in every sense.

hugh dixon. the most remarkable addition to the list of hardy hybrid perpetual roses. a vigorous grower with handsome foliage, deep red on the young shoots and turning to a deep green with age, a free perpetual bloomer. color, brilliant crimson shaded with scarlet, very uniform, large, beautiful. the fragrance is of fine fragrance. strong plants 10c. each; 2 for 22c.

beauty—well known as one of the grandest, most beautiful, constant blooming roses. immense buds and flowers, rich glowing crimson, exceedingly sweet.

j. b. clark—this grand hybrid perpetual rose has been exhibited bearing flowers seven inches in diameter and five inches deep. think of it! there is no description adequate to cover such a phenomenal rose as this. it is a strong, upright grower, producing a handsome bush as will be shown by the illustration, with splendid dark red bronze green foliage. flowers are extraordinary in size, with beautifully formed petals of great depth and substance. color, intense deep scarlet, heavily shaded with blackish crimson giving the expanded flower an indescribably beautiful appearance. the fragrance is very sweet. price, 15c. each; 2 for 36c.

the famous soupert roses

clothilde soupert—this is the best rose known for bedding or pot culture. color, a french white, deepening to a rosy-bush in the center. its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom; even the smallest plants being literally covered with flowers. it is valuable for garden purposes but more so for pot culture, and rarer, first for blooming in the house. it is free from diseases and perfectly hardy.

eyellow soupert—fully as free blooming as clothilde soupert or pink soupert, and like them, a strong dwarf, bushy grower. flowers are very double and of the same camellia-like form as clothilde soupert. the color is white on a beautiful light yellow ground, which becomes a chrome yellow in the center of the flower. it is hardy, and a lovely free blooming rose.

pink soupert—a lovely everblooming rose, as beautiful as clothilde soupert, but deeper color; medium size flowers, perfectly full and double; blooms all the time; color, fine rose pink, but variable. the same bush for quantity bears flowers of different colors at the same time; grows bushy and is hardy.

prices: any of the three soupert roses, 10c. each; 2 for 19c.; 3 for 26c., postpaid.

the three baby roses

baby rambler, crimson—see colored plate on pages 22-23.

baby Dorothy, pink—this is a splendid companion rose to the crimson baby rambler. it was originated by the same grower and is just as vigorous and free bloomer. practically the difference is in the color of the flowers which are very bright and pleasing rose-pink. it has much of the charm of that charming climbing rose, Dorothy Perkins, hence the appropriateness of the name. "baby Dorothy." it is perfectly hardy and blooms without ceaseation the first year without any attention or care. it is a fine addition to any garden collection. price, 15c. each; 3 for 40c., postpaid.

white baby rambler (true)—this is identical with the two above except in the color of the flowers, which is snow-white. it has the true rose character in a high degree; perfectly hardy and we pronounce it a real rose novelty. 15c. each; 3 for 40c., postpaid.

special offer = the "triplets" collection: one plant of baby rambler, crimson; baby Dorothy, pink; and white baby rambler. only.

j. b. clark
**FUCHSIAS**

**BLACK PRINCE**—This is without question the very finest single Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. Blossoms of a beautiful waxy-carmine or pink color. Certainly a plant of easy culture.

**LITTLE BEAUTY**—A perfect gem; marvelously free-flowering, single flowers 1½ inches long; bright red tube and sepals; corolla rich purple.

**MRS. E. G. HILL**—One of the most perfect double Fuchsias yet introduced. Tube and sepals bright reddish crimson, contrasting with the large, pure white corollas to a great advantage. A very free bloomer.

**PHENOMENAL**—The largest double Fuchsia we have yet seen. The tube and sepals are bright coral-red, beautifully formed. The corolla, nearly two and one-half inches across, is of the very richest violet shades. The habit is remarkably free, and it blooms more freely than any other large variety.

**Price of any Fuchsia, 15c. each; 3 for 30c., postpaid.**

---

**CARNATIONS**

**BOSTON MARKET**—A remarkably free flowering white variety. By commercial growers in many sections it is being grown to the exclusion of all other white varieties, can be depended upon for good size and nicely shaped blooms in great profusion. Color, ivory-white and stem, form and habit of growth excellent.

**CARDINAL**—A bright crimson with flowers of an enormous size. This new Carnation has taken several prizes in the latest shows. It is as strong and vigorous as well as out. It is an early producer and increases in quantity as late as July.

**ELDORADO**—Light clear yellow, petals edged with a narrow band of light pink. A standards, very large grower with fine healthy foliage; stems of good length, supporting large, firmly formed flowers. The color shows up well under artificial light, and does not look white as many yellows do.

**ENCHANTRESS**—This is truly a queen among Carnations on account of its large size, magnificent color, fine strong stem, and early, free and continuous blooming habit. The color is a beautiful shade of light silvery pink, deepening toward the center. The flowers are enormous—three and a half to four inches in diameter. It does not burst the calyx at any season. It is an ideal grower, very healthy and of vigorous constitution.

**NEW WHITE CARNATION, BOSTON MARKET**

**Rex Begonias**

**PRICE, 15c. each; 3 for 30c.**
CHrysanthemums

GOLDEN WEDDING—The grandest golden yellow Chrysanthemum ever offered. In color it is a deep, bright golden or shining texture, very large in size, the petals are both long and broad and channeled lengthwise. A perfect Japanese incised of most beautiful form, free in growth.

IVORY—One of the most popular white varieties in cultivation. Of dwarf habit, producing fine large, pure ivory white flowers on stiff upright stems. Large in size, the petals are both long and broad and channeled lengthwise. A perfect Japanese incised of most beautiful form, free in growth.

BLACK HAWK—The largest and most beautiful dark crimson-seal frits introduced. Looks like crimson velvet; the very shade so much desired in Chrysanthemums. Flowers are of immense size on fine stiff stems. Sure to please. Said to be President Roosevelt’s favorite variety.

Black Hawk Chrysanthemum

GERANIUMS

E. H. TREGO—Double, We consider this the best double scarlet geranium yet introduced and can truly say it is the largest flower and the brightest geranium we have yet seen, and it cannot be excelled for bedding purposes. The color is deep scarlet of exquisite shade; the florets are regular in form, more semi-double and about 2½ inches in diameter. Trusses enormously large on long stems. Foliage and habit beautiful.

BEAUTE POITEVINE—Best salmon-colored Geranium for bedding purposes; most profuse bloom of all the geraniums. Largest size trusses, borne on long foot stalks; florets very large, double and of a beautiful bril- liant salmon. Always in great demand during spring; brings a higher price than any of the others.

COUNTESS OF HARCOURT—Pure white. A grand bedder. Florets large, double and beautifully formed. Extremely free in bloom.

S. A. NUTT—The best crimson bedding Geranium. This, the finest of dark crimson Geraniums, has now taken the lead as a bedding variety, being used in the largest parks and public grounds of the country in preference to all others. Its dense, compact growth, profuse blooming habits, and sun-proof constitution combined give it the prominence as a bedding. As a pot plant it cannot be excelled.

MRS. E. G. HILL—For those unacquainted with the variety we would say it is the most distinct and pleasing shade of salmon, with light shading to the center. The finest single, salmon-flowered geranium to date. One of the finest bloomers, continually covered with flowers.

MADAM BRUANT—Flowers of largest size, with finely veined center and outer border. Deeply penciled with deep rose, florets edged and varied with crimson lake; both flowers and trusses are very large and striking, makes very handsome plants and is a constant and abundant bloomer. "Madame Bruant" is one of the grandest and most beautiful geraniums ever introduced; a whole bed of it is none too much.

Madam Bruant Geranium

UMBRELLA PLANT.
(Cyperus Alternantherus)
This is a plant of the cut culture and a large and handsome as a palm for decoration. It makes a handsome pot plant, or can be used in baskets or vases, making a charming effect. It will grow luxuri-ously in water, and is therefore, indispensable for aquariums and fountains. 12c. each; 3 for 30c., postpaid.

It is a rapid grower of very easy cul- ture, soon forming a large, graceful plant; its beautiful fronds often attaining a length of 4 to 5 feet, which arch and droop gracefully.

No plant ever intro-duced has had a larger sales than this Umbrella Plant. 15c. each.

BOSTON SWORD FERN
15c. each.

HARDY GARDEN CARNATIONS

Glory of the Pacific Chrysanthemum

GLORE OF THE PACIFIC—This fine variety will rank as the very best of early pink sorts. It is of magnificent depth, with broad petals, which finally relax, showing the clear pink color to excellent advantage. The plant is of dwarf, compact growth and comes into bloom very early in the fall. The flowers are of great size and a clear pink color.

DIL, E. G. HILL—Japanese incurved. One of the best introductions of recent years; has been awarded highest honors wherever exhibited. Color a true pink, without the least trace of purple. Stem and foliage perfect. Equally valuable for exhibition or commercial purposes. Perfectly double.

Price of the above Chrysanthemums, 12c. each; 3 for 30c., postpaid.

Double Geranium, E. H. Trego

All our plants are strong, well rooted and we deliver by mail to any address.

Try some of our plants this year.
PEACH-BLOW
An improvement over other Hibiscus in size of flower, freedom of bloom and strong growing qualities. Flowers double, of a rich shade of clear pink, with small, deep crimson centers; an entirely new and most beautiful shading; 4 to 6 inches in diameter. Blooms freely even on small plants. Good as house plants or planted out in garden. See illustration.

DOUBLED CRIMSON
This new grand variety has immense flowers of the richest crimson. Combined with glossy foliage renders it the best of all. Versicolor.

A variety combining in its fewest colors of the whole family, being hand-somely striped. Crimson, buff, rose and white. Price of each kind, 15c. each; 2 for 25c.

LEMON
American Wonder or Ponderosa
Quite a novelty of the citrus family, originated at Hagerstown, Md., from the seed of an ordinary lemon. The original plant when quite small bore fruit of extremely large size, much to the amusement of its originator. Cuttings from this plant produces a large stock. Horticultural experts pronounce it a cross between the ordinary lemon and the grapefruit or Pomelo, the hybridization being formed by a bee. Thin, in brief, is the history of the lemon. It inherited the large size of the Pomelo, and the acidity of the lemon. The plant is of rapid growth, with dark green foliage, and often bears fruit weighing 5 to 8 pounds. Flowers are pure waxly-white and resemble orange blossoms, only larger and more compact and exceedingly sweet. An elegant plant for porch or lawn decoration. Very ornamental. A select variety upon account of its large, shiny, foliage and its wonderful immense fruit.

KENTIA PALM, "Belomorana"-The Kentia Palm, besides being one of the most graceful and ornamental of all palms for the house or conservatory, is also one of the hardest and easiest to grow and will continue to increase in size and beauty for years. Price, 10c. 2 for 20c., postpaid.

VIOLETS—CALIFORNIA—This is the largest and most productive Violet in cultivation. For richness, purity of color and fragrance of flower it is unequaled. It is a single flower, and it has that sweet simplicity peculiar to the Violet. The color is pure, rich violet-blue, that does not fade. Extremely free flowering, a single plant producing hundreds of flowers throughout the season.

DOUBLE BLUE VIOLETS—Lady Harrow Campbell. Certainly the most valuable double Violet in cultivation. Of strong, healthy growth and a remarkably free bloomer. Color, dark purple. So persistent is its blooming that young plants in 2 inch pots last spring were literally covered with flowers.

SWANLEY WHITE—This valuable variety is a sport from Maria Louise. It blooms as freely and is in every way equal to its parent. The flowers are large, double and pure white. Any variety, 10c. each, 5c. for 25c.

HYDRANGEAS FOR HOUSE CULTURE

OTASKA—They are exceedingly ornamental, producing splendid effects, the plants being covered with a solid mass of flowers of their large, showy heads of bright pink or cream color which remain beautiful for months; they can be wintered in any cool cellar with no trouble, and plants increase in beauty each year.

THOS. HOGG—Similar to Otaska except color, which is pure white. Trusses measure 18 inches in diameter. A plant full grown attains a height and width of 4 feet. Price, both varieties, 10c. each, 2 for 20c.

HARDY PHLOX

EVERBLOOMING SNOWBALL HYDRANGEA

This new hardy shrub is something out of the ordinary and a welcome addition to our list of really valuable plants. Few of our native garden shrubs are so attractive in habit and elegance of foliage. It is perfectly hardy, having stood a temperature of 20 degrees below zero without injury. The flower is white, the greenhouse Hydrangeas and pure white. The petals are immense in size, but the everblooming habit of this variety is its most remarkable and valuable characteristic. Blooming profusely from June until September. No hardy plant produced in years has had such unqualified endorsement as the New Everblooming Hydrangea.

Price, 30c. each, 4 for $1.00, postpaid.

OTHELLE ORANGE

A grand Pot Plant of great beauty and a splendid novelty. It is a dwarf orange that grows, blooms and fruits freely in pots, even when only a foot or two high. The fruit is about one-half the size of an ordinary orange, and is very sweet and juicy. The blooms are produced in the greatest abundance, are delicate and beautiful in color, and rich in delicious perfume. It blooms most freely during the winter, although it is very likely to bloom at all times of the year. With one or two plants you can raise an abundance of fragrant blossoms and we know you will be more than pleased with it. Try one or two of these plants this year. 15c. each. 2 for 25c., postpaid.
FLOWER SEED DEPARTMENT

MILLS' FAVORITE COLLECTION OF ASTERS

This great collection of Asters has given splendid satisfaction everywhere and we believe for a great display throughout the summer and fall months, nothing could be planted to equal it. This collection of Asters is made up of all the varieties offered in this list and a great many new and rare varieties that we do not catalogue for lack of room. A packet of this seed will produce flowers of all colors imaginable, making a magnificent display. The illustration can convey but a faint idea of their beauty, but you can imagine what a wonderful collection of flowers can be grown from such a mixture of seed. A packet of this seed will make a complete flower garden, but in order to get a gorgeous effect and have a large size flower bed, three packets of seed should be sown. Per pkt., 100 seeds, 6c.; 3 pkts., 23c.; 6 pkts., 45c. Be sure to include this Aster seed in your order.

MILLS' EARLIEST BLOOMING ASTERS

Earliest Strain of Asters in the World

All those who want Asters very early in the season should grow this one. We have taken particular pains in producing this Aster, which is the earliest in cultivation; from three to four weeks earlier than any other Aster. Its large flowers and spreading habit of growth makes it a handsome plant. The colors are all shades of pink, blue, rose, white, scarlet and lilac. Per pkt., 5c.; 3 pkts., 12c.

NEW BOUQUET ASTER

New Bouquet Aster Growing in Pot

This is a splendid new Aster especially suited for pot culture or for the border of a flower bed. It is very dwarf, growing only 6 or 7 inches high but completely covered with blossoms forming a handsome bouquet. Colors are white, pink and other shades, blending in the most pleasing manner, making it one of the most beautiful Asters we have ever offered. Per pkt., 5c.; 3 pkts., 12c.
**New Japanese**- Resembles Japanese Chrysanthemum but immense in size. All Colors Mixed, per pkt., 5c., 3 pkts., 15c.

**New Yellow**- Only yellow Aster we have ever offered, quite a novelty. Per pkt., 20 seeds, 5c., 3 pkts., 15c.

**Queen of the Market**- An early Aster of spreading habit. All Colors Mixed, per pkt., 50 seeds, 5c., 3 pkts., 15c.

**New Giant Branching Comet**- Claimed to have originated in California, producing flowers of enormous size, stems are often 12 inches long. All Colors Mixed, per pkt., 6c., 3 pkts., 15c.

### ALYSSUM

**LITTLE GEM**- Grows two to four inches high and one plant will completely cover a circle 15 by 14 inches in diameter. Very fragrant, and the flowers are pure white. Pkt., 250 seeds, 5c.; 3 pkts., 10c.

**SWEET**- This is pure white, much used for borders; is fragrant and produces very delicate flowers. Pkt., 250 seeds, 5c.; 3 pkts., 10c.

### CANDYTUFT

**GIANT HYACINTH FLOWERED CANDYTUFT**- Here is a real novelty in Candytuft, and a great improvement over the Giant Empress, which has been called Giant Hyacinth Flowered. The flower heads grow nearly six inches long and about three inches wide, with beautiful variegated flowers, a great many of which have been grown, producing flowers upon long stems. Pkt., 150 seeds, 5c.; 3 pkts., 10c.

**MILLS’ DEFiance SPLENDID MIXED**- This is without question the most attractive mixture of Balsam seed ever grown. It produces plants that are covered with very large double flowers of all the colors imaginable. It will be a favorite wherever grown. Pkt., 50 seeds, 5c.; 3 pkts., 10c.

### CALLIOPSIS

These are half hardy annuals of quick growth, bearing a profusion of bright colored flowers. We offer a choice collection of colors and if the seed is sown thinly where the plants are to bloom early in the spring, as the soil can be dug, an abundance of bloom may be expected. Mixed All Varieties, pkt., 150 seeds, 5c.; 3 pkts., 10c.

**GOLDEN WAVE**- A mass of bright golden color. Pkt., 150 seeds, 5c.; 3 pkts., 10c.

### BRANCHING ASTERS

These are of American origin, easily grown, producing flowers upon long stems. Has a wonderful branching habit. All Colors Mixed, per pkt., 50 seeds, 5c., 3 pkts., 15c.

### DWARF QUEEN

This is the best dwarf variety. Plants grow about 40 inches high. Flowers large. All Colors Mixed, per pkt., 50 seeds, 5c.; 3 pkts., 15c.

### HIGH GRADE MIXED

This is a special selection of colors which will please everyone. Packet, 5c.; 3 pkts., 10c.

### AGERATUM

**LITTLE BLUE STAR**- Plants grow only 4 or 5 inches high, and are completely covered with bright blue flowers. Make excellent edging plants on account of the wonderful profusion of bloom and small size, Pkt., 5c.; 3 pkts., 15c.

**MIXED COLORS**- Pkt., 5c.; 3 pkts., 10c.

### MILLS’ GIANT EARLY FLOWERING CARNATIONS

This is a wonderful strain of early flowering Dwarf Perpetual Carnation, which will produce flowers in three or four months from seed. We consider this a great flower seed novelty and the seeds we offer of this new dwarf perennial blooming Carnation will astonish all who grow it. The seed we offer should give nearly 50 per cent. of double blossoms. The plant is of dwarf compact habit, branching just above the ground. The variety of colors includes blue, deep pink, white, salmon, carmine, scarlet, maroon, dark crimson and many beautiful variegated flowers. All Colors Mixed, per pkt., 5c.; 3 pkts., 10c.

### SEEDS OF THIS EARLY FLOWERING STRAIN, ALL COLORS MIXED, per pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

### CANDYTUFT, LITTLE KING

This is a handsome little Candytuft growing only about 6 inches high. The main flower spikes are pure white. It makes a fine pot plant. Its shape is much like Hyacinth Flowered and we are sure it will give great satisfaction on account of the great profusion of bloom and handsome appearance. Pkt., 5c.; 3 pkts., 12c.

Have you examined our colored plate of Bulbs? If not, do so for we offer a choice lot. See inside back cover.
GLADIOLUS FLOWERING CANNAS.

This grand strain of Cannas is of dwarf growth and produces immense Gladiolus-like flowers of most brilliant colors. On account of their profusion of bloom they are the most useful, showy and popular garden plants grown. A bed of these plants will make a grand sight and the plants can be easily grown from seeds sown in hot beds in the spring. We offer a grand mixture of colored varieties selected especially to offer our customers this year. Fancy Mixture per pkt., 5c.; 3 pkts., 15c.; 6 pkts., 20c.

CANTERBURY BELLS

This is a well-known popular large bell-shaped flower, known everywhere. The cup and saucer varieties produce beautiful single flowers, three inches in length, saucers three to four inches across.

Finest Single Mixed, pkt., 5c.; 3 pkts., 15c.
Finest Double Mixed, pkt., 5c.; 3 pkts., 10c.
CUP AND SAUCER—New and gigantic producing large beautiful flowers, resembling a cup on a saucer. The cup flowers are from three to four inches deep and the saucers three to four inches across. They grow like pyramids, two feet high and are often covered with one to two hundred flowers of white, striped, lavender and pink for weeks during the summer. Per pkt., 5c.; 3 pkts., 15c.

CELOSIA, (Coxcomb.)

NEW GIANTIC—Has mammoth purple comb and dark brown foliage. Per pkt., 150 seeds, 5c.; 3 pkts., 15c.

FIRE FEATHERED—Grows nearly three feet high covered with fiery heads of orange scarlet. Pkt. 150 seeds, 5c.; 3 pkts., 10c.

GOLD FEATHERED—Similar to Fire Feathered except the flower heads which are a bright golden color. Pkt. 150 seeds, 5c.; 3 pkts., 10c.

ABUTILON (Flowering Maple)

This is a tender perennial, growing from one to three feet, easily grown and always in bloom. Colors are white, lemon, rose, scarlet, crimson, yellow and red shades. Abutilons make handsome house plants. Choice Hybrids, pkt., 10c.; 3 pkts., 25c.

ABRONIA

This is a charming annual trailer with numerous veronica-like clusters of fragrant rose pink flowers which are sweet-scented, excellent for hanging baskets and vases and blooms a long time. Per pkt., 5c.; 3 pkts., 10c.

NEW ORNAMENTAL COTTON

This Cotton makes a very beautiful decorative plant when growing and for cutting in the fall for house use or everlasting, there is nothing better. Some leaves are green, white, yellow and red. The cotton is snow white. Grown easily from seed. Be sure to place your order for a packet. Pkt., 5c.; 3 pkts., 15c.
**DATURA**
*SWEET NIGHTINGALE.*

This is a very showy and delicate pot plant, producing immense large white trumpet shaped flowers very quickly from seed, is fragrant and a very interesting flower. Mixed, pkt., 5c; 3 pkts., 15c.

**DIANTHUS**
*(HARDY GARDEN PINKS)*

These are the most beautiful of summer flowering annuals. Are unrivaled for brilliancy and rich variety of colors. The plants are bushy, of symmetrical form about a foot high. The flowers grow to a large size, averaging about six inches in circumference. There is a wonderful variety of colors and they are intensely brilliant and varied, colors are beyond description. We offer both the single and double varieties.

**LARGE FLOWERING DOUBLE HYBRID**—All colors. Pkt., 100 seeds, 5c; 3 pkts., 15c.
**CHOICE SINGLE MIXED**—All colors. Pkt., 100 seeds, 5c; 3 pkts., 15c.
**DWARF SNOWBALL**—These are pure white producing an abundance of double flowers. Pkt., 100 seeds, 5c; 3 pkts., 15c.

**DWARF MIXED**—Produces double fiery red flowers throughout the summer and fall. Per pkt., 100 seeds, 5c; 3 pkts., 15c.

**NEW DOUBLE PINK “FIRE BALL”**

**COSMOS**

These Giant Autumn Flowering Annuals often produce flowers four to five inches across. For cutting this is one of the finest flowers grown, long stems and feathery foliage, produce a graceful effect. They are easily raised from seed.

**KLONDIKE**—Produces large orange colored flowers. Per pkt., 5c; 3 pkts., 15c.

**EARLY COSMOS, SUMMER FLOWERING**—A large flowering Cosmos does not bloom until late in the season, but we offer an early flowering strain, which begins to bloom in June and continues until frost. Flowers are not quite so large nor the plants do not grow as high as the late flowering Cosmos. A good collection of colors mixed, pkt., 5c; 3 pkts., 15c.

**GIANT COSMOS, ALL COLORS MIXED**—This contains all the single varieties, which make a great display of colors. Per pkt., 5c; 3 pkts., 15c.

**GIANT PLANT.**

This is a magnificent foliage plant and is a great curiosity when grown in the garden or on the lawn. Seeds can be sown easily in spring and will produce plants ten feet high, spreading twelve to twenty-five feet across with leaves from five to six feet across, making it a perfect wonder. It requires sun, good soil with plenty of moisture and in winter the roots should have protection. All who grow this Giant Plant will be pleased.

Seeds, per pkt., 10c; 3 pkts., 25c, postpaid.

**JAPANESE CHRYSANTHEMUMS EASILY RAISED FROM SEED**

We have succeeded in securing a wonderful collection of Japanese Chrysantheum seed and there is hardly any flower produced from seed that can take the place of this. Think of seed producing all the curious and odd shaped flowers as shown in the illustration. Our mixture is composed of the best Japanese and Chinese varieties, which are imported from Japan. Among the curious shapes and beautiful colors will be found the Ostrich Plume sort, twisted and curled, and nearly all other shapes you can imagine. In addition to the Japanese variety, we include the Annual Chrysantheums, which produce large flowers of crimson, gold and white colors. No matter how many plants you raise there will be hardly any two alike. The entire mixture of seed soon begins to bloom and by winter the plants are large enough to produce a gorgeous display of flowers. Fine mixed all varieties, shapes and colors. Pkt. 50 seeds. 8c; 3 pkts., 80c.

**ANNUAL VARIETIES MIXED**—These bloom freely the first year from seed and produce a variety of colors. Seed can be sown in garden in spring. Pkt., 5c; 3 pkts., 15c.
FEVERFEW

DOUBLE MIXED—Large, white flowers white, pale yellow, and red. Per pkt., 100 seeds, 5c.

GOLDEN BALL—A dwarf double yellow. Per pkt., 100 seeds, 5c.

ALL COLORS MIXED—Per pkt., 6c.; 15c.

baby Golden—Seeds, 10c.

GODETIA

(Satin Flower)

SATIN ROSE—This produces handsome very large showy flowers of a rich velvety satin rose, the petals of which shine like satin. Per pkt., 250 seeds, 5c.

FOXLACE—Produces long spikes of richly colored flowers, excellent for cutting. A very showy plant. Blooms the first season. Per pkt., 250 seeds, 5c.

GAILLARDIA

The flowers are greatly admired for their rich blending of colors. Bloom freely from seed the first year, thrive well everywhere. This is one of the very few plants that give us everblooming flowers we offer. Finest Mixed All Colors, single flowers in red, yellow, and scarlet orange, per pkt., 8c.; 5 c. 15c.

NEW DOUBLE GAILLARDIA—Produce large flowers of various shades and colors. Very attractive and beautiful. Per pkt., 8c.; 5 c. 15c.

Calecoilaria, Hybrida—The colors and markings include the rarest shades of crimson, maroon, yellow, including spotted and variegated. Flowers are borne in the greatest confusion throughout spring and summer. Splendid mixed, per pkt., 10c.; 25c.

HELIOTROPE—These are easily grown from seed and if sown in open ground will produce flowers in August, but the seed will do better if sown in the house and set out in the open ground when the weather becomes warmer. Finest Mixed All Colors, single flowers in red, white, and blue. Per pkt., 8c.; 5 c. 15c.

NEW CLIMBING HELOTROPE—"Royal Height"—A magnificent new Heliotrope of wonderful rapid growth, forming immense plants that spread and climb to the height of 10 or 12 feet. It has splendid large trusses of rich purple flowers and is a most prolific bloomer. As a covering for walls or hedges, it makes a splendid pot plant. It is invaluable. Per pkt., 8c.; 5 c. 15c.

LEMOINE'S GIANT HYBRID—A grand new variety of large showy beauty and delicious flower perfume. It is impossible to give an idea of the rare beauty of the flowers of this wonderful variety. More than 6,000 flower heads have been counted on a single stalk. The flowers measure from eight to twelve inches across, and the colors range from pure white through all shades of blue and violet to a deep indigo. Per pkt., 200 seeds, 6c.; 8 c. 15c.

BLACK KING—This produces flowers of a rich, very dark purple. Per pkt., 100 seeds, 8c.; 3 c. 15c.

LADY IN WHITE—This produces flowers of a spotless white. Per pkt., 100 seeds, 5c.

ALL VARIETIES IN A MIXTURE—A wonderful display. Per pkt., 8c.; 5 c. 15c.

Clematis, PANICULATA

One of the most valuable of all the hardy flowering vines. These bloom with rapid growth, soon reaching a height of 15 to 20 feet and spreading out in all directions. Small, pure white, or colored, flowers, borne in masses on panicules or clusters on long stems so profuse as to fairly cover the plant with a sheet of bloom white. Its blooming period is in August and September, when most other vines have ceased, and it is a sight to behold. Not its least charm is its delirious Magnolia-like fragrance. Perfectly hardy, as you can grow this handsome vine from seed. Price of Clematis seed, pkt., 8c.; 5 c. 15c.

Burbank's New Shasta Daisy

This newest Giant Daisy is a most popular plant. Mr. Luther Burbank and associates earlier creations, bearing only a slight family resemblance to the common Daisy. The New Shasta Daisies are often measure 4 and 5 inches across, and are borne on stems two to three feet long. They may be grown everywhere in hot and cold locations blooming throughout the season in great profusion. Per pkt., 50 seeds, 5c. 15c.

FINE DOUBLE MIXED—These produces flowers of delicate shades and markings and is the best mixture of the large double Hollyhock on the market. The plants are hardy and large, robust growers; the flowers of this mixture often measure 8 inches in diameter. Per pkt., 50 seeds, 5c. 15c.

Baby Golden Glow

This is a beautiful annual, producing a yellow flower, which makes a pleasing effect. They will begin blooming early in the season each year and produce hundreds of bright yellow flowers as double and perfect as roses. Seed should be sown early in the house or hotbed and plants transplanted to the garden as soon as frost is past. The Baby Golden Glow grows only from twenty inches to two feet in height and resembles the famous Golden Glow which is a tall growing late flowering perennial plant. We are sure that this will make a very interesting plant and have succeeded in securing a choice supply of seed. Price per pkt., 6c.; 3 c. 15c.

Hollyhock Ever Blooming Annual

We have been unable until recently to secure seed of the true Ever-blooming Hollyhock illustrated. They are as easily grown from seed as any annual and commence flowering in about 12 weeks and continue to bloom until the frost. On account of their blooming the first year they are much more desirable to grow than any other Hollyhock, as they can be started in the house before the last frost and set out in March or April, or sown in the open ground in May. Plants from early sowings set out in May will commence blooming in July and will produce an abundance of bloom throughout the season. This Annual Hollyhock is a wonderful showy flower of the first order and should be grown from the best seeds available. They are produced in double flowers, semi-double flowers, single flowers, all with smooth edges petals and edges, and of various kinds and shapes and shades. The flowers are usually very large, sometimes measuring over 5 inches across. For great variety of color we know of no Hollyhock that will make such a gorgeous display as the colors and markings are beyond description, and should be grown to be a fact. The plants grow very strong and vigorous, and are of a branching habit. The center spike will attain a height from seven to nine feet, but it can be kept at any desirable height by pinching off the top. In order to get the best results the plants should be set in the thoroughly rich soil kept watered in dry weather. Ever-blooming Annual Hollyhock.

Price of seed containing a good mixture of double and semi-doubles, all colors and shades, per pkt., 50 seeds, 8c.; 3 c. 15c.

FINE DOUBLE MIXED—This produces flowers of delicate shades and markings and is the best mixture of the large double Hollyhock on the market. The plants are hardy and large, robust growers; the flowers of this mixture often measure 8 inches in diameter. Price per pkt., 50 seeds, 5c. 15c.
Here is a grand collection of Giant Flowering Nasturtiums, which are excellent for bedding. The flowers often measure 3½ inches across in a great variety of new combinations of colors. The flowers are not only wonderfully brilliant, but very uniform and always of large size. We know of no flower for summer flower beds that can surpass them. The plants grow about a foot high and if the seed is sown in the open ground in the spring will produce plants that commence blooming early in summer and continue until frost. Our collection of colors embraces everything known in Nasturtiums. The description given but a faint idea of the great beauty of these flowers. They should be grown to be appreciated. Selected seed which will produce giant flowers all colors, price per pkt., 6c.; 3 pkts., 15c.; 6 pkts., 20c.; oz., 35c.

GIANT FLOWERING SILVER AND MOSAIC LEAVED NASTURTIUMS.

This is a beautiful race of new Nasturtiums, the foliage being variegated, making the plants very attractive, even when not in flower, but when in bloom their beauty is more than doubled on account of the great combination of colors. The plants grow about the size of other dwarf varieties, which make them very desirable for bedding. Everyone should grow this odd race of Nasturtiums. All Colors Mixed, per pkt., 6c.; 3 pkts., 15c.; 6 pkts., 20c.; oz., 35c.

Tom Thumb Nasturtiums

These are well-known for their handsome foliage and brilliant flowers. They grow about a foot high and produce an abundance of flowers during the summer.

CLOTH OF GOLD—This has a bright yellow foliage, while the flowers are a beautiful scarlet color, excellent for bedding and bloom nearly all summer. Per pkt., 25 seeds, 6c.; 3 pkts., 10c.; 6 pkts., 15c. each, 20c.

BEAUTY—Colors, yellow and scarlet, making a very attractive combination. Pkt., 25 seeds, 5c.; 3 pkts., 10c., 6 pkts., 15c.; oz., 20c.

BRONZE; COLORFUL—The flowers of this variety are of good size and a beautiful bronze in color. Pkt., 25 seeds, 5c.; 3 pkts., 10c.; 6 pkts., 15c.; oz., 20c.

TOM THUMB NASTURTIUMS—All Colors Mixed, pkt., 25 seeds, 5c.; 3 pkts., 10c.; oz., 15c.

NEW CLIMBING HYBRIDS OF MADAM GUNTER—These new hybrids climb from 5 to 6 feet high and are fairly covered with brilliant colored flowers from spring until fall. This new strain is so very ornamental that it deserves a place in every garden, for the remarkable range of colors embracing rose, pink, salmon, purple, dark maroon, light maroon, light yellow, deep orange striped and blotched, extremely beautiful. Do not fail to give this Nasturtium a trial. Pkt., 25 seeds, 5c.; 3 pkts., 10c.; 6 pkts., 15c.; oz., 25c.

One of the Brightest and Most Showy Annuals

LARKSPUR

Giant Hyacinth Flowered—An improved type producing large flowers, very double of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground. All Colors Mixed, pkt., 5c.; 3 pkts., 10c.

DOUBLE DWARF ROCKET—Five mixed colors. Pkt., 5c.; 3 pkts., 10c.

HIBISCUS

This is a handsome perennial plant grows very fast and in one season attains the dimensions of a shrub. There is nothing more desirable for an ornamental hedge or to set in clumps as they are hardy and never winter kill. Early in summer they begin to flower and continue to produce enormous flowers, nearly as large as tea saucers of a variety of colors; blush, white, deep pink, rose and many other odd markings and colors. This makes a very attractive plant wherever grown and easily raised from seed. Hardy Hybrids Mixed, per pkt., 5c.; 3 pkts., 10c.

JAPANESE LOTUS—Produces large beautiful flowers and can be grown from seed. Quite a curiosity. White: Pkt., 6c.; 3 pkts., 15c. Pink: Pkt., 6c.; 3 pkts., 15c.
Red, White and Blue=

IMPERIAL GERMAN PANSIES

IMPERIAL GERMAN—For a variety of colors and large sized flowers we do not think anything can surpass Imperial German except Mills' Giant. They embrace all the solid colors, as well as the spotted and margined varieties and the variations and combinations cannot be fully described. This splendid mixture embraces seeds of over fifty colors and markings. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

METEOR—Bright canary yellow, with mahogany and reddish brown. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

GIANT TRIMARDEAU—Large in size and very attractive colors. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

SNOW QUEEN—Flowers of pure delicate satiny white. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

GOLD MARGINED—Very pretty. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

MAHOGANY COLORED—Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

ROSY MORN—Red with white edges. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

EMPEROR WILLIAM—Flowers of ultramarine blue, with purple eyes. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

FIRED LING—Lower petals have blotsches of deep brown red, margined yellow; upper petals are a bright reddish brown. Per pkt., 100 seeds, 5c.; 3 pkts., 10c.

KING OF THE BLACKS—Intensely dark and rich. Pkt. 100 seeds, 5c.; 3 pkts., 10c.

KOCCHIA SCOPARIA, (SUMMER CYPRESS.)
Marigold

LEGION OF HONOR—Named so because of the resemblance of the Legion of Honor. Flowers bright and almost startling. Bright golden yellow with a deep velvety crimson brownish red mark on each petal at base. The plants are very dwarf and compact while they produce large flowers. Pkt. 5c.; 3 pkts., 10c.

TOM THUMB MIXED—These form compact little bushes from six to eight inches high completely covered with handsome blossoms from summer until fall. Pkt. 5c.; 3 pkts., 10c.

FRENCH MIXED COLORS—These produce double flowers of rich dark shades. Pkt. 5c.; 3 pkts., 10c.

Nicotiana

SANDERAE HYBRIDS—These flowers from early summer until late in autumn. Their beauty is beyond description. Flowers produced being purple, snow-white, dark and light red, violet, saffron, crimson, pink and various other shades. In a very easily cultivated plant, will thrive in any soil either in pots, boxes or in the open ground. Flowers are nearly as large as a petunia, with tubes five inches long and many of the flowers are delightfully scented. You should not miss this excellent plant, as it is good for summer, fall or winter blooming. Cut blooms last well, opening freely in water. All colors mixed, pkt. 6c.; 3 pkts., 15c.

Four O’clocks, Marvel of Peru

The Four O’clock is a very desirable plant. It grows in any soil and under almost any treatment. The flowers have a strange habit of remaining closed until about four o’clock when they burst open. The roots are hardy and perennial, growing from year to year. Pkt., 50 seeds, mixed colors, 5c.; 3 pkts., 10c.

Oxalis

The Annual Oxalis make very pretty border plants and bloom very quickly from seed. The plants have a clover-like foliage and grow six to seven inches high. Fine mixed colors, pkt., 150 seeds, 5c.; 3, 10c.

Mignonette

DOUBLE FLOWERING RED GIANT—This is one of the largest and best Mignonette for garden culture. It is a strong stocky grower, handsome foliage and very healthy. The spikes of flowers are mammth, measuring 6” to 8 inches long by nearly 3 inches in diameter, and are completely filled with giant florets, measuring about 1½ inch across and backed very well with anthus nearly three times as many as other Mignonette contain, which entitles it to be called a double Mignonette. The fragrance is rich and powerful and for cutting there is no better variety, as it will remain fresh for several days when placed in water. Pkt. 5c.; 3 pkts., 10c.

DEFIANCE—This is one of the leading varieties and largely grown as a florists’ flower. It grows very strong both the plant and the individual flower, while the size and strength of the leaf have not been equalled. The spikes of flowers grow several inches long and the single florets more than 1½ inch in diameter have a delightful fragrance. Pkt. 100 seeds, 5c.; 3 pkts., 10c.

GOLDEN QUEEN—Produces yellow blossoms and is of very dense dwarf growth. Pkt. 300 seeds, 5c.; 3 pkts., 10c.

GOLDEN MIXED—This comprises all known varieties. It is a very choice selection. Pkt. 250 seeds, 5c.; 3 pkts., 10c.

Portulaca

Royal Beauty—This is a grand new variety being recently introduced, and has given great satisfaction wherever grown. The flowers are large and double, while the colors are very brilliant shades of red, orange, white, salmon, yellow and various other shades, impossible to describe. A bed of these double Portulas make a most magnificent sight. Pkt., All Colors Mixed, 100 seeds, 5c.; 3 pkts., 10c.

SINGLE—These cover the plants completely over with large bright beautiful flowers of all shades. Be sure to plant a packet this season. Pkt., All Colors, 300 seeds, 5c.; 3 pkts., 10c.

Petunias—FAIRY FRINGED DOUBLE—These are as large as Hollyhocks, very double with edges finely fringed. Petals are crinkled of various colors, making a great effect. We have secured the choicest Double Petunia seed that can be had, guaranteeing no other strain can produce a larger per cent of double flowers. Selected Seed All Choice Colors. Pkt., 15c.; 2 pkts., 30c.

Nigella—This is an easy growing Annual, making a compact plant one to two feet high. It produces large double porcelain blue and white flowers, which completely cover the plant. The foliage is odd and striking. Mixed colors, pkt. 100 seeds, 5c.; 3 pkts., 10c.

LARGE FLOWERING FRINGED AND STAINED—This is a splendid variety, large size producing the richest colors of any single variety in cultivation. Flowers measure nearly five inches in diameter; are beautifully fringed on the edges and give various shades of purple, rose and crimson, while many produce pure white, blue and red. On account of the handsome foliage, large leaves and the great abundance of flowers this is the favorite variety. Pkt., 6c.; 3 pkts., 10c.

SUNSET RAINBOW—A fine new strain of large flowering Petunias which we have grown and paid $50.00 for a name. They should be grown by all who appreciate a description can give but a faint idea of their beauty. Pkt., 5c.; 3 pkts., 10c.

EXTRA CHOICE MIXED—All best colors, single and double. Pkt. 5c.; 3 pkts., 10c.
GORGEOUS PHLOX MIXTURE—For beds and massing nothing is better than these beautiful Annuals. They grow to about 30 inches in height and produce large masses of immense brilliant flowers of various colors and markings, throughout the season. We have selected this mixture which embraces so many colors as something to offer our customers which we consider very fine, and we are sure that everyone will be more than pleased with the gorgeous display a bed of these flowers will make. By all means give them a trial. Seed of all the Old Colors and Markings Mixed, per pkt., 5c., 3 pks., 12c., 6 pks., 20c.

LARGE BLOOD-RED—This is the darkest of them all, being of the deepest blood red color, rich and beautiful. Pkt., 12c., seeds, 5c., 3 pks., 12c.

DUKE WHITE—This is the very finest white variety and will produce an abundance of white flowers throughout the summer. Pkt., 15c, seeds, 5c., 3 pks., 12c.

NEW LARGE YELLOW—No variety is more admired than this on account of producing large flowers of a rich color. Pkt., 12c., seeds, 5c., 3 pks., 12c.

STARRIED AND FRINGED—This is the finest starred and fringed variety, having a bright eye in the center. The fringed flowers are distinctly bordered with white. We offer a Choice Mixture of Colors. Pkt., 12c., seeds, 5c., 3 pks., 12c.

BRILLIANT POPPIES—This is the finest collection of single and double flowering Annual Poppies ever offered. The plants branch freely, grow from 12 to 16 inches high and bloom continuously for weeks. The flowers are immense, both in color and size, often measuring 5 inches across, while the petals are fringed, and crinkled, so that in the sunlight they appear like satin. The colors range through all shades imaginable, such as white splashed crimson, rose blended, and numerous shades of red, orange, yellow, and scarlet, salmon, carmine, white veiled with pink, striped, dotted and edged, and numerous shades of orange and yellow being made available among Annual Poppies. The seed can be sown in the open ground early in spring and will produce a gorgeous effect for weeks during the summer. The greatest display of colors appear from the 1st to 4th of each day. All colors mixed, pkt., 5c., 3 pks., 10c., 7 pks., 20c.

NEW ICELAND—This is a new strain and contains many new colors, and flower the first season from seed. The colors include white, lemon, orange, rose, striped, blush and many other old markings. They are hardy perennials and produce an abundance of flowers from June until October. Mixed Colors, pkt., 6c., 3 pks., 15c.

IMPROVED SHIRLEY—This is a splendid strain, the habit of plant being dwarf and stout, blossoms of enormous size and of the most beautiful colors to be found among any flowers. All Colors Mixed, pkt., 5c., 3 pks., 10c.

SNOWDRIFT—This is a large variety producing pure white flowers, very round and double of large size and at a little distance a bed of them looks like a drift of snow. A bed of them is a grand sight. Pkt., 6c., 3 pks., 10c.

FAIRY BLUSH—This handsome variety grows about the same height as Snowdrift and produces handsome, globo-shaped flowers of immense size, and the petals are elegantly fringed and pure white, colored at the tips with rose cream making a very odd and attractive flower. Pkt., 5c., 3 pks., 10c.

NEW ADMIRAL—This is a brand new Poppy and quite a curiosity. We succeeded in securing the seed from Germany and we advise all to give it a trial. It is a new species from Asia Minor and doubles the finest of the open ground Poppies, sown in autumn it blooms from June through summer bearing flowers 2 to 3 inches across of a fiery dark orange-scarlet with black spots at base, with grey green foliage. This is a real novelty and the seed is very limited. Pkt., 6c., 3 pks., 15c.

GIANT DOUBLE POPPIES—BRILLIANT MIXTURE—This mixture is made up for all the Double Annual Poppies we have been able to secure seed of. We do not list but few Double Poppies under separate colors, but we have made a mixture that will surprise anyone. Imagine a bed of these Poppies 4 to 6 inches in diameter about as large as Paeonies and of all colors imaginable. We are sure a bed of these Giant Double Poppies will please you. All colors mixed, pkt., 5c., 3 pks., 10c., 7 pks., 20c.

PERENNIAL POPPIES—The single perennial Poppies are perfectly hardy and are very attractive on account of the large handsome flowers. Colors, white, red, orange and yellow: flowers measure 6 to 9 inches across. All colors mixed, pkt., 5c., 3 pks., 10c.

New Admiral Poppy

New Phlox, Bunch of Roses.

NEW PHLOX—Bunch of Roses—This is a splendid dwarf strain, the plants being completely covered with bright flowers. The flowers are large and vivid rose colored, with a darker spot of rose close to the base, while the center of the flower is pure white. On account of the large clustered heads, it's name, "Bunch of Roses" was selected. It is a great bloomer and we advise our customers to try it. Pkt., 6c., 3 pks., 15c.

CYCLAMENS

This is a splendid plant for blooming in the winter or summer. They are very rare in cultivation, producing a handsome plant which is covered with Orchid-like flowers. They are of the most beautiful colors, ranging through all the different shades of red, pink, spotted, variegated, etc., foliage is beautiful, being variegated with stripes of green. The plants develop a bulb which can be planted from year to year. We consider this one of the most showy plants for house culture and it is easily raised from seed. Pkt., 6c., 3 pks., 20c.

Banana or Musa

The rapidity of the growth of this plant is astonishing. It is a gorgeous and stately plant with giant magnificently shaped leaves of a beautiful bright green color. Seed—can easily be kept in a dry place and will grow plants eight feet high the first summer. It certainly is a curiosity and a few plants in your garden, once the lawn will make an ornamental and gorgeous effect. The seeds of this variety are scarce and hard to get, but we have succeeded in securing a supply which we can offer to our customers this year. Price, per packet, 15c., 2 packets, 25c.
Large Flowering Scarlet

This is a most gorgeous plant with its brilliant colors producing an abundance of bloom during the summer. The great spikes of bloom completely conceal the foliage, making it a blaze of flaming scarlet. One plant will produce several hundred spikes of flowers in a season, each spike being about ten inches in length. For packets, 6c., 3 pks., 12c.

Salvia or Scarlet Sage

Ricinus (Castor Oil Bean)

This is a beautiful flowering vine with fern like foliage and clusters of flowers. It is claimed that the leaves by changing their position foretell the weather two days in advance. If the leaves stand upwards from the twig at an angle of 45 degrees the sky will be cloudless and the weather beautiful. If they should stand out straight then changeable weather is indicated, or if the leaves droop down the indications are rain, and when the leaves are hanging straight down it indicates it will be very wet. Everybody should have this plant growing about their home. Price, 3c., 5c., 3 pks., 10c.

Zanzibarensis—This is a handsome quick growing variety and if planted in the open ground in May should be in full foliage by July and attain a height of from 12 to 14 feet during the season. This is a giant variety and a few plants in a large bed make a most picturesque sight to be admired a long distance. The gigantic leaves measure 2½ to 4 feet across and are a magnificent sight. Giant Varieties Mixed, pkt., 6c., 3 pks., 15c.

Spadunia

These produce perfectly double flowers, borne upon long slender stems, well above the foliage. Very useful for cutting. The colors range from white to rich crimson, deep red and pink, like and other delicate shades, some almost black. All Colors Mixed, per pkt., 5c., 3 pks., 10c.

Torenia

These are excellent for pot culture, borders or baskets. A profuse bloomer and a popular annual. They do well in open ground. All Colors Mixed, pkt., 5c., 3 pks., 12c.

Snapdragon

This is a charming old fashioned flower, produced in many colors, such as yellow, scarlet, white, etc. It is a perennial and blooms well the second season. It succeeds well as an annual. All colors mixed, pkt., 5c., 3 pks., 10c.

Salpiglossis, (Velvet Flower.)

Water Lilies

Seed should be sown in a pan of mud just covered with water and kept in a warm temperature where they will germinate quickly and grow rapidly. Our seed includes many new foreign varieties that will flower the first year and a packet of seed will produce many old and curious flowers. We offer a collection of Choice Varieties in a Mixture. Pkt., 15c., 2 pks., 25c.

Sweet William

Excellent for dried or for borders, producing large heads of the richest flowers early in the summer. Very fragrant, excellent for bouquets. Single mixed all colors, per pkt., 5c., 3 pks., 10c. Double Mixed—Produces double flowers all colors, pkt. 6c., 2 pks., 10c.

Schizanthus, The Christmas Orchid Flower

Schizanthus—This is a very showy and desirable flower. It is spotted and striped with crimson, violet and yellow, making the flowers and plants have an odd appearance. It blooms well during the summer or if planted in October it blooms during the winter as a house plant; and about Christmas time it is in full bloom. On account of its easy culture we know it will give great satisfaction. Finest Mixed All Colors, per pkt., 5c., 3 pks., 10c.

Virginian Stocks—A Hardy Annual of very easy culture, containing all the colors known in Virginian Stocks, and is a very delicate and pretty little flower. Per pkt., 5c., 3 pks., 10c.

Everlastings

This collection is made up of all the leading varieties of Everlasting Flowers. They are very attractive, as a bouquet of these flowers will keep for years without a drop of water and look as fresh as when first picked. We offer a very choice collection of Mixed Colors, and our seed cannot be equalled in this country. Pkt., 100 seeds, 5c., 3 pks., 10c.
New Giant Flowering
Sweet Peas.

GORGEOUS MIXTURE

Not half enough can be said to describe the
great beauty of this GORGEOUS MIXTURE
OF SWEET PEAS. The plants are healthy and
vigorous, producing in greatest abundance
flowers of gigantic size, borne on long strong
stems, ranging through all shades of colors,
apple blossom pink, crimson, lavender, or-
ange, flush, white striped mauve, pink with
rose wings, primrose yellow, blue, chocolate,
creamy white, deep maroon, rose and white
with blue edge, bright and indigo blue,
orange salmon, pure white and many other
shades impossible to describe. They begin
to bloom early in the season and continue
for months. This magnificent mixture of Sweet
Peas can only be obtained from us this season.

Per pkt. 5c.; 3 pkts., 10c.; 7 pkts.,
20c.; 12 pkts., 30c.; 3/4 oz., 50c.; 1 oz., 75c.

EARLIEST OF ALL—This is
a very early vigorous grower and al-
ways comes into bloom nearly two
weeks in advance of any other vari-
esti. It is so early that two crops
of flowers may be grown in one sea-
son by simply planting early in the
spring and those that go to seed if
sown in August will produce flowers
in the fall. Try them. Pkt. 6c.;
3 pkts., 8c.; 1 oz., 10c.

EXTRA EARLY BLANCHE
FERRY—This is a very early var-
ety. Standard rose pink, wings
white tinted rose. Pkt., 5c.;
3 pkts., 8c.; 1 oz., 10c.

INVINCIBLE RED—White
stripe on scarlet. Pkt., 5c.;
3 pkts., 8c.; 1 oz., 10c.

CAPTAIN OF THE BLUES
—Standard light purple, wings
lavender. Pkt., 6c.; 3 pkts.,
8c.; 1 oz., 10c.

PRINCE OF WALES—White
stripe mauve. Pkt., 5c.;
3 pkts., 8c.; 1 oz., 10c.

RED RIDINGHOOD—Pro-
duces bright dark rosy pink flowers
in abundance. Pkt., 6c.;
3 pkts., 8c.; 1 oz., 10c.

BLACK KNIGHT—Very
dark maroon color. Wipe
brownish purple. Pkt.,
8c.; 1 oz., 10c.

BLUSHING BEAUTY—Has
peach blossom pink color. Very
beautiful shade. Pkt., 5c.;
3 pkts., 8c.; 1 oz., 10c.

EMILY HENDERSON—Very
dark, large pure white flowers.
Pkt., 5c.; 3 pkts., 8c.; 1 oz., 10c.

LOTTIE ECKFORD—White
shade and edged with soft
lavender. Pkt., 5c.; 3 pkts.,
8c.; 1 oz., 10c.

PER UNIAL
SWEET PEAS.

We cannot praise this lovely Hardy vine
highly enough, for it blooms constantly from early
summer until late in autumn. The plants pro-
duce a profusion of clustered flowers on long
stems in various colors of white, pink, rose,
carmine, etc.; these flowers being of large size.
All Colors—Mixed, pkt., 5c.; 3 pkts., 10c.;
20c.

Cupid Sweet Peas
A Dwarf Variety

These Dwarf Sweet Peas grow only about
five inches high, spreading out and forming a
mass of foliage and flowers. No garden or
over bed is complete without this little
variety.

WHITE CUPID—Produce waxy white
flowers, nearly as large as Emily Henderson,
very sweet. Pkt., 5c.; 3 pkts., 10c.

PINK CUPID—Exactly like the white
except in color, which is a lovely pink. Pkt.,
5c.; 3 pkts., 10c.

CUPID BEAUTY—This is the most beau-
tiful of the Cupids, growing from six to seven
inches high. Standard rose pink, shaded to
carmine. Pkt., 5c.; 3 pkts.,
10c.

CUPID PRIMROSE—A beautiful prim-
rose in color. Very dainty. Pkt., 5c.; 3 pkts.,
10c.

CUPIDS, MIXED COLORS—All the
colors of Cupid Sweet Peas in a mixture. Pkt.,
5c.; 3 pkts., 10c.; 17 pkts., 20c.

Crimson Cluster
SWEET PEAS

Crimson Cluster Sweet Peas—We con-
sider this as quite a novelty and somewhat resembling the
Perennial Peas, as the flowers are produced in clusters.
The vines grow very vigorous and the clusters sometimes
contain from four to eight or ten large blossoms of a rich
crimson scarlet, some of which are quite double, and these
flowers are very fragrant. On account of the great abun-
dance of flowers produced, we are offering this new Crim-
son Cluster Sweet Peas as something rare and of great in-
terest to our customers. By all means give it a trial.
Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

Bush Sweet Peas

BUSH—A half dwarf form of Sweet Pea growing
nearly 18 inches high. Needs no support, it is a vigorous
and profuse bloomer, producing flowers in white, pink,
rose carmine, violet, striped, and various shades and
markings found among Sweet Peas. A good sort to grow.

Mixed Colors, pkt., 5c.; 3 pkts., 10c.; 1 oz., 25c.

White Cupid Sweet Peas
**Mills' Choice Verbenas**

**TAUTED OR BEDDING "PANSY--VIOLETS."**

**GIANT ZINNIA'S**

**STOCKS, (TEN WEEKS)**

**GIANT MAMMOTH MIXED**

**TECOBIA VELUTINA**

We are pleased to offer this beautiful shrub because its desirable qualities are comparatively unknown. It bears large spikes of large, golden yellow, almanaka-like flowers. It blooms from seed when only 12 inches high, and is a continuous and perpetual bloomer. It grows to be 10 or 15 feet high and is always full of flowers. It should be tested in the green house, for it far surpasses T. Smithii in every way. The seeds are very light, germinate quickly, and plants grow rapidly. Pkt. 5c., 3 pkts., 10c.
SHOO-FLY PLANT.
THE MAGIC WONDER.

Japanese Flowering Iris Kämpferi

PRIMULA, (Chinese Primrose)
HANDSOME PRIMROSES FROM SEED.

But very few know what fine flowering plants and grand flowers these lovely flowering Japanese Iris produce from seed. A bed of these Iris is a beautiful sight, as some will be double, some single, but always different colors. The illustration will convey but a faint idea of the great beauty of these flowers. There are hardly any two alike. We would like to have our customers try them. Have a bed of them this year. Per pkt., 6c.; 3 pkts., 15c.

ELECTRIC LIGHT PLANT.

Here is a wonderful curiosity, which produces a sturdy bushy plant growing to the height of about four feet and covered with large spikes of flowers six to eight inches long.

These flowers are produced in lovely shades, which are pure white at base and ranging from rose to bright red at top of flower. It makes a showy and ornamental plant and when grown in clumps it is a beautiful sight. They can be readily grown from seed if planted in open ground early in spring. We are very anxious our customers should try this plant, as we consider it a very attractive novelty.

Seeds per packet, 6c.; 3 pkts., 15c.
FUCHSIA

This well-known house plant will bloom the first year from seed if sown reasonably early. We offer a splendid mixture made up of double and single varieties, which should produce a variety of colors.

Double and Single Mixed, per pkt. 15c; 2 pkts., 25c.

GERANIUM SEED

Well-known popular plants for either pot culture in the winter or summer bedding. Few people know how easily and quickly they bloom from seed. You can get all the plants you want with very little trouble and expense by sowing the seed. Some of the finest sorts have been raised from seed. Start early and you will have plenty of bloom the first year.

Extra Choice, Good Mixed Double and Single, per pkt., 10c; 3 pkts., 25c.

TRITOMA

The Tritoma is sometimes called Red Hot Poker or Torch Flower. It will bloom the first season from seed, sending up tall flower stems on which are borne the great blossoms of a bright red or flame color. Single plants produce from five to dozens of these great flowers, stalks growing 3 to 4 feet high, presenting a brilliant appearance.

Per pkt. 8c.; 3 pkts., 25c.

FERNS

It is very easy to raise a great collection of Ferns from the seed. They make splendid decorations for the table, windows, etc. The seeds are very fine and should be sown in shallow boxes on the surface of moist soil with an extremely light covering of crushed or sifted leafmold. Ferns require a light sandy soil, well enriched.

Choicest mixed, from a very fine collection, all sorts, per pkt., 10c.; 3 pkts., 25c.

SMILAX—We offer the popular Boston Smilax, which is the most desirable window vine on account of its charming glossy green foliage.

Per pkt., 5c.; 3 pkts., 10c.

Morning Glories

IMPERIAL JAPANESE

This is a plant type producing handsome colors, shapes and markings and many of the most beautiful climbers. Our choice mixed strain embraces all the shades to be found among Morning Glories, and must be grown to be appreciated. Choice Mixed, per pkt., 5c., 3 pkts., 10c.

New Dwarf Pigmy—This is a new dwarf type with peculiar and handsome colors, shapes and markings. It grows in bush form. The colors are exceedingly rich, and the bloom is very large for such a dwarf Morning Glory. Imagine a pot of three or four plants growing only about a foot high, all the flowers covered with the same monotone flowers of different colors from 4 to 5 inches in diameter.

Pkt. 10c.; 3 pkts., 25c.

This is a most attractive Morning Glory which are of gigantic size and the coloring

American Hybrid—The flowers of this Morning Glory are of gigantic size and the coloring

The flowers are of such a type that they can be exhibited in flower shows and will sell for double the price of ordinary Morning Glories.

CYPRESS VINE

This is a beautiful and artistic vine. The leathery foliage and star shaped flowers give the plant a charming effect.

Colors, per pkt. 50 seeds, 10c.; 3 pkts., 10c.

Here is a curiosity and we believe will be very popular for lawn or house decorations and account of its rapid and vigorous growth. The recurving leaves, which are narrow and grow very gracefully are overlapped by elegant feathery plumes about a foot long. The heads are borne from July until frost and the whole plant seems to be veiled in a purple cloud. It certainly is the most beautiful and ornamental house plant of easy culture which can be readily grown from seed. Price, per pkt., 10c.; 3 pkts., 25c., postpaid.
Summer Flowering Bulbs 63

BURBANK'S GIANT AMARYLLIS
This is a new race of Amaryllis and are marvels in beauty as well as size. The bulbs are strong and showy, healthy foliage and strong flower stalks, each producing blossoms of mammoth size. Mr. Burbank has spent many years in hybridizing and perfecting this strain, the flowers often being more than one foot across. We believe there is no strain of Amaryllis in the world that is superior to this. Our collection is made up of mixed colors, many of them bloom several times a year. Not half enough can be said to give but a faint idea of the great beauty of these flowers, and they should be grown to be appreciated. Bulbs, mixed colors, 25c. each; 5 for 60c.; 6 for $1.00, postpaid.

EXCELSIOR DWARF DOUBLE PEARL TUBEROSE
This is the best double Tuberose in cultivation, blooms early and bears immense spikes of large pure white, perfectly double, sweet-scented flowers. We offer very choice flowering sized bulbs, 5c. each; 6 for 25c.; 12 for 50c.; 30 for $1.00, postpaid. By express not prepaid, $1.00 per 100.

The Famous Japanese Kudzu Vine.
(Jack and the Bean Stalk Vine.) This comes from Japan, and the land so productive and curious for ornamental flowers. With ordinary treatment it will grow seventy feet in one season, filling the air with the fragrance of its large clusters of wisteria-like blossoms. It requires very little care and in three months this wonderful vine progresses as much as most vines do in five years. It is perfectly hardy, lasts for years and everyone should plant it. The foliage is large, shaped like the leaf of a bean, and the flowers are a pleasing shade of purple. Per pkt., 15 seeds, 5c., 3 ptk., 10c.

Allegheny Vine
This is one of our best hardy climbing plants being a native of the Allegheny Mountains, very attractive and picturesque. Flowers, rose, pink and white. Try it this season, it's a wonder. Per pkt., 5c., 3 ptk., 10c.

JAPANESE HOP VINE
This is a handsome vine, growing from twenty to thirty feet in a season. The leaves are striped and variegated making a charming effect. It is a rapid summer climber and one of the best plants for covering verandas, trellises, etc. Heat, droughts and insects do not trouble it. Per pkt. 50 seeds, 5c., 3 ptk., 10c.

Japanese Giant Flowering Dolichos.
(Hyacinth Bean.) This annual climber grows about ten feet high, branching out well from the bottom, producing an abundance of sweet pea like blossoms, borne in long wisteria-like clusters, nearly a foot in length. The foliage is very dense and is insect proof. Mixed Colors per pkt., 6c. 3 ptk., 15c.

MOON FLOWER VINE
(Ipomoea grandiflora.) This vine has become very popular, and on account of its being a rapid grower, it has taken the lead among the annual climbing vines and no one who has a trellis or arbor, veranda, or old tree to cover should fail to plant the Moon Flower. It is the most rapid growing of all climbing vines and if given a sunny situation and plenty of water, it will attain a height of from forty to sixty feet and covered with thousands of immense white fragrant flowers, opening in the evening and remaining open until nearly noon the following day. The flowers are from five to seven inches in diameter. Per pkt., 6c., 3 ptk., 15c.

COBEA — [Scandens]
A rapid growing climber, attaining a height of fifteen to thirty feet produces large, purplish flowers. Per pkt., 15 seeds 5c.; 3 ptk., 16c.

The Japanese Kudzu Vine.
Lycoris Squamigera or Amaryllis Hallii

A JAPANESE FLORAL BEAUTY

THE MAGIC LILY OF JAPAN!

PERFECTLY HARDY IN THIS COUNTRY.

This Lily is distinct from any other in its large, beautiful pink flowers. Early in the spring it produces unusually attractive green strap-leaf foliage, too unique to compare with any other foliage we can mention. This foliage retains its full brilliancy until in July, when it ripens and disappears, and one not familiar with the plant would at this time judge from appearances that the bulb was dead. The most beautiful is yet to come, and about three weeks later, the bulb shoots a stalk from the ground like magic, to the height of three or four feet, developing a cluster of lilies from six to fifteen in number, each from three to four inches across, with coloring of the most pronounced, yet delicate pink, imaginable, shaded with clear blue. The first flower retains its beauty of color and shape, even to the extremity of its petals until long after the opening of the last bud on the stem.

This Lily is perfectly hardy and succeeds in ordinary garden soil. The bulbs need no protection and can be planted in the fall or spring but we advise spring planting. Cover the crowns about four inches.

If there is only one flower you order this year let it be this Wonderful Lily. It’s a most magnificent thing.

Price of Bulbs, 20c. each: 3 for 50c., postpaid.

New Japanese Lily, “Ruby Glow” - THE PRIDE OF JAPAN

This variety is very beautiful, producing grand large Tulip-shaped blossoms of many shades and colors. The bulbs of upright Cup-like flowers are very pleasing, the illustration conveying but a faint idea of this handsome Lily. The flowers are produced on erect stalks and this variety is among the earliest of all lilies to bloom. We have a choice lot of bulbs direct from Japan which include many fine colors.

Bulbs 12c. each; 3 for 30c.; 6 for 50c., postpaid.

LILIUM ELEGANS - SPOTTED CALLA LILY

This is a very beautiful variety, producing large Tulip-shaped blossoms of many shades and colors.

The umbels of upright Cup-like flowers are very pleasing, the illustration conveying but a faint idea of this handsome Lily. The flowers are produced on erect stalks and this variety is among the earliest of all lilies to bloom. We have a choice lot of bulbs direct from Japan which include many fine colors.

Bulbs 12c. each; 3 for 30c.; 6 for 50c., postpaid.

EASTER GLADIOLUS

This variety is well adapted to pot culture and is an early flowering sort and will produce beautiful flowers for Easter. Pot bulbs in winter and at least three may be planted in a five inch pot. They will soon be up and about Easter will show handsome spikes of bloom. The color is a white with a lemon tinge and a large bright crimson center, which makes them very attractive. In the garden they bloom earlier than any other kind.

Good Bulbs, 6c.; 3 for 15c.; 6 for 25c., postpaid.

CINNAMON VINE

This produces white flowers, while the leaves are dark green in color and covered with transparent white spots. The centre of the flowers are black and are very beautiful. The bulbs grow and bloom freely in the window or open garden. Good bulbs 12c. each; 3 for 30c.

Summer Flowering Oxalis Bulbs

These little bulbs quickly thrive on a mass of pretty foliage and flowers, the bulbs being not much larger than peas. They make fine border plants and are desirable for pot culture. The flowers are delicate colors.

Bulbs, mixed colors, 12 for 10c.; 25 for 15c.; 50 for 25c.; 100 for 40c.
Giant Tigridias

These are one of the most showy of all summer flowering bulbs. They bloom from mid-summer until frost, growing about two feet high, while the blooms are from 4 to 6 inches across. A clump of them makes a most gorgeous effect on account of the colors and markings being so very brilliant, odd and attractive. But few flowers can equal the Tigridias for beauty. They are easily grown and one can hardly realize their beauty on account of the odd colors and markings. We offer good bulbs containing all colors and markings, 10c. each; 3 for 25c.; 7 for 50c., postpaid.

Mammoth Gloxinias

We offer a great collection of GIANT GLOXINIAS. They are the grandest of all summer flowering bulbs. No trouble to grow and they bloom constantly until autumn, when they should be allowed to die down and then store away in a warm place until the next spring, when the bulbs can be planted again. The bulbs we offer will make a gorgeous display, producing handsome trumpet-shaped flowers all colors, such as pure white, blood red, indigo, pink and scarlet, spotted and edred, tinted shades with many combinations of all colors, always rich and beautiful beyond description. Larger flowering bulbs all colors mixed, 10c. each, 3 for $35; 7 for $50, postpaid.

You can grow Gloxinias from seed—Gloxinia Seed, a large collection of colors mixed, Pkt., 10c.; 3 pkts. for 25c.

GORGEOUS TUBEROUS ROOTED BEGONIAS.

There is nothing more showy than our collection of TUBEROUS ROOTED BEGONIAS. There is no bulb easier of culture and more brilliant in bloom. The bulbs bloom the garden in summer or in the house in the winter and are as easily cared for as a geranium. The flowers are from 5 to 7 inches in diameter. The plants grow about 12 inches in height and are in bloom continually, fairly blazing with their gorgeous coloring of rose, crimson, white, orange, yellow, scarlet, blotched, etc. We offer bulbs SINGLE, DOUBLE and CRESTED in all the various colors and markings.

Single—All colors mixed, 6c. each; 5 for 25c.; 12 for 50c.
Double—All colors CRESTED—These are very handsomely, embrace all shades and colors, 30c. each; 3 for 75c.

Begonia Seed—We offer choice seed that will produce plants that will bloom in from 3 to 8 months time. Choice mixture of colors, both single and double, pkt., 15c.; 3 pkts., 25c.

Gloxius Bulbs

We offer the best collection of Colors on the Market.

The Gladiolus is one of our specialties and we have spared no expense in selecting all the latest and best varieties in order to offer a grand mixture. Gladiolus are about the most beautiful and useful of our summer flowers. The spires are large, soft and delicate and varied in a hundred hues, also marked like Orchids. They are of easy culture, grow in any garden soil, always flower the same season. Our fancy mixture can be relied upon to produce shades of the most beautiful colors: yellow, crimson, buff, salmon, lemon, rose, pink, white, cherry, maroon, scarlet, etc., in fact all the odd marked sorts that one can think of. All the giant flowering varieties are included, which will make a gorgeous display. All old, poor and common sorts have been discarded and this mixture is of a higher grade.

Flowering size bulbs, all colors mixed, 5 for 10c.; 12 for 20c.; 60 for $3.50; 100 for $5.25, postpaid. By express, 100 for $1.00; 500 for $4.75, not prepaid.

GLADIOLUS SEED—All colors mixed, very fine. Pkt., 6c.; 3 pkts., 15c.

HAVE you ever heard of the large French Strawberries? They can be grown from seed and if you have never seen them, this is your opportunity to grow some in your own garden. Their great size and luscious sweetness will surprise you, being far ahead of American varieties in this respect. They are produced in clusters, large in size and a perfect wonder to all who have seen them. These Strawberries can be easily grown from seed and they are the most interesting of all fruit to grow because they grow so large and produce handsome berries. The seed should be sown early in a hot bed or in a box in the house, or in the open garden in a seed bed as soon as the weather will permit, and when the young plants are well started, transplant in rows three feet apart and two feet in the row. We cannot furnish any plants this year but by following out directions it is very easy to soon have young plants started from the seeds.

We are particularly anxious that all of our customers should try this grand new Strawberry this year on account of its being so much different than the American varieties. Per pkt., 5¢; 3 pkts., 12¢; 6 pkts., 20c.

THIS STRAWBERRY will surprise all who grow it and we consider it very fortunate for us that we are able to offer our customers this grand new Giant Strawberry direct from California. It was raised from a Seedling Strawberry in Placer County, and is now the leading berry in that County. It is a remarkable variety for shipping, having been shipped over 1000 miles in perfect condition. It is an upright grower, producing a strong plant which does not make but very few runners. The fruit is produced in abundance being scarlet in color; is very firm and sweet, and will demand a fancy price in any market. We cannot furnish any plants this year, but it can be easily grown from seed and we have a limited supply to offer with instructions for growing. By all means start this grand Strawberry this year. There is not a fruit in this Catalogue that will give greater satisfaction than this Wonderful Strawberry. Seeds per packet, 5¢; 3 packets 12¢; 6 packets, 20c.
This Mammoth Variety differs somewhat from any other Blackberry on account of the size and shape of its fruit, and its wonderful habit of trailing.

The vine is a vigorous grower and will trail on a fence or arbor from 15 to 20 ft., producing enormous clusters of these mammoth fruits, which continue in bearing throughout a long season for a berry of this class. The plants are hardy and both plant and fruit will stand extremes of heat and cold better than any other mammoth blackberry of its size.

It would be hard for you to realize what a great thrill a day of these mammoth berries would be, and we are sure that there will be a great demand for the fruit as soon as they are known and a sufficient supply grown to place upon the market.

The Illustration conveys but a faint idea of the size, shape and handsome appearance of the mammoth fruits. There are only a few of this variety growing in the United States, but you will be surprised how easy plants can be started from the seed and how soon you will have them producing fruit in your own garden.

We are offering seed of this Berry this year for the first time. Try it.

Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

This is one of Mr. Burbank's latest Berry Triumphs. He describes it as being larger than the largest berry ever before known, bright crimson raspberry color, productive as could be desired and the most delicious of all berries for home use.

The berries grow in clusters from five to ten or more. Individual berries under favorable conditions, have measured 3 inches around one way by 3½ to 4 inches the other way. It's a surprise and delight to people when first seen, being so large and luscious. Mr. Burbank has recently said: "It is the best berry in the world, and the prophecy of others is that it is the coming berry."

It is pronounced by experts "the greatest wonder of all." It tastes and looks like both Raspberry and Blackberry. It is one of the most remarkable new fruits ever introduced and is all that is claimed for it.

A half dozen plants in the garden will produce enough fruit for any ordinary sized family. You can start this berry from seed and we have secured a good supply from our grower and we are only offering seed this year.

By all means start it this season.

Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.
Giant Himalaya Blackberry

One of the Greatest Creations

This Giant Blackberry should be grown in every garden in the United States because the vines are such vigorous growers and will trail on any support to a great length, producing enormous clusters of fruit with no core, of unusual sweet and rich flavor. The plants being hardy, both plant and fruit endures extremes of heat and cold better than any other variety. We purchased direct from Mr. Luther Burbank seed of this Giant Blackberry and in describing it he says:

"The Giant Himalaya Blackberry is one which I introduced. In my opinion it is about the best Blackberry in existence for these reasons: The vines do not sucker out from the roots like many blackberries, the strong canes sometimes run from a length of 25 to 75 feet, one established bush will bear more than 20 of the ordinary blackberries heretofore known. The berries grow on enormous clusters about a foot and a half long and 8 to 10 inches in diameter, which are produced well out from the vines. The quality is the most exquisite and rich blackberry flavor of any blackberry known."

We know all our customers will want to start a few plants of this Giant Berry this year for there is sure to be an enormous demand as soon as they become known. Now is the time to start and be the first in your neighborhood to grow these wonderful berries and you will be surprised how easily you can start plants from the seeds and soon have them producing fruit in your own garden.

Choke Seeds purchased from Mr. Burbank, P. 10c., 3 pkts. 25c., 6 pkts. 40c., 12 pkts. 60c., 25 pkts. $1.00.

Mills Seed House ~ Rose Hill, N.Y.
